Benefits of joining Sacramento chapter

- Sacramento chapter has pioneered scholarship program for college students. This pilot program will be expended in 2023.
- In-person networking events started. First event held on 2/9/23 and was well received. It was very engaging and interactive scenario based discussion for CISO and security organization. Based on overwhelming responses, these events will continue quarterly.
- We would have **free CPE** learning opportunities on a monthly basis
- Shhhh.. we are planning a day conference in fall.
- Looking for volunteering opportunities? We have got you covered with all these events going on..

So the list goes on.. As a member you would have advantage to join and learn about member only events, networking and job announcements.

Meet your Director of Membership - Honesto Vargas

Honesto has over 20 years of information security, privacy, risk, and compliance assessment and management. Previously, Honesto enjoyed years of technical experience as a systems engineer, network engineer, and as web and mobile applications developer. Honesto is a manager at Blue Cross of California with focus on cloud security design, controls implementation, and PCI DSS compliance. Honesto is also a director on two non-profit boards serving in multiple capacities.

Key takeaway from February Lunch n Learn on "Forecasting Data Breach" speaker Dr. Lee

Factors that influence probability of Data Breach:

- Size of the organization
- Certified security professionals on the staff
- CISSP and CISA makes a difference in reducing breaches

Dr. Lee's presentation will be posted on chapter site.
