Public Health & Primary Care Internal Medicine Training Directories

SGIM is pleased to announce the newly improved Primary Care Internal Medicine residency and fellowship directories are back online at SGIM.org.

The residency directory informs medical students about residency programs in general (primary care) internal medicine. For students who are interested in primary care medicine and considering careers as general internists, but undecided, the Directory provides information and guidance about the field of general internal medicine as well as the contents of residency programs. For students committed to becoming general internists, the Directory contains essential information about primary care residencies to help prospective applicants evaluate programs and select which ones to contact.

The fellowship directory provides similar information on available fellowship programs in primary care nationwide and served previously as the only comprehensive listing of fellowships in primary care.

The revised directories have been joined by the new public health training directory. This database includes Internal Medicine residency programs that offer specialized training in domestic public health topics. Programs listed here have self-identified as having special educational tracks, elective rotations in public health, or primary care tracks that emphasize community health.

Name Badges

Please make sure to wear your name badge to gain entry to all Annual Meeting events. Staff in the registration area will gladly make corrections and/or provide replacements.

Photographer/Videographer

SGIM employs a professional photographer during the Annual Meeting who will be taking still pictures of Annual Meeting events and participants. We also plan to videotape a few sessions. These images may be used for SGIM promotional materials, either in print and/or on the SGIM website.

Annual Meeting Press Policy

SGIM permits members of the press to attend its Annual Meeting sessions. Members of the press are required to:

- register to attend the meeting
- wear name badges
- affix a "Press" ribbon to that name badge

Annual Meeting session coordinators of workshops, symposia and updates have the option of closing their sessions to members of the press, by asking if any are in attendance and asking them to leave. Oral and poster sessions of scientific abstracts, clinical vignettes and innovations are open to the press.

PLENARY SESSIONS • KEYNOTE ADDRESSES

THURSDAY OPENING PLENARY SESSION KEYNOTE ADDRESS

Presidential Address

William P. Moran, MD
Professor of Medicine, Director of General Internal Medicine & Geriatrics, Medical University of South Carolina

Dr. Moran graduated from Medical School and completed residency training in Internal Medicine at Georgetown University. While serving four years in the National Health Service Corps, he practiced full time at a community health center affiliated with Boston City Hospital/Boston Medical Center.

He completed a Geriatrics Fellowship and received a MS in Clinical Epidemiology from Wake Forest University in 1992. After joining the faculty at Wake Forest, he was a Robert Wood Johnson Faculty Scholar and served as the Residency Program Associate Director for Primary Care. In 1997 he became chief of General Internal Medicine at Wake Forest School of Medicine, and co-director of the Center for Health Services Research and Quality. From 2001 to 2005 he served as the Clinical Director for the northwest region of Community Care of North Carolina. In 2005, he joined the MUSC faculty as McKnight Professor on Aging and Director of the Division of General Internal Medicine and Geriatrics.

His early clinical and research focus was in Geriatrics, preventive care in aging, and chronic illness management. His recent work has centered on local health system changes which support physician decision-making in clinical practice, facilitate interdisciplinary care and improve quality of care. His areas of focus include analysis of the clinical environment, coordination of the clinical teams and informatics infrastructure for the Patient-Centered Medical Home.

FRIDAY PLENARY SESSION KEYNOTE ADDRESS

The Role of the General Internist in Canada's Evolving Healthcare System

Jeffrey Turnbull, MD, FRCPC
Chief of Staff, The Ottawa Hospital

In addition to a BSc (University of Toronto) and a Masters Degree in Education (University of Western Ontario), Dr. Turnbull received his Doctorate in Medicine at Queen's University and later achieved specialty certification in Internal Medicine through the Royal College of Physicians and Surgeons of Canada in 1982.

Dr. Turnbull has been the Vice Dean of Medical Education at the University of Ottawa from November 1996 to July 2001, the President of the Medical Council of Canada from 1998 to 2001, the President of the College of Physicians and Surgeons of Ontario from November 2006 to November 2007 and finally the President of the Canadian Medical Association from August 2010 to August 2011.

