HEALTH PROMOTION ACROSS THE LIFESPAN:
FOCUS ON EVIDENCE
HYATT REGENCY WASHINGTON ON CAPITOL HILL
Greetings

American Academy of Nursing
38th Annual Meeting & Conference

October 13 - 15, 2011

As Mayor of the District of Columbia, I am pleased to extend greetings to the American Academy of Nursing on the occasion of your 38th Annual Meeting and Conference.

The American Academy of Nursing is an organization that promotes quality health care for all people by protecting and enhancing professional nursing practices. This event will provide participants the opportunity to focus on policy issues affecting health care, nurses and the Academy. As you gather to reflect on your accomplishments and prepare for the future, I thank you for your contributions to the healthcare industry.

On behalf of all the residents of the District of Columbia, you have my best wishes for an enjoyable and productive conference.

Vincent C. Gray
Mayor, District of Columbia

Dear Friends and Colleagues:

Recently, the United States Senate voted to raise the government’s debt ceiling and cut trillions of dollars in spending. The compromise, voted upon by both parties, will ultimately require an approach to increasing revenues and reducing spending. The two largest areas of expense are defense spending and entitlements; any reduction in the entitlement programs is likely to result in an even greater level of unmet need for health care services for the most vulnerable among us. We are facing the challenge of our lifetime and we must contribute to generating solutions.

The theme of this year’s conference, Health Promotion Across the Lifespan: Focus on Evidence, could not be more timely. Over the span of the conference, we will discuss, develop, and refine solutions to our nation’s health care needs. Through engagement in plenary and discussion sessions, our expert panel meetings and social events, I expect that your own work will be enriched and I am confident that the convening body will be better prepared to influence improved health care outcomes through better health care policies.

On behalf of the Board of Directors, I would like to extend thanks for the significant contributions of the many individuals who helped organize this event, including the Annual Meeting Planning Committee chaired by Judith Baggs, PhD, RN, FAAN, Colleen Goode, PhD, RN, NEA-BC, FAAN, and Ruth Kleinpell, PhD, RN, FCCM, FAAN, and the Academy staff.

Throughout the next two days we will offer you a distinguished list of speakers presenting on Health Promotion Across the Lifespan, and we will recognize the significant achievements of some of the Academy Fellows who are making a difference.

I look forward to an engaging and productive conference and encourage you to spend this time learning from our presenters and, importantly, from one another.

Sincerely,

Catherine L. Gilliss, DNSc, RN, FAAN
President
To Our Esteemed Guests:

Welcome to the American Academy of Nursing’s 38th Annual Meeting and Conference. We are thrilled that you are able to join us for this most exciting event in our great capital city of Washington DC!

This year’s theme, *Health Promotion Across the Lifespan: Focus on Evidence*, was designed to showcase evidence based practice innovations in health promotion and to highlight strategies for evaluating and expanding health promotion initiatives to improve the nation’s health.

A unique aspect of this year’s conference is the scheduling of Annual Meeting and Conference to coincide with both The Council for the Advancement of Nursing Science Meeting and the 25th Anniversary of the National Institute of Nursing Research. It is wonderful that we are able to join colleagues to explore priority issues affecting nursing and celebrate our accomplishments!

This year’s Pre-Conference – *Performance Measurement: Strategic Imperatives for Nursing* – features dialogue on the National Agenda for Performance Measurement and highlights the need for policy and positions that benefit from the insight and expertise of Academy experts on quality.

The Annual Conference agenda features several highly notable speakers including: Regina M. Benjamin, MD, MBA, the 18th Surgeon General of the United States Public Health Service; and Walter Willett, MD, Chair, Department of Nutrition at Harvard School of Public Health, Professor of Medicine at the Harvard Medical School, and a Principal Investigator on the *Nurses Health Study*, one of the largest, long-term studies examining the effect of diet on health. We will again feature an exciting line-up of Edge Runners during a special session highlighting the ground-breaking work of several Edge Runners who focus on health promotion initiatives. In addition, we are pleased to offer a number of informative Expert Panel meetings, breakouts and plenary sessions.

Attendees will have the chance to inform their colleagues and disseminate knowledge to national and international industry leaders, celebrate the achievements of nursing professionals, and induct a new class of Fellows who represent the next great leadership of the Academy.

As Co-Chairs of this event, we are confident that this year’s dynamic program will equip you with additional tools to effect positive change in practice, academia, and policy; give you a chance to network with colleagues; and celebrate the accomplishments of Academy leaders and new Fellows!

Warm regards,

Ruth M. Kleinpell, PhD, RN, FAAN
Annual Conference Planning Committee, Co-Chair

Judith G. Baggs, PhD, RN, FAAN
AAN Board Member/Annual Conference Planning Committee, Co-Chair

Colleen J. Goode, PhD, RN, FAAN
AAN Board Member/Annual Conference Planning Committee, Co-Chair
Dear Friends and Colleagues:

It is an honor to join you at the American Academy of Nursing’s 38th Annual Meeting and Conference. It is with immense anticipation and high expectations that I look forward to lively discussions with our Fellowship.

