

FASN Strategic Plan 2017-2022

Engage School Nurses in Advocacy and 21st Century School Nursing Practice

Objectives

- Advocate for school nursing practice that improves student health outcomes and academic success.
- Foster relationships with national and state associations and agencies to promote priority issues in school health.

Promote Organizational Membership to School Nurses Statewide

Objectives

- Increase membership and develop leaders and regional representation.
- Enhance communication measures that promote the benefits of membership and its impact on healthy students, schools and communities.

Support Student Health Outcomes through Education and Research

Objectives

- Increase professional development opportunities through education, certification, and recognition.
- Encourage research initiatives that promote evidence based and data driven practice.
