

Pick a project. Spark potential.

How it Works:

1 Browse

Educators submit plans and objectives for projects that inspire growth and learning.

2 Select

Donors review vetted projects and decide where to invest their dollars, boosting the projects they want to see more of in classrooms and communities.

3 Impact

Educators and donors connect to share updates and stories about the project(s) funded and the real-world impact of the contribution.

Spark FCS Success is a forward-thinking community-funded grant initiative by the **American Association of Family and Consumer Sciences** that brings donors and educators together to make a direct impact in classrooms and communities.

Grant funds up to \$1,000 can support projects and ideas that today's tight budgets won't accommodate and converts shared goals into real-world impact. Whether you are an educator in the classroom or a community with the next great idea or a donor interested in making an impact with your investment, **Spark FCS Success** is your perfect PARTNER!

LEARN MORE!

This project was made possible through a donation from Dr. Jan Bowers, CFCS, in recognition of the Family and Consumer Sciences Education Association (FCSEA) partnership work to recruit, prepare, and support FCS Educators.