This year’s Pre-Conference, Performance Measurement: Strategic Imperatives for Nursing, and the Annual Meeting and Conference, Health Promotion Across the Lifespan: Focus on Evidence, highlight the extraordinary capacity of this profession and organization to make a difference in people’s lives. Your attendance is further testament to your dedication to improve access to affordable, quality, safe, and equitable care that promotes the health of individuals, families and communities.

Since becoming CEO last year, the Academy has continued to ensure we have the adequate infrastructure in place to support the Fellows and to solidify its stature in Washington, developing relationships with key stakeholders. It is my personal goal to ensure this organization works for the Fellows it serves.

On behalf of the Academy staff, we are grateful for the intensive work of all those involved—planners, speakers, volunteers—to make this Annual Meeting and Conference inspiring and memorable. I look forward to talking with you and collaborating with you in the future as we transform health care policy and practice through nursing knowledge.

Warm regards,

Cheryl G. Sullivan, MSES

Chief Executive Officer
2011 ANNUAL MEETING & CONFERENCE OBJECTIVES

FRAME nursing’s longstanding contribution to health promotion as a critical component of health reform.

SHOWCASE evidence-based innovations in health promotion across the lifespan for their relevance in meeting public need.

EVALUATE ways that health promotion can infuse and direct local, regional and national policy agendas.

STIMULATE ideas for expanding research and innovation in health promotion.

Thank you to our sponsors for their generous support of the 38th American Academy of Nursing Annual Meeting and Conference.

The contribution of the Gertrude E. Skelly Charitable Foundation underwrites a significant portion of the Annual Meeting and Conference. The American Academy of Nursing deeply appreciates the Foundation’s generosity and their continued support of nursing.

We extend a special thanks to our Exhibitors and Program Advertisers. Your continued support of our efforts sincerely is appreciated and please know we value your endorsement.

PRE-CONFERENCE SPEAKER BIOGRAPHIES

PRECONFERENCE

Helen Burstin, MD, MPH

Helen Burstin is the Senior Vice President for Performance Measures of The National Quality Forum, a private, not-for-profit membership organization established in 1999 to develop and implement a national strategy for healthcare quality measurement and reporting. Dr. Burstin joined NQF in January 2007 and is responsible for the NQF consensus development process and projects related to performance measures and practices. Prior to joining NQF, Dr. Burstin was the Director of the Center for Primary Care, Prevention, and Clinical Partnerships at the Agency for Healthcare Research and Quality (AHRQ). Her center supported the U.S. Preventive Services Task Force and an extensive body of research on the intersection of health information technology and quality, primary care and prevention. Prior to joining AHRQ in 2000, Dr. Burstin was an Assistant Professor at Harvard Medical School and the Director of Quality Measurement at Brigham and Women’s Hospital.

Dr. Burstin is a graduate of the State University of New York at Upstate College of Medicine and the Harvard School of Public Health. She spent a year in Washington, DC as National President of the American Medical Student Association. Dr. Burstin completed a residency in primary care internal medicine at Boston City Hospital. After residency, she completed fellowship training in General Internal Medicine and Health Services Research at Brigham and Women’s Hospital and Harvard Medical School. Dr. Burstin is the author of over 70 articles and book chapters on patient safety, quality, and disparities. She is a Senior Professorial Lecturer in the Department of Health Policy at George Washington University. She serves on the Robert Wood Johnson Foundation National Advisory Committee for the Medicaid Leadership Institute. Dr. Burstin is a member of the Board of Directors of the American Medical Informatics Association (AMIA). A board certified general internist, Dr. Burstin is a volunteer physician at La Clinica del Pueblo, a federally qualified Latino health center in Washington, DC.

Laura Adams

Laura Adams is the President and CEO of the Rhode Island Quality Institute (RIQI), a collaboration of the top leadership of health care stakeholders working together to transform the health care system in the state. RIQI was the only organization in the nation to win all three of the major ARRA health IT awards. The grants totaled $27M in federal grant funding to further the organization’s work in health IT as a foundation for improvement. The grants funded health information exchange (HIE), the RI Regional Extension Center and the RI Beacon Community.

Ms. Adams served on the Office of the National Coordinator’s Health IT Policy Committee’s Governance Panel for the Nationwide Health Information Network in 2010. She is the immediate past Chair of the Board of the National eHealth Collaborative (NeHC), initiated by former HHS Secretary Michael Leavitt. Also in 2010, Ms. Adams chaired the Institute of Medicine’s (IOM) Planning Committee for the Electronic Infrastructure for Population Health and a Learning Healthcare System initiative.

