The annual survey of graduate programs in family and consumer sciences at U.S. universities and colleges was completed between June and August 2018. The goal was to compile a list of theses and dissertations completed in 2017 from all areas of family and consumer sciences. Requests for information on graduation, titles, and authors were sent by e-mail to institutions with family and consumer sciences programs. A total of 286 theses and 200 dissertations were reported from 32 universities and colleges. The following is a report of the complete information provided by institution respondents by subject category including author, title of thesis or dissertation, degree-granting institution, and name of student’s advisor.
