16hrs

Continuing Professional Development

Road Engineering Foundations

Best-practice road procurement and management

Designed for engineers, technical officers & works supervisors

Presented by industry experts from the **Centre for Pavement Engineering Education**, this four x half-day online course will address best-practice road design, construction and maintenance.

Learning Outcomes:

- the principles, players and practices supporting the national road industry
- a broad understanding of practical road design
- factors affecting pavement construction and optimal design methods
- sealed road investigation and evaluation
- the selection and design of pavement maintenance strategies and treatments for flexible pavements

CPEE has operated as a specialist road pavement training provider throughout Australia for over 25 years.

Session 1: Introduction to Road Management
9:00am-1:00pm 14 September 2022
