

RIMS CANADA Risk Management CONFERENCE 2005

Montréal

Broaden your perspective!

Join us in Montreal from **September 17 to September 21, 2005** for the RIMS Canada Conference.

Halfway into the first decade of this millennium, we invite you to Montreal to explore risk management and insurance from different angles, different perspectives and visions: those of the past, the present and the future; those of the risk manager, the broker, and the insurer; those of the organization, the supplier and the customer...

This conference is always an exceptional “rendez-vous”, a meeting point, a must. Montreal will captivate you with its festive ambiance, its glorious fall colours, its warm people and European charm...

“Everything we see is a perspective, not the whole truth”

Marcus Aurelius

*Today's risk
management reality -
a question of
perspective*
