Bio: Kathleen (Katie) Hill Gallant, PhD, RD, is an Associate Professor at the University of Minnesota in the Department of Food Science and Nutrition. She also holds a courtesy faculty appointment with the Department of Medicine-Division of Nephrology at Indiana University School of Medicine. Dr. Hill Gallant received her PhD in Nutrition from Purdue University and postdoctoral training in bone and mineral research at Indiana University School of Medicine. She holds a MS in Kinesiology and a BS in Dietetics from the University of North Dakota and has been a registered dietitian for 15 years. Prior to joining the faculty at the University of Minnesota, Dr. Hill Gallant was on faculty at Purdue University where she served as the Director of the Didactic Program in Dietetics for 7 years. Dr. Hill Gallant leads a clinical and translational research program focused on mineral metabolism in chronic kidney disease. Her research is funded in part through the National Institutes of Health, National Institute of Diabetes and Digestive and Kidney Diseases. Dr. Hill Gallant is a member of several professional organizations, including the National Kidney Foundation Council on Renal Nutrition, the International Society of Renal Nutrition and Metabolism, the American Society of Nephrology, the American Society for Bone and Mineral Research, the American Society for Nutrition, and the Academy of Nutrition and Dietetics.

Areas of Expertise: calcium and phosphorus, CKD-MBD
