

Barbara Semeniuk's Bibliography

Barbara Semeniuk BSc. CRSP is President of Purcell Enterprises Ltd. a safety and loss management consulting firm. She has over 20 year's experience in industrial Health and Safety. She has conducted over 500 audits of companies both large and small in the Construction, Food Processing, Oilfield, Trucking, Retail, Security, and Manufacturing industries. She has taught auditing skills at Red Deer College, for the Food Processor's Association, the Manufacturers' Health and Safety Association and the Alberta Construction Health and Safety Association (ACSA). At the ACSA, Barbara was a pioneer in the creation of their auditor training course and the peer auditing system.

Barbara Semeniuk has a Bachelor of Science degree from Simon Fraser University (1982), an Occupational Health and Safety Diploma from the British Columbia Institute of Technology (1988) and a certificate in Adult and Continuing Education from the University of Alberta (1993). She is also a member of the Canadian Society of Safety Engineering, the American Society of Safety Engineers, and belongs to the Association of Canadian Registered Safety Professionals (since 1995).

Barbara Semeniuk is a very passionate and humorous speaker who believes that the proper use of Health and Safety audits reduces the terrible human costs of incidents and gives management an accurate measurement of their Occupational Health and Safety Management system. Other initiatives such as the Balance Score Card Measurement System, the Hardiness Factor all impact Health and Safety. As well, management, by participating in the Partnerships program and receiving their Certificate of Recognition, can achieve cost reductions in premiums from the Workers Compensation Board of Alberta. It is a win-win solution for both management, labour, and government.
