

Stay Current with FDA-Approved Immunotherapy Treatments

Attend an Upcoming SITC Advances in Cancer Immunotherapy™ Program in New York City

All healthcare professionals in the clinical setting, students and patient advocates attend for FREE!

The Society for Immunotherapy of Cancer (SITC) Advances in Cancer Immunotherapy™ (ACI) programs are CE and MOC accredited programs presented by local authorities in tumor immunology and cancer immunotherapy and are **free for healthcare professionals in the clinical setting, students, and patient advocates.**

ACI PROGRAM TAKEAWAYS

Attendees will leave these programs with the ability to:

- Stay current with FDA-approved immunotherapy treatments for specific disease states, including checkpoint inhibitors, CAR T therapies, cytokines, oncolytic viruses and vaccines
- Identify and manage immune-related adverse events
- Learn strategies to overcome operational and reimbursement barriers to incorporating immunotherapy into your practice
- Acquire foundational knowledge for optimized clinical implementation of SITC's Cancer Immunotherapy Guidelines

Connect with regional immunotherapy experts during these interactive in-person programs, in subsequent quarterly webinars and through a dedicated SITC CONNECT online community.
