

# Pre-Program COVID-19 Screening Checklist

All patients should be screened for the ability to practice appropriate safety precautions, including physical distancing, hand hygiene, etc., and to respond accurately to the below pre-program screening clinical indicators.

## Physical symptoms

- ✓ Fever
- ✓ Unexplained muscle aches
- ✓ Respiratory symptoms
- ✓ URI symptoms
- ✓ GI symptoms
- ✓ ENT symptoms
- ✓ Eye symptoms

## Other clinical concerns

- ✓ Has tested positive for COVID-19 in the last 30 days

## Exposure risk

- ✓ Has come in close contact with anyone with the above symptoms or with known COVID-19 in the last 14 days
- ✓ Has other exposures identified by your local Infection Prevention and Control team as a high risk condition

## Pertinent comorbidities

- ✓ 65 years or older
- ✓ Lives in a nursing home or long-term care facility
- ✓ Has a chronic lung disease or moderate to severe asthma
- ✓ Has a serious heart condition
- ✓ Immunocompromised
- ✓ Severely obese (body mass index [BMI] of 40 or higher)
- ✓ Diabetic
- ✓ Has a chronic kidney disease undergoing dialysis
- ✓ Has liver disease