Dr. Turnbull has pursued an interest in poverty and its effect on health nationally and internationally. He is one of the founders and is currently the Medical Director of the Inner City Health Project for the homeless in Ottawa. As well, he has been involved in education and health services initiatives to enhance community and institutional capacity and sustainable development in Bangladesh, Africa and the Balkans. He is the recipient of several national and international grants and awards, including the Order of Canada, the Queen Elizabeth II Diamond Jubilee Medal and an Honorary Degree of Law from Carleton University.

In addition to being a specialist in Internal Medicine, Dr. Turnbull was the Department Chair of Medicine at The Ottawa Hospital and University of Ottawa from July 2001 to June 2008, a position he left to take on the role of Chief of Staff. He also currently serves as Senior Medical Officer for Correction Services Canada as well as Chief, Clinical Quality for Health Quality Ontario. He remains committed as a medical educator with special interests in "Poverty and Health Inequity" and associated health policy.

SATURDAY AWARDS BREAKFAST KEYNOTE

2015 Malcolm L. Peterson Honor Lecture

Malcolm Cox, MD
Building Health Care Value through System Redesign: Leverage at the Point of Interprofessional Care and Education

Dr. Cox is an Adjunct Professor of Medicine at the University of Pennsylvania. He most recently served for eight years as the Chief Academic Affiliations Officer for the U.S. Department of Veterans Affairs in Washington DC, where he oversaw the largest health professions training program in the country and repositioned the VA as a major voice in clinical workforce reform, educational innovation, and organizational transformation. Dr. Cox received his undergraduate education at the University of the Witwatersrand and his MD from Harvard Medical School. After completing postgraduate training in internal medicine and nephrology at the Hospital of the University of Pennsylvania, he rose through the ranks to become Professor of Medicine and Associate Dean for Clinical Education. He has also served as Dean for Medical Education at Harvard Medical School; upon leaving the Dean's Office, he was appointed the Carl W. Walter Distinguished Professor of Medicine at Harvard Medical School.

Dr. Cox has served on the National Leadership Board of the Veterans Health Administration, the VA National Academic Affiliations Advisory Council (which he currently chairs), the National Board of Medical Examiners, the National Advisory Committee of the Robert Wood Johnson Foundation Clinical Scholars Program, the Board of Directors of the Accreditation Council for Graduate Medical Education, and the Global Forum on Innovation in Health Professions Education of the Institute of Medicine (which he currently co-chairs).

Dr. Cox is the recipient of the University of Pennsylvania's Christian R. and Mary F. Lindback Award for Distinguished Teaching and in 2014 was recognized by the Association of American Medical Colleges as a nationally and internationally renowned expert in health professions education.

2015 AWARDS & GRANTS

Visit the SGIM Awards Poster Gallery that recognizes all our award winners each year

The Robert J. Glaser Award
Nicole Lurie, MD, MSPH

Given to an individual for outstanding contributions to research, education, or both, in generalism in medicine, this is SGIM's highest award. It is supported by grants from the Henry J. Kaiser Family Foundation, the Commonwealth Fund, and individual contributors. Carlos Estrada, MD, MPH, chairs this year's award selection committee.

To be presented at the Opening Plenary Session on Thursday, April 23rd at 9:00 AM

The John M. Eisenberg National Award for Career Achievement in Research
Nancy Rigotti, MD

SGIM created this award in 2001 to recognize a senior member whose innovative research has changed the way we care for patients, the way we conduct research, or the way we educate our students. The award is named for its first recipient, the late John M. Eisenberg, MD, MBA, because of his unique role as a researcher, mentor, and Director of the Agency for Healthcare Research and Quality. SGIM member contributions and the Hess Foundation support this award. Rod Hayward, MD, chairs this year's selection committee.

To be presented at the Opening Plenary Session on Thursday, April 23rd at 9:00 AM

Herbert W. Nickens Award
Donna Washington, MD, MPH

Highlights

CONTINUING MEDICAL EDUCATION

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the University of Alabama School of Medicine (UASOM), and the Society of General Internal Medicine (SGIM). The UASOM is accredited by the ACCME to provide continuing medical education for physicians.

