Agenda

1. Lower Housing
2. Spiral Distributor
3. Roof Cover
4. Pit Liner
5. Lower Cone
6. Nozzles
7. Runner wheel
8. Guide Bearing
9. MIV
General view
Runner removal platform
Turbine Housing
Distributor Part 2
Distributor Parts 1 & 2
Lowering Distributor Part 3
Distributor Parts 1, 2 & 3
Lowering Distributor Part 4
Distributor Parts 1, 2, 3 & 4
Welding holder
Defects in parent metal
Parent Metal defects
Heating Arrangements
Welding
Erection of distributor Flange Cones
Housing Roof on service Bay
Lowering of Housing Roof
Lowering of Housing Roof
Housing roof
Housing Roof Installed
Distributor & Housing Roof
Blank flange for Pressure Test
Blank flange for Pressure Test
Distributor Pressure Test
Distributor Pressure Test
Embedded Pips
Central Cone
Central Cone
Lowering of central cone and Cone support
Central cone and Cone support
Central cone and Cone support stored in Pit
Concreting
Concreting
PH general View
Turbine Housing
Horizontality of Bearing Support
Adjusting Horizontality of Bearing Support
Turbine Guide Bearing (Shell Type) in 2 Parts
Bearing Assembly with Bearing support
Guide Bearing and Bearing Support
Turbine Shaft
Tilting of Turbine Shaft
Lowering Guide bearing for trial assembly
Leakage Test of Rotating Sump (Oil Tank)
Turbine Guide Bearing
Bearing and Shaft assembly
Lowering Turbine shaft and bearing assembly
Turbine shaft being lowered into the pit.
Turbine Shaft In the Pit On special supports.
Turbine Shaft In the Pit On special supports.
Horizontality of Turbine Shaft By CAYERE Method
Preparation for Nozzle adjustment.
Dummy Nozzle
Adjustment of Nozzles.
Nozzle adjustment
Machining of False Flange
Nozzle Erection
Nozzle Erection
Checking Real Nozzle
Pinning of False Flange
Support for Magnetic base Drilling Machine
Pelton Runner
Lowering of Runner
Servomotor for Runner Erection
Runner Erection servomotor
RUNNER ERECTION
Runner Erection
Hydraulic diagram for Runner erection servomotor
Runner installed
Removal of Runner lifting Disc
Nozzle and Runner
Nozzle and Runner
view of Nozzle from U/S in the direction of flow
Turbine shaft and bearing
Break jet alignment
Rotor In Pit
Tur and Gen Shaft Coupling
Checking residual elongation of Studs
Shaft Line Run out
Tur pit and piping
