- Yacht & Boat Design – Westlawn Institute of Marine Technology – up to Lesson 19, last activity in 2001

Biography

Guillermo Mooney grew up in Núñez, a location by the 'Rio de la Plata'. He is 40 years old, married, and father of a 4 year old child.

His parents had a house by a river at the 'Delta del Parana', where he spent most of the weekends. Since he was a child, he became interested in Naval Engineering.

In 2011 became an SNAME international student member, and actively worked in the startup of the SNAME ANTU International Student Section.

His current occupation is University Teaching Assistant for two of the third year courses of ANTU Naval Engineering: Mathematics Applied to Engineering I and II. He also works as an independent consultant in Information-Systems Analysis and Design.
