# Gangers Handbook

**A reference manual for the  
training of supervisors & a guide  
to work practices**

**The Gangers Handbook is a vital manual for all Gangers and Site Managers within the Public Works Industry.**

The guide is for use by field staff in city, urban and country situations but we also believe it is a valuable guideline to younger engineers as they gain experience in the field.

The manual should be used by members of the workforce to find out what 'gangs' do and to open up opportunities for workers to seek advancement in their careers. IPWEA (NSW) can provide assistance to workers who seek recognition for the experience they have gained and the skills they have developed.

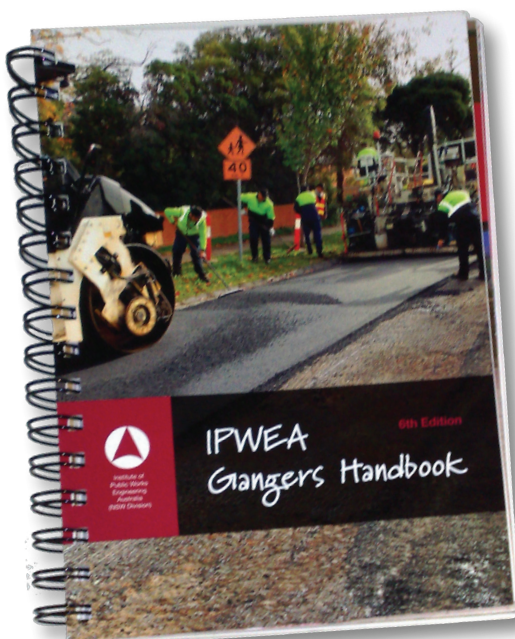

We strongly encourage the acquisition of this 6th edition as well as the renewal of your current Ganger's handbook as this latest version takes into account the many changes in legislation, regulations, practices and procedures that have taken place over the past five years.

## **IPWEA NSW training courses**

The Institute of Public Works Engineering Australia (NSW) can leverage on its 100 years of experience in developing technical knowledge and educational programs to maximise your organisation's training investment.

Whether you are a beginner or are well established in your profession, IPWEA NSW has designed a range of popular courses in Environment, Water & Sewerage, Management, Roads and Works Officers. For further details, please visit: [www.ipwea.org.au](http://www.ipwea.org.au)

The Institute is a Registered Training Organisation.
