Re: **ISCT 2027 Scientific Annual Meeting Invitation**

Dear _____,

The International Society for Cell & Gene Therapy (ISCT) invites you to register and attend the 33rd Scientific Annual Meeting of the Society, ISCT 2027, to be held in Toronto, Ontario, Canada from May 12 to May 15, 2027, at The Metro Toronto Convention Centre. This letter serves to confirm your invitation to attend the meeting.

To further assist you in obtaining a visa, below is a description of the conference and how to access more information on the conference itself and ISCT as a Society.

Building upon the success of the ISCT 2026 Dublin Scientific Annual Meeting, this year's program consists of 25+ plenary and concurrent sessions, 25+ roundtable sessions, 650+ abstract presentations, corporate sessions, and global showcase presentations. Global key opinion leaders will present novel research, data and ideas, as well as discuss and debate pressing practical problems facing the sector.

We have invited a distinguished group of scientists, clinicians, policymakers, regulators, and industry experts from around the world to engage in the latest developments in the field of cell and gene therapy. We anticipate 3,000+ delegates will attend this highly regarded conference.

If you require a visa to travel to Canada, you are strongly encouraged to verify visa processing times and apply for your visa as soon as possible. After submitting your application, Immigration, Refugees and Citizenship Canada (IRCC) may ask you to provide biometrics. Biometrics must be provided in person at a biometric collection site; the processing of your application will not begin until biometrics are provided.

Please note that if you wait too long to submit your application to IRCC, do not respond promptly to their requests for information, submit an incomplete application, or do not include the Special Event Code (**sent following registration**) with your application, your application may not be processed in time for the event.

If you would like more information about ISCT or the ISCT Scientific Annual Meeting, please contact the ISCT Head Office at (604) 874-4366 or visit the meeting website at https://www.isctglobal.org/isct2027toronto/home. Information on ISCT can be obtained through the society website, www.isctglobal.org.

Sincerely,

Artin Rahbar
Specialty Membership & Program Management Associate
