

LT Evangelos Koutsolelos is an officer in the Hellenic Navy. He received a Bachelor of Science degree in Marine Engineering from the Hellenic Naval Academy in 2001. Afterwards he served on a frigate and an auxiliary ship for two years. From 2003 to 2009 he served as a submarine engineering duty officer. He completed the Naval Engineering and Construction program at MIT in 2012, earning the degrees of Naval Engineer and Master of Science in Mechanical Engineering. His research was focused on the analysis and simulation of cutting high strength tubes by a shear ram and his Thesis title was “Numerical Analysis of a Shear Ram and Experimental Determination of Fracture Parameters”.
