Clinics

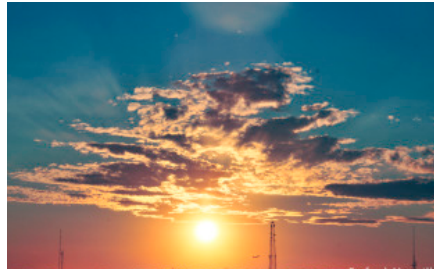

Get ready to improve your golf game. This year we are continuing the **EWGA Get Golf Ready Program** with their "How Low Can You Go" series. Six segments of instruction are designed to improve your game by focusing on consistency, equipment selection, self assessments and goal identification, management of challenging lies and conditions, overall course management, and short game techniques.

The six clinics will be divided between the 18-hole and 9-hole events. A preseason gathering is planned to offer members an opportunity to discuss the various golf equipment available to meet your needs. We look forward to seeing those handicaps plummet!
