## Interior Design Fundamentals

Assessment and Certification Competencies

1	Career Paths	Weighting:	10%
1A.	Identify education, training, credentialing requirements		
1B.	Summarize the roles, functions, and occupations related to interior of	design	
1C.	Describe interior design professional organizations and career deve	elopment	
1D.	Understand the attitudes and values of interior design professionals		
2	Design Fundamentals	Weighting:	25%
2A.	Apply elements and principles of design		
2B.	Apply knowledge of history of art, interiors, and architecture		
2C.	Illustrate color basics and color theory		
2D.	Utilize creativity in interior design projects		
3	Factors Influencing Design	Weighting:	10%
3A.	Incorporate client needs, goals, and resources into interior design p	rojects	
3B.	Identify trends and new technology in interior design and construction	on components	
3C.	Describe ergonomics, anthropometrics, and human comfort theorie	S	
3D.	Summarize environmental sustainability and ecological issues		
4	Design Communications and Skills Development	Weighting:	25%
4A.	Utilize appropriate interior design terminology and communication s	kills	
4 D			
4B.	Evaluate the appropriate selection and use of media and studio tool	S	
4B. 4C.	Evaluate the appropriate selection and use of media and studio tool Interpret construction documents such as renderings, floor plans, is perspectives, and specifications		
	Interpret construction documents such as renderings, floor plans, is		20%
4C.	Interpret construction documents such as renderings, floor plans, is perspectives, and specifications	ometric	20%
4C.	Interpret construction documents such as renderings, floor plans, is perspectives, and specifications Interior Design Application and Analysis	ometric	20%
4C. <b>5</b> 5A.	Interpret construction documents such as renderings, floor plans, is perspectives, and specifications  Interior Design Application and Analysis  Select products for residential and commercial design projects  Summarize phases of the design process  Develop an interior design project budget and timeline	ometric  Weighting:	20%
