POWER & DUTIES OF LOCAL GOVERNMENT ENGINEERS

POWER & DUTIES OF LOCAL GOVERNMENT ENGINEERS

The objective of this course is to equip participants with the knowledge and skills to operate as an effective practitioner within the local government sector. The aim of the IPWEA and the presenter is to arm participants with the necessary knowledge and practical approach to 'real world' problem solving. This will ensure that they are respected by their peers and highly regarded by their employers. Legislation that will be studied includes the following: Local Government Act: A comprehensive study of the matters affecting the operation of the Engineer or other technical practitioner including - Power of Entry, Private Work by councils, delegations & classification of public roads.

The program will be particularly valuable to local government engineers, however is suitable for all levels and disciplines of local government, Consultants and RTA personnel and will be
