TIS Leadership Team 2010-11
In 2009-2010 the Campaign’s First Initiative was H1N1

- H1N1 and proper response by families to influenza will continue to be an issue
- FCS promotion of good sanitation and hand washing must continue

For their assistance with the H1N1 initiative, TIS proudly co-nominated with the MS Affiliate

The American Cleaning Institute for the 2011 Friend of the Family Award
Congratulations!

2011 AAFCS Friend of Family

...and Nancy Bock

Thank you from for “Taking It to the Streets”
“Taking It to the Streets”

2010-2011 Initiative:
Preventing Obesity

08.13.2010
Recognizing the obesity crisis in the U.S., First Lady Michelle Obama launched an obesity initiative in February 2010.
Situation Defined:

- Obesity and being overweight have reached epidemic proportion in the United States.
- These conditions are key factors for chronic diseases, such as heart disease, diabetes, arthritis, high blood pressure, stroke and some types of cancer.
- The leading causes of these conditions are poor diet and lack of physical activity.
Background Information…

What we know about obesity from research…
Obesity is defined as a body mass index (BMI) of 30 or greater.

- During the past 20 years there has been a dramatic increase in obesity in the United States.
- Thirty-three states had a prevalence equal to or greater than 25%; nine of these states had a prevalence of obesity equal to or greater than 30%.

http://www.cdc.gov/obesity/data/trends.html
Between the years of 1988–1994 and 2007–2008, the prevalence of childhood obesity increased at all income levels.

include the research based

**Childhood Obesity Causation Wheel**

developed and shared by
Dr. Janelle Walter and Dr. Bernadette Hascheke

updated by
the Taking It to the Streets Team
CHILDHOOD OBESITY CAUSATION WHEEL

In 2007 20% of children ages 6-11 and 18% of adolescents 12-19 were overweight (CDC).

ISSUES RELATED TO CHILDHOOD OBESITY:
- Social isolation and poor self-esteem
- Risk factors for heart disease, high cholesterol, high blood pressure
- Excessive weight and obesity linked closely to type 2 diabetes in children
- Overweight adolescents have a 70% chance of becoming overweight or obese adults

LIMITED PHYSICAL ACTIVITY:
- Excessive use of TV, electronic games, texting, computer work
- Unhealthy snacks chosen while engaged in above activities
- Minimal outdoor play

NEIGHBORHOOD ISSUES:
- No adult supervision of activities outside the home
- Restricted outdoor playtime due to neighborhood safety issues

SCHOOL ISSUES:
- Starting in middle school, fewer children participate in school lunch programs
- A la carte choices contain higher fat content and fewer fruits & vegetables

INADEQUATE SUPERVISION:
- Fewer structured activities
- Less physical activity = more couch potatoes
- Increased access to foods with low nutrient quality

ALTERNATE MEAL CHOICES:
- These meal choices include:
  - fast food, take-out, prepackaged/convenience foods which:
    - are higher in fat, calories, and sugar content
    - are lower in fiber
    - contain fewer fruits & vegetables
    - include more carbonated beverages
    - may have increased portion sizes

FAMILY MEALTIME ISSUES:
- More meals eaten away from home
- More time constraints
- More time may be spent on extra-curricular activities
- Less energy to prepare meals
- Limited food preparation skills & nutrition knowledge

TIS Leadership Team 2010-11
The team also developed companion pieces to the Causation Wheel starting with exercise...
Exercise Suggestions for Home and Work
from the “Taking It to the Streets” Team

Work

- Park as far as you can from the entrance & walk
- Flex a stress ball at your desk
- Walk vs snack at break
- Use a work exercise program
- Join office athletic teams
- Get off the bus/subway one stop early and walk the rest of the way
- Exercise during lunch
- Join a fitness group
- Bike to work

Home & Family

- Go sledding
- Plant a garden
- Join a walking group
- Dance with the family
- Bike ride, roller blade, or swim
- Limit children’s technology use & bring back outside play time
- Walk up & down the field while children participate in sports
- Play with your children & have fun
- Clean the house or wash the car
- Drive less, use your bike
- Walk the dog
- Mow the lawn

Exercise...

MODERATELY
30 MINUTES
5 DAYS A WEEK

OR.....

INTENSELY
20 MINUTES
3 DAYS A WEEK

IT STARTS WITH YOU!!
And now we proudly introduce the team’s newest companion pieces to the wheel...
Try to eliminate meals with:

- High fat content
- Low fiber content
- High sugar carbonated beverages
- Increased portion sizes
- Low vegetable and fruit content
- High sodium content
- High carbohydrate content

**SIMPLE CHANGES IN EATING HABITS = HEALTHY EATING**

- Grow your own lettuce and vegetables at home
- Use recipes that reduce fat and sugar
- Use herbs and spices versus salt
- Use olive, canola, corn or safflower oils versus butter, lard or shortening
- Create healthy snacks for young children
- Serve sweet potato fries or apples versus regular fries
- Eat frozen yogurt versus ice cream
- Serve fruit versus candy and dilute juices with water
- Drink water or beverages with low caloric content
- Drink fat free or low fat milk products
- Serve meals on/in smaller plates, bowls or glasses
- Use smaller serving spoons, plates and bowls and eat slowly
- Order from the healthy portion of the menu
- Eat only half of your meal when dining out or share with someone
- Downsize versus supersize your meal
Make Mealtime a Priority
• Eat a meal together at least four times a week
• Make Sundays family day (no outside activities)

Get Family Members Involved
• Plan meals as a family
• Cook meals as a family
• Give young children jobs such as setting the table, making salad, pouring milk, washing vegetables

Avoid Disruptions
• Turn off the T.V.
• Don’t answer phones, use message services, NO TEXTING!