The University of Alabama at Birmingham is an equal opportunity/affirmative action institution.

CME Credit Designation

The UASOM designates this live activity for a maximum of 15.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. Wednesday daytime sessions may carry additional AMA PRA Category 1 Credits™. Your total number of AMA PRA Category 1 Credits™ will depend on how many sessions you attend.

CME credits are not provided for poster sessions, interest group meetings, or additional-fee meetings on Saturday. Physicians must complete an online CME application, identifying the specific sessions that they actually attended. All CME applications must be completed within 12 months of the last day of the Annual Meeting.

Please Note: Physicians may not apply for, nor claim, AMA PRA Category 1 Credit(s)™ for sessions in which they present; they may claim AMA PRA Category 2 credit(s) for preparation time.

Who Should Attend?

This meeting is designed to serve the needs of general internists and other primary care and specialty physicians interested in medical education, health care delivery and policy, and clinical general medicine.

Annual Meeting Purpose

This meeting is intended to develop the professional skills of academic general internists and others interested in medical education, health care delivery and policy, and clinical general medicine. A variety of learning modalities, including lectures, workshops, and author presentations, offers attendees the opportunity to develop a personalized educational experience. Research findings, interesting clinical cases, and skill-building opportunities addressing issues important to academic general medicine will be presented.

Learning Objectives

After participating in this CME activity, physicians should be able to:

1. Analyze the evidence behind different strategies to enhance partnership in general internal medicine clinical practice, teaching, research, advocacy, and/or leadership.
2. List at least one skill learned during the meeting to enhance partnership in their clinical practice, teaching, research, advocacy, and/or leadership.
3. Describe an action plan to apply at least 1 skill learned during the meeting to enhance their patient care, teaching, research, advocacy, and/or leadership.

Disclosure of Dual Commitments Policy

SGIM requires all presenting faculty to comply with the UASOM Policy on Financial Disclosure. Every presenter has provided that information, which is reviewed. SGIM has contacted each presenter disclosing commercial external funding in order to resolve all conflicts of interest. A copy of the University of Alabama School of Medicine Policy on Dual Commitments is available on the Annual Meeting website.

Engaging Conflict

Keith Regehr, BA (Hons), JD, MTS, Transforming Conflict, LLC, Kitchener, Ontario, Canada

Chestnut East Room, Mezzanine

Dealing with conflict in the work setting is complex. Dealing with conflict in high stress work contexts, such as health care settings, raises the complexity. Most professionals have limited training in the core skills, knowledge, and attitudes for effectively addressing conflict. This can create fear when faced with conflict, fear that prevents us from stepping into the conflict to find the way through. An alternate response is also possible: overconfidence in our ability to work with the conflict; after all, we all have conflict in our lives, so surely we can muddle our way through. Both responses are problematic. Both responses can be overcome. A common set of skills, knowledge, and attitudes will make escalation of negotiation into conflict less likely, and will make it easier to de-escalate conflict.

10:30 AM–12:00 NOON

Just Another Strategic Plan OR the Best Thing I Ever Did as a Leader?

Wendy Levinson, MD, University of Toronto, Department of Medicine

Chestnut East Room, Mezzanine

Medical leaders need to guide the development of priorities and actions to build their division. Well planned and executed strategic planning is essential to drive positive changes and to engage members of the division. This session will provide specific and practical advice on how to develop a strategic plan and, more importantly, how to implement it. It will cover the challenges and provide practical approaches. The session will be highly interactive.

12:00 NOON–1:15 PM

Lunch and Facilitated Networking

Willow Centre Room, Mezzanine

Participants will have opportunities to network and discuss issues of specific interest at topic tables.

Topic tables currently planned:

- Clinician Educator Portfolio
- Health Policy
- LEAD Participants
- Research
- Understanding Issues of Under-represented Minorities and Increasing Diversity

1:30–3:00 PM

Why Do Some Teams Succeed When Others Fail?

