

## Call For Papers

Responding to the needs for lowering emissions and Carbon Footprint, a special session Green Marine Vehicles and Renewable Ocean Energy Systems is being organized by Prof. Robert Latorre FSNAME, MRINA for the EVER11 Ecological Vehicle and Renewal Energy Conference 31st March-April 3, 2011 in Monte-Carlo, Monaco. This follows the successful session organized by Prof. Latorre at EVER10 last year.

### **Papers on the following topics are welcome:**

- \* Green Marine Vehicles Design, propulsion and operating results
- \* Vessel Operation, routing to reduce emissions and Carbon Footprint
- \* Hybrid Vessels including wind, current and wave propulsion systems
- \* Biogas, LNG, LPG, Methane and Hydrogen fueled ship
- \* Renewable Ocean Energy System designs, installation concepts and operation
- \* Wind turbine farm installation vessel concepts designs and operation
- \* Tidal power systems
- \* Wave energy systems

### **Schedule:**

Sept -Dec 2010	Send abstract to Session Organizer: Prof. Latorre <a href="mailto:Prof.Latorre@live.com">Prof.Latorre@live.com</a>
January 2011	Abstracts accepted with quick review and reply
March 2011	Paper of 6-10 pages in two column format due Presentation at EVER11 in Monte Carlo
