

What Strengthens Families and Communities?

# FCS is the ANSWER!

Share It. Experience It. Teach It.

## What is FCS?

### Building Skills for Real Life

Family and Consumer Sciences (FCS) education tackles the challenges that individuals may face every day. From managing money, preparing nutritious meals, and educating youth to making smart consumer choices, FCS gives each student the knowledge they need to do in life.

### The Relevance of FCS

Our communities need more educators who can make a difference for the youth of tomorrow by teaching essential life skills that they can use outside of the classroom. Whether you're teaching students in a classroom or adults in a community program, FCS programs transform lives for the better!

## Get Involved!

### Learn More

Check out more information about FCS education careers on the FCS Educators website!

2

### Experience FCS

Learn and use essential skills in the classroom setting by taking FCS courses at your school!

3

### Join FCCLA

FCCLA is a national organization that YOU can be a part of and get to showcase your skills!

#FCSed #SayYestoFCS
