

Stay Current with FDA-Approved Immunotherapy Treatments

Attend an Upcoming SITC Advances in Cancer Immunotherapy™ Program in Boston, Mass.

All healthcare professionals in the clinical setting, students and patient advocates attend for FREE!

The Society for Immunotherapy of Cancer (SITC) Advances in Cancer Immunotherapy™ (ACI) programs are CME-, CNE- and CPE-certified programs presented by local authorities in tumor immunology and cancer immunotherapy and are **free for healthcare professionals in the clinical setting, students, and patient advocates.**

ACI PROGRAM TAKEAWAYS

Attendees will leave these programs with the ability to:

- Stay current with FDA-approved immunotherapy treatments for specific disease states, including checkpoint inhibitors, CAR T therapies, cytokines, oncolytic viruses and vaccines
- Identify and manage immune-related adverse events
- Learn strategies to overcome operational and reimbursement barriers to incorporating immunotherapy into your practice
- Acquire foundational knowledge for optimized clinical implementation of SITC's Cancer Immunotherapy Guidelines

Connect with regional immunotherapy experts during these interactive in-person programs, in subsequent quarterly webinars and through a dedicated SITC CONNECT online community.

Register at sitcancer.org/aciboston

The 2018–2019 ACI series is jointly provided by Postgraduate Institute for Medicine and the Society for Immunotherapy of Cancer in collaboration with the American Academy of Emergency Medicine and the Association of Community Cancer Centers.

The 2018–2019 Advances in Cancer Immunotherapy™ educational series is supported, in part, by independent medical education grants from AstraZeneca Pharmaceuticals LP, Bristol-Myers Squibb, Celgene Corporation, Incyte Corporation, Novartis Pharmaceuticals Corporation, Pfizer Inc. and Prometheus Laboratories Inc. (as of July 17, 2018).

**Thursday, Sept. 27, 2018
4:30–9 p.m. (EDT)**

Wyndham Boston Beacon Hill
5 Blossom Street
Boston, Mass.
