

## **Independent Adjusting Opportunity**

An excellent opportunity for an intermediate/senior claims adjuster with a niche market Independent Adjusting office.

Our firm, Priddle Gibbs Adjusters, provides claims handling, and risk management services to public service and privately held, self-insured plans and programs.

We are seeking a motivated, experienced, claims adjuster with liability and property experience.

The ideal candidate will have a minimum of 3 years' experience, preferably in the Independent Adjusting field, and hold a CIP designation. We are, however, willing to train the right candidate, as personality and attitude are also very important to us.

The person we are looking for will have an excellent knowledge of insurance products, and just as importantly, have the ability to build relationships with our clients and key industry partners. The individual we require is able to communicate effectively with both the Insured, and examiner, and have the ability to be objective in dealing with third party claimants. A high degree of organizational skills is required, as is the ability to work without constant supervision.

We offer above average industry compensation, high-income potential, and an excellent working environment.

If you are tired of the same old claim files, year after year, this might be the position for you. Our claim files are unique, challenging, and very interesting.

Our claims volume is steady and is not subject to the ups and downs of personal lines adjusting. You will be reporting to very experienced examiners.

This is an excellent opportunity for the right individual. If you think you may be the person we are looking for, please send your resume in confidence by fax to 780-489-3320, or by e-mail to [priddleadjusters@telus.net](mailto:priddleadjusters@telus.net).