Irfan Dhalla, MD, MSc, FRCPC, Vice-president, Health Quality Ontario, Staff Physician and Associate Scientist, St. Michael's Hospital, Assistant Professor, University of Toronto

Chestnut East Room, Mezzanine

In this facilitated session, participants will discuss their own experiences with leadership and teamwork in academic medicine and reflect on what individual and team characteristics are associated with high-performing teams. The speaker will share evidence about high-performing teams from a variety of industries, which may help put personal experiences from academic medicine in context. Particular areas of focus will include: recruitment, building a high-performing team, managing conflict, and improving team performance.

3:15–4:45 PM

Break Out Sessions

1. **"Leaders and Light Bulbs"—Environments that Encourage the Growth of Leaders**
   Rick Leffke, The Carden Group
   Willow Room East, Mezzanine
   The role of the leader in any organization is to create environments that will allow people to shine. The environment is safe, secure and sound in civil principles. In this session you will have the opportunity to clarify your purpose, uncover proven formulas that create predictable outcomes in leadership, and create a plan for a higher levels of success through a planned approach.
2. **Defining the Role and Value of GIM—The Canadian Experience**
   Stephen W. Hwang, MD, Director, Division of GIM, Department of Medicine, University of Toronto, St. Michaels Hospital, Toronto; President-Elect, Canadian Society of General Internal Medicine
   Willow Room West, Mezzanine
   GIM in Canada, in contrast to GIM in the US, has traditionally defined itself as primarily a hospital-based discipline. After years of advocacy and debate, GIM in Canada has recently entered a new stage after achieving formal recognition as a distinct subspecialty of internal medicine. This change brings with it a number of opportunities and risks for GIM. This session will summarize the experience of GIM in Canada as it has sought to define its role and value; identify implications for GIM training, professional identity, and clinical practice; and consider potential future directions for GIM based on the Canadian experience.

Work Life and Wellness Program
A NEW initiative that addresses the growing concern around work life balance and stress prevention within GIM. This program provides GIM Division Chiefs a comprehensive evaluation of their faculty, analysis of benchmark wellness across divisions of GIM and evidenced-based intervention tools.

For more information, visit: www.aclgim.org/wlw

WORK LIFE & WELLNESS PROGRAM

Are you currently in a leadership role in GIM?
If so, we'd like to invite you to join the Association of Chiefs and Leaders in General Internal Medicine (ACLGIM) - an organization that seeks to assist you in your efforts as a leader/manager, educator, researcher, and clinician.

ACLGIM membership includes leaders in a variety of roles, including:

- Dean
- Department Chair or Director
- Division Chief or Director
- Clinical Director (Ambulatory and/or Hospitalist)
- Research Leader
- Clerkship, Residency, and Fellowship Program Leaders

Email Jillian Gann at membership@sgim.org for more information.

Joseph P. DeLuca, MD; Montefiore Medical Center
Pete Yunyongying, MD; Georgia Regents University and the University of Georgia Partnership

Each ABIM medical knowledge module contains multiple-choice questions that are completed through group discussion facilitated by session leaders, who will highlight the main teaching points for each question. At the completion of this session, those enrolled in ABIM's MOC program must submit their answers to ABIM for scoring in order to receive MOC credit. Participants enrolled in MOC should go to your Physician Login at www.abim.org. Log in and click on "My Maintenance of Certification Program" to order from the menu of available modules. At the conclusion of the Learning Sessions, each participant will transfer the answers to their online module and submit the module to ABIM for scoring.

ABIM will send participants a Score Report that will confirm whether or not the module was completed successfully. Those who complete each module successfully will receive 10 points toward ABIM's Self-Evaluation of Medical Knowledge MOC requirement.

In addition, The University of Pennsylvania School of Medicine has designated these medical knowledge modules as educational activities for a maximum of 10 AMA PRA Category 1 Credits™ each. Physicians enrolled in the ABIM MOC program who complete these modules should only claim credit commensurate with the extent of their participation in the activity. After you successfully complete your knowledge module and MOC credit is granted, a survey will appear on your home page for you to complete and submit to claim CME credit.

For additional information about ABIM's MOC program requirements, visit **www.abim.org** or call the ABIM Contact Center, 800-441-ABIM (800-441-2246).
