

Erosion and Sediment Control - Level 1 - General Site Personnel

Course Summary

The course material is based on the training packages developed by the author of the Best Practice Erosion & Sediment Control document, Grant Witheridge.

This four-hour level 1 course aims to provide the skills to construction managers and field personnel carrying out construction work to comply with Queensland erosion and sediment control legislation.

Learning Outcomes

- Understand environmental impacts and specific legislation associated with sediment discharge.
- Understand basic construction and maintenance requirements for drainage, erosion and sediment control measures.
- Understand sediment basin operation.

Your Presenters

The course is delivered by Ben Starr, (Director) or Terry Clark (Senior Environmental Engineer) of O2 Environmental Pty Ltd. O2 Environmental is a specialist environmental consultancy that focuses on erosion and sediment control plan preparation and implementation.

Ben and Terry both hold the internationally recognised accreditation 'Certified Professional in Erosion and Sediment Control' (CPESC) and both have years of experience in plan preparation, auditing and on ground advice in Erosion and Sediment Control. Ben is also a director of the Australasian Chapter of the International Erosion and Sediment Control Association (IECA), is a member of the South East Queensland Erosion and Sediment Control Steering and Technical Advisory Group, and lectures on Erosion and Sediment Control at Griffith University.
