Senior Analyst | GCC Equity Research

The Opportunity

Akseer is seeking a Senior Analyst to lead coverage of assigned GCC sectors, from primary and secondary research through financial modelling, valuation and investment recommendations, for institutional clients invested in GCC equities.

What You'll Do

- Conduct primary and secondary research and build and maintain three-statement financial models and valuations across assigned coverage.
- Author initiation reports, earnings previews and reviews, and flash notes with clear, actionable investment recommendations, to client-ready standard and within deadlines.
- Review financial models and reports prepared by junior analysts; train and mentor analysts and trainees.
- Monitor earnings, corporate actions and sector developments, and issue timely alerts with a clear view on estimates and recommendations.
- Engage with clients and portfolio managers on assigned coverage.
- Maintain sector databases and contribute to periodic departmental reports.

Senior Analyst | GCC Equity Research

What You Bring

- Above 3 years of equity research experience, with hands-on experience in coverage initiations, detailed report writing and financial modelling.
- Bachelor's degree in Finance, Economics or Accounting from a reputable institution, or ACCA qualification.
- Strong command of valuation methodologies, including DCF, relative valuation and sector-specific approaches.
- Advanced proficiency in Excel; working knowledge of Bloomberg, Refinitiv or Capital IQ.
- Excellent written and verbal communication in English, with the ability to author detailed research reports independently and present an investment case.
- GCC coverage experience is strongly preferred; candidates with PSX or other emerging-market coverage are also encouraged to apply.
- CFA charterholders or active candidates preferred; the ability to read Arabic is an advantage.
