About AAFCS

Based in the Washington, D.C., area, AAFCS is the only professional association that provides leadership and support to family and consumer sciences (FCS) students and professionals from multiple practice settings and content areas. AAFCS members assist individuals, families, and communities in making informed decisions about their well-being, relationships, and resources to achieve optimal quality of life.

For over 100 years, AAFCS members have been working to improve the quality and standards of individual and family life by delivering educational programs, influencing public policy, and conducting research. They provide research-based knowledge about the topics of everyday life, including human development, personal and family finance, housing and interior design, food science, nutrition and wellness, textiles and apparel, and consumer issues.

Educational Excursions
Tickets for the Educational Excursions must have been purchased in advance. Tickets for excursions will not be available onsite.

Educational Topics
Participants in the AAFCS 107th Annual Conference will learn how to:
• Incorporate advances in technology into programming that promotes wellness, supports individual engagement in healthy living and facilitates collaboration among family and consumer sciences professionals.
• Implement effective strategies for improving the well-being of children and youth, focusing on nutrition, interpersonal relationships, financial literacy and early childhood education.

• Create family and consumer sciences programs that enhance and support the environmental, mental, physical, social and financial aspects of healthy aging.
• Utilize best practices in designing apparel, textiles and interiors to support healthy and active living for a variety of audiences.
• Assess how finance-related attitudes, behaviors, and programs impact health and well-being.
• Examine the relationship between mental, emotional and physical health and how they affect individuals, families and communities.

Expo
The Expo is located in the Evergreen Ballroom, which is on the first floor in the Olympic Tower of the Hyatt Regency Bellevue on Seattle’s Eastside. Because of insurance, children under 16 must be accompanied by an adult at this educational event.
