

THE BRITISH COLUMBIA CHAPTER (BCRIMA) IS OFFERING... A RIMS-CRMP PREP WORKSHOP AT A SIGNIFICANT DISCOUNT

As the only competency-based risk management credential, the accredited RIMS-CRMP certification under ISO/IEC 17024:2012 validates your performance ability, technical knowledge, and commitment to quality. It represents the standard of education, experience, and ethics that the discipline requires. Add RIMS-CRMP to your professional profile to demonstrate that you can successfully manage risk and create value for your organization.

BENEFITS OF RIMS-CRMP CERTIFICATE:

- **Practical Experience:** Demonstrate your knowledge of key risk management competencies.
- **Competitive Advantage:** Create a valuable distinction in the job market. The RIMS-CRMP prepares you for senior financial, operational, and risk management roles.
- **Compensation:** Increase your earning potential. Full-time risk professionals with the RIMS-CRMP certification earn nearly \$16,000 more annually than non-RIMS-CRMP holders.
- **Recognition:** Elevate your status and enhance your professional reputation.
- **Personal Responsibility:** Demonstrate your commitment to quality and ethics.
- **Recertification:** Show your dedication to the discipline and your continued competence by staying up-to-date on the latest trends and practices.

ELIGIBILITY FOR EXAM:

Either 1) Bachelor's degree or higher in risk management, and 1 year of full-time work experience in risk management OR Bachelor's degree or higher in non-risk management area of study, and 3 years of full-time work experience in risk management;

OR 2) Seven years of risk management experience (although not required, a Canadian Risk Management (CRM) designation counts towards two years of risk management experience).
