

**Kyle J. Countryman**  
**Energy Advisor**  
**Corporate Strategic Planning**  
**Exxon Mobil Corporation**

Kyle Countryman is an Energy Advisor in the Economics and Energy Division of Corporate Strategic Planning.

In this capacity, he is responsible for the global liquid supply outlook including supply and demand balances. He also is a principal contributor to ExxonMobil's long-term global energy outlook, including the identification of potential implications for energy markets and ExxonMobil's strategic plans.

Kyle has worked for ExxonMobil for more than eight years in numerous technical and management positions. He began his career as a Reservoir Engineer in the Production Company in New Orleans supporting Gulf of Mexico assets. Subsequently, Kyle worked in the Development Company in Houston in both the Reservoir and Drilling Engineering functions. During that time, he provided support to various projects including deepwater West Africa developments and drilling for tight gas.

Kyle received a Bachelors of Science in chemical engineering from the University of Oklahoma in 2002.
