SERVING THE OIL AND GAS INDUSTRY FOR MORE THAN 60 YEARS

The Society of Petroleum Engineers is the largest individual-member organization serving managers, engineers, scientists, and other professionals in the upstream segment of the oil and gas industry.

When you join SPE, you join a society of dedicated professionals just like you, working to address the technical challenges of the global oil and gas industry. SPE membership gives you the opportunity to make local and global connections and build a network of influential technical leaders from every discipline.

BUILD YOUR NETWORK AND MAKE THE CONNECTIONS THAT MATTER. BY BECOMING A MEMBER OF SPE, YOU WILL GAIN ACCESS TO:

UNPARALLELED
INSIGHTS

SHARED EXPERTISE

“

SPE is the natural home for anyone involved in the oil and gas industry.

”

“

SPE provides access to world-class and timely knowledge of relevant technologies.

”

“

SPE is a great way to meet people that can influence the industry and your career.

”

“

SPE has enabled me to have a fantastic career and make friends with amazing people all around the world.

”

Society of Petroleum Engineers

“

I love SPE because of the networking, especially with old friends, opportunities for technology transfer and working with students.

”

“

By being a member of SPE, I feel proud to be part of a community that's fuelling innovation in the oil and gas industry.

”

“

SPE brings people from all over the world together under one platform for the petroleum industry.

”

“

I love SPE because it's a professional body that gives out a lot to its members like technical and soft skills. It's a great family to belong to.

”

PROFESSIONAL MEMBERSHIP

Your SPE membership puts you right at the forefront of industry developments. Deepen your expertise and engage with other professionals in your field through our events and continuing education programs, publications, online resources, local activities, and more.

Subscription to the digital **Journal of Petroleum Technology®** magazine (JPT), SPE's official publication.

Affiliation with one or more of **200+ SPE sections**, made up of members residing in a specific geographic area.

Networking opportunities through local section activities and SPE's online member communities, including **SPE Connect**—a virtual destination where you can communicate, collaborate, and connect with other members from around the world.

Technical Sections—**communities** of members who come together to share ideas, promote competence, and develop projects related to a specific technical area.

Exclusive member access to **SPE Energy Stream** including SPE Live, Tech Talks, and recorded content from recent SPE conferences and other events are just a few of the products delivered on this site with new content added weekly.

Development of communication, team-building, problem-solving, and leadership skills through **volunteer opportunities**.

Career recognition through **SPE awards and certification** programs.

Contribute to the future of the industry by sharing your professional insights and practical career advice by **mentoring young professionals or students** via the eMentoring program.

Assess skill gaps and develop a learning plan with the **SPE Competency Management Tool**.

Free or reduced rates on SPE products and services, including:

- Peer-reviewed **journals and magazines**, **technical papers** in the multisociety library, OnePetro®, and a wide range of publications in the SPE Bookstore.
- **In-person events** like global and regional forums, conferences, workshops, training courses, and webinars.

BE PART OF A GLOBAL COMMUNITY OF INDUSTRY PROFESSIONALS WITH AN SPE PROFESSIONAL MEMBERSHIP.

STUDENT MEMBERSHIP

Through local student chapters and international programs, SPE serves more than 58,800 student members globally, offering many resources and opportunities for students to expand their knowledge and enhance their skills.

Join your **university student chapter** and **network** with likeminded students.

SPE supports the education of graduate and undergraduate students pursuing degrees related to the oil and gas industry with **scholarships**.

Meet and interact with practicing industry professionals at **local section and chapter events**, **SPE International events** and other venues **virtually and in-person**.

Student members receive **substantial discounts** on textbooks, reference books, and other society publications.

Gain academic direction and **practical career advice** from industry professionals through the eMentoring Program.

Communicate and **collaborate with other student members** on our online collaboration platform, SPE Connect.

Participate in your **region's student paper contest** and be recognized for your academic achievement.

Team up with other members from your student chapter to compete in **SPE's PetroBowl®**. This fast-paced quiz contest covering technical and nontechnical aspects of the oil and gas industry.

Make a difference in your student chapter and discover the rewards of getting involved by **volunteering**.

Young professionals visit student chapters to disseminate E&P industry information, **answer questions**, and **share their experiences** through The Ambassador Lecturer Program.

The Career Pathways Fair gives you a chance to **meet with specialists** from multiple disciplines for quick-fire mentoring and gain insights into possible career paths.
