

Defining the Future of Construction Higher Education

Development of Knowledge, Skills & Abilities for the American Council for Construction Education

In partnership with the Associated General Contractors of America and AGC of Greater Milwaukee, the [American Council for Construction Education](#) (ACCE) is inviting the construction industry to participate in a one-day workshop in Milwaukee on April 25, 2012, to help define the skills, knowledge abilities that college and university students will have upon graduation from ACCE-accredited programs in construction management and construction technology.

ACCE is seeking **construction industry volunteer participants** who currently supervise recent graduates and/or have graduated from a construction program within the last 2-5 years. The goal is to collect a group of volunteers who understand the skills, knowledge, and abilities graduates should have obtained *before* starting professional employment in the construction industry.

This is a crucial project to help develop the next generation of your firm's employees by helping their college or university provide them with the most relevant skills, knowledge and abilities that you – their future employer – are seeking.

The one-day workshop is free. The workshop will be facilitated by ACCE. We ask that you plan to attend from **9 a.m. to 4 p.m. on Wednesday, April 25, 2012**, at the AGC of Greater Milwaukee, 10400 Innovation Dr., Suite 210, Milwaukee, WI, 53226.

Regional ACCE-accredited schools include*:

- Bradley University, Peoria, IL
- Illinois State University, Normal, IL
- Southern Illinois University-Edwardsville, Edwardsville, IL
- Indiana State University, Terre Haute, IN
- Purdue University, West Lafayette, IN
- Eastern Michigan University, Ypsilanti, MI
- Ferris State University, Big Rapids, MI
- Michigan State University, East Lansing, MI
- Minnesota State University - Mankato and Moorhead, MN
- North Dakota State University, Fargo, ND
- Bowling Green State University, Bowling Green, OH
- University of Cincinnati, Cincinnati, OH
- South Dakota State University, Brookings, SD
- Milwaukee School of Engineering, Milwaukee, WI
- University of Wisconsin-Stout, Menomonie, WI

[* A complete list can be found online.](#)

ACCE wishes to thank the industry in advance for your generosity, your time and your commitment to helping them shape the future of construction higher education for the next generation of constructors.

Please sign up by emailing curriculum@agc.org letting us know you will attend the Milwaukee workshop.
