PICTURE YOUR PICTURE

Capture your chapter event for eternity!

The main aim of a photograph should be to capture the essence of the moment, the incident, or event, etc. Those “Kodak” moments **can** be captured! These once-in-a-lifetime moments are often an emotional experience that you want to freeze for eternity. Simple knowledge of photography and a little skill enhances the possibility of good photos that will be worthy of your chapter album.

Photography

- With your perceptiveness and your camera, either digital or a traditional 35mm, you can capture that fleeting second to share with others!
- Every chapter meeting has its own dynamics. Chapter photographers need to have the camera ready at all times – batteries fully charged and film/media cards ready to go.
- Picture your picture before you actually take it.
- Plan to take photos during the meeting in order to capture the moment. Announce photo sessions for after the meeting if needed, and if you must take pictures of a group during the meeting have your camera ready and do not interrupt the dynamics of the meeting.
- If you appoint someone to take pictures while you are participating be sure they will do as good a job and will not interrupt the meeting.
- When taking a group photo before or after a meeting get creative with the arrangement. Be mindful of the background. Have some of the group stand, some sit and some kneel.
- Take plenty of pictures! You never know when you'll capture the perfect shot!

Photo Tips

- *Take natural pictures versus posed pictures when possible.*
- *Pay attention to lighting. Do not snap a picture with the sun, window, or light behind the object.*
- *Protect the camera's lens from scratches.*
- *Make sure the camera's batteries are charged and will not die during a shoot.*
