Perspective Statement

School system should provide before, after and school holiday care for elementary-school-age children.

• Summarize the perspective in the center block.
• In the first-order circles, state four consequences that might follow directly from the perspective.
  (There may be more than 4; add other circles.)
• In the second-order circles, state possible consequences that could result from each first order consequence.
• Write a three- or four-sentence scenario by combining the effects and consequences you have projected.
• Use these scenarios to develop a position on the issue in Step 5.