Use Time Saving Tips
• Plan Meals ahead for the week
• Prepare extra portions (plan-overs) to freeze for next time
• Prepare items such as ground beef, pasta and salad ahead
• Use a slow cooker

Plan Ahead
• Use a planning list for groceries
• Stock up on basic items
• Use the ChooseMyPlate.gov site to plan nutritious family meals

Have Positive Conversation
• Focus on family news and life
Now let’s see how Family and Consumer Sciences is “Taking It to the Streets” and “Touching Lives”
Obesity prevention activities were reported from the following states:

- Alabama
- Alaska
- Arizona
- California
- Colorado
- Connecticut
- Florida
- Indiana
- Illinois
- Kansas
- Kentucky
- Maryland
- Minnesota

- Mississippi
- Montana
- Nebraska
- New Mexico
- Ohio
- Oklahoma
- Pennsylvania
- Rhode Island
- South Dakota
- Texas
- Virginia
- Washington
- West Virginia

West Virginia Huntington High School teachers, Deborah Chapman and Karen Canfield, combine FCS and Physical Education: **Food and Fitness Revolution**

These teachers have teamed together to teach nutrition and physical exercise and how they work together.
AAFCS Taking It to the Streets formed Partnerships with:

The Public Policy Committee, communities, Extension, FCCLA, 4-H, ACTE, Phi Upsilon Omicron & Kappa Omicron Nu and others

TIS Leadership team 2010-11
Through Cooperative Extension programs across the nation, Family and Consumer Science educators provide a multitude of educational opportunities to meet the needs of diverse audiences.
and Extension partnership

Extension Professional Associations of Florida (EPAF), Lake Buena Vista, Florida

- The EPAF program assistants reached: 155,000 face-to-face and 180,000 indirectly

- 52 total eligible sites

- EPAF PAs teach nutrition lessons often accompanied by a hands-on food demonstration
additional states with walk across programs: Texas, Kansas, California
New Mexico Extension

- Team Nutrition
- Organ Wise Guys Videos and commercials created for the program are aired on state PBS stations
- Eat Smart Play Hard
- Fit Families curriculum- 7-week series youth program
Honor Societies

- **Kappa Omicron Nu** is sponsoring a You Tube Contest from their *Activity for Seven Wonders of the Socially Responsible World*.”

- Collegiate members of **Phi Upsilon Omicron** created and implemented projects to educate and promote more healthful nutrition practices in people of all ages.
Examples of Grants received by family and consumer sciences professionals and organizations:

- SNAP-ED
- USDA
- Youth Service America United Heroes
- Fuel Up to Play
- Farm to School Program
- Blue Cross Blue Shield Fit Families
- General Mills
- and more!
Examples of numbers reported:

- **Anchorage Alaska**, 9000 youth and 150,000 participants reached in the Healthy Kids, Healthy Families program

- **Pasco County, Florida** 3,332,087 through nutrition education articles, and 154,422 reached at community events through Snap-Ed

- **Kentucky, UK Extension** provided personnel to facilitate 2nd Sunday Coalitions in 115 counties to assist 30,000 participants in Second Sunday

- **New Mexico** 5749 youth reached

- **Texas, Partnership For A Healthy Texas Coalition**, Texas Education Agency Required Nutrition Curriculum content in TX schools: FCS Number of youth impacted: 419,787 total, FCS Number of adults impacted: 36,314 total

Thank YOU for “Taking It to the Streets”!

TIS Leadership Team 2010-11
“Taking It to the Streets.....”

What’s next?

TIS Leadership Team 2010-11
Taking It to the Streets takes a new direction!
Taking It to the Streets 2011-12

In addition to exercise and nutrition, TIS obesity prevention will encompass our mission

“To provide leadership and support for professionals whose work assists individuals, families, and communities in making informed decisions about their well being, relationships and resources to achieve optimal quality of life.”

TIS Leadership Team 2010-11
FCS special niche in Obesity

We’ll utilize FCS research and expertise to educate others on how obesity affects the individual’s well being through the various components of family and consumer Sciences such as:

* clothing  * shelter  * family and social relationships  * emotional and * mental well being and more!
A New Community!

- By June 2012, an AAFCS community focused on all aspects of obesity prevention will be formed to continue to work on this area of concern.

- Taking It to the Streets will move on to another important issue.

- Suggestions will be welcome!
AAFCS “Taking It to the Streets”
