

National
Association of
School Nurses

Description:

School Nurse Chat is a podcast hosted by NASN's Executive Director, Donna Mazyck, MS, RN, NCSN, CAE, highlighting timely student and school health topics of interest to school nurses and other professionals focused on student health and well-being.

NASN School Nurse Chat is an efficient way to get your name in front of school nurses and associate it with their hard work on health topics related to our shared mission. Because the podcast is promoted across NASN's communications channels, the sponsorship cost is far less than an equivalent quantity of impressions through paid advertising.

For more information about the *NASN School Nurse Chat* podcast, contact Stephanie White, NASN Program and Project Specialist, at Swhite@nasn.org

NASN *School Nurse Chat* Podcast Sponsorship Information

LENGTH:

10 to 15 minutes, including sponsor message, intro, and closing
