American Academy of Nursing
Releases Meeting Proceedings of Expert Panel Policy Dialogues
Proceedings Feature Policy Recommendations and Discussion Summaries

Washington, DC (December 15, 2023)—The American Academy of Nursing (Academy) has released the meeting proceeding summaries from the August 2022, December 2022, January 2023, and April 2023 Policy Dialogues, hosted by the Academy's Expert Panels. The Academy's Policy Dialogues convene leaders to discuss a pressing topic and to develop policy recommendations that champion the organization's policy priorities to advance health equity.

Comprised of Fellows recognized for their contributions to health and organized by topic area expertise, Expert Panels are one of the major forces within the Academy for developing new knowledge to transform health policy. Through consensus building and collaboration, Academy Expert Panels advance evidence-based solutions to the most complex health care challenges. In hosting Policy Dialogues, Expert Panels lead engaging discussions to further enhance awareness and develop policy proposals that work to achieve the Academy's vision of *healthy lives for all people*.

The Academy is pleased to release the summaries for the following Policy Dialogues:

The Quality of Care in Nursing Homes
(August 2022)
Hosted by the **Expert Panel on Informatics & Technology** in collaboration with the **Expert Panel on Aging**, this dialogue centered on policies impacting nursing outlined in the National Academies of Sciences, Engineering, and Medicine (NASEM) report on the quality of care in nursing homes, *The National Imperative to Improve Nursing Home Quality: Honoring Our Commitment to Residents, Families, and Staff*. See policy recommendations generated from this dialogue and learn more.

Lessons from the COVID-19 Pandemic: Mobilizing Nursing Leadership to Advance Global Equity
(December 2022)
Hosted by the **Expert Panel on Global Nursing & Health** in collaboration with the **Expert Panel on Health Equity**, this dialogue examined policies aimed at addressing the emotional, financial, and physical recovery of the nursing workforce from the COVID-19 pandemic to better support the nursing profession. See policy recommendations generated from this dialogue and learn more.

Nursing Leadership in Decarbonizing the US Health Sector
(January 2023)
Hosted by the **Environmental and Public Health Expert Panel**, this dialogue engaged experts to cultivate federal policy solutions related to environmental issues and explore the critical role of the nursing profession in addressing climate change within the health sector. See policy recommendations generated from this dialogue and learn more.

[More Than Documentation Burden Creating Burnout: What Systems Must do to Achieve Safe, Efficient Patient Care Using Technology](#)
(April 2023)
Hosted by the **Informatics & Technology Expert Panel**, in collaboration with the **Expert Panels on Acute & Critical Care, Quality Health Care, Bioethics,** and **Building Health Care System Excellence**, this dialogue highlighted policy issues related to documentation burden and underlying issues surrounding burnout, specifically related to how technological stress impacts clinicians. [See policy recommendations generated from this dialogue and learn more](#).
