Please join us for the April Virtual Technical Meeting on Tuesday, 16 April 2024, beginning at Noon ET as Lisa Silander presents Evolution of Project Controls. This session will provide attendees with information on:

The evolution of Project Controls in using technological advancement, contractual changes, and behavioural changes. We are seeing an increase in complexity of projects and programmes; with the added complexity of additional factors to consider in delivering projects, such as social value and net zero. She will explore the evolution of project controls and what is holding us back in moving forward in project Controls. Looking at the project controls approach from where we started, where we are today and what the future might look like.

Lisa Silander has over 40 years' experience delivering project controls solutions to clients. Lisa is the Director of Project Controls, Global Practice Lead, and UK Technical Lead with **AtkinsRéalis**.