She is a faculty member of the Institute for Healthcare Improvement (IHI) in Boston and has been since its inception. She directed the IHI Idealized Design of the Intensive Care Unit project and also led the governance consulting for the Improving Performance in Practice (IPiP) Initiative, a Robert Wood Johnson-funded collaborative initiative of the American Board of Medical Specialties, and the Boards and Societies of Internal Medicine, Family Physicians and Pediatrics.

Ms. Adams was Founder, President and CEO of Decision Support Systems, a New York-based company specializing...
in Internet-based health care decision support. She was among the first to bring the principles of healthcare quality improvement to the Middle East, in conjunction with Donald M. Berwick, MD, and the Harvard Institute for Social and Economic Policy in the Middle East. She traveled in the U.S. and Europe with Dr. W. Edwards Deming as a student in the study of statistical-based quality improvement.

Ms. Adams’ experience in healthcare at the senior management level included her position as Vice President of Patient Services at Parkview Episcopal Medical Center in Colorado and Assistant Administrator for the Universal Health Services’ New Orleans area hospitals. In 2007, she received a Congressional citation from Congressman Patrick Kennedy for her visionary leadership and contributions to improving the health care system in Rhode Island. In 2010 she was named “Healthcare Industry Leader in Business” by the Providence Business News and received Progreso Latino’s “Unsung Hero” award for leading systemic change in health care. Ms. Adams also received University of Northern Colorado's 2010 Distinguished Alumni award.

Oregon Health & Science University School of Nursing congratulates its faculty who have been recognized by the Academy, Drs. Carol Howe and Dena Hassouneh along with Oregon colleagues Dr. Karen Greco, Susan King and Dr. Helen Turner. Together we help Oregon Flourish.

---

**Congratulations Dr. Fiandt!**

From
Dean Pamela Watson
and Your Colleagues
at the UTMB School of Nursing
Galveston, Texas
Vice Admiral Regina Benjamin, MD, MBA

Regina M. Benjamin is the 18th Surgeon General of the United States. As America’s Doctor, she provides the public with the best scientific information available on how to improve their health and the health of the nation. Dr. Benjamin also oversees the operational command of 6,500 uniformed health officers who serve in locations around the world to promote, and protect the health of the American People.

Dr. Benjamin is Founder and Former CEO of the Bayou La Batre Rural Health Clinic in Alabama, former Associate Dean for Rural Health at the University of South Alabama College of Medicine in Mobile, and Past Chair of the Federation of State Medical Boards of the United States.

Dr. Benjamin is a member of the National Academy of Science’s Institute of Medicine, and a Fellow of the American Academy of Family Physicians. She was a Kellogg National Fellow and a Rockefeller Next Generation Leader.

Dr. Benjamin has a BS in chemistry from Xavier University, New Orleans; attended Morehouse School of Medicine, and received her MD degree from the University of Alabama, Birmingham; She also has an MBA from Tulane University and fifteen honorary doctorates.

Bonnie Gance-Cleveland, PhD, RNC, PNP, FAAN

Bonnie Gance-Cleveland is the first Director of the Center for Health Outcomes in Children, Teens and Families at Arizona State University College of Nursing and Healthcare Innovation. Dr. Gance-Cleveland also co-directs the Consortium for Obesity-Related Health Disparities Research and Action where she facilitates connections between academia and community partners to address childhood obesity. She has 10 years experience in faculty practice in a school-based health center and research on outcomes of school-based interventions. Dr. Gance-Cleveland has been funded by NIH to evaluate school-based support groups for adolescents with an addicted parent and her current research focuses on substance abuse, obesity prevention in school-based settings, motivational interviewing, and use of technology to improve provider’s use of current evidence in practice. Dr. Gance-Cleveland was the Chair of NAPNAP’s Healthy Eating and Activity Together (HEAT) Research Work Group and was a member of the American Medical Association Expert Writing Group on Childhood Obesity. She currently serves on the American Heart Association Oversite committee for center grants and on the National Advisory Committee for childhood obesity for the National Initiative on Child Health Quality (NICHQ). Dr. Gance-Cleveland was funded by Blue Cross and Blue Shield to conduct an outcome evaluation of the school-based obesity prevention curriculum using the community-based participatory method. She is currently funded by AHRQ for a comparative effectiveness trial evaluating web-based training with and without technology support for providers in school-based health centers in implementation of the current obesity guidelines.
Nancy Fugate Woods, PhD, RN, FAAN

Nancy Fugate Woods is a Professor in the Department of Biobehavioral Nursing and Health Systems and Dean Emerita of the University of Washington School of Nursing. Since the late 1970s, she has led a sustained program of research in the field of women's health. Her collaborative, interdisciplinary research has resulted in an improved understanding of women’s experiences of menstrual cycle symptoms as well as the menopausal transition, including endocrine, social and personal factors influencing symptoms and women’s approaches to symptom management. She has served as an investigator for the Women’s Health Initiative Study and is named as an investigator for the MsFLASH study of symptom management approaches for hot flashes and related symptoms. Her work has advanced nursing care for reproductive aged and mid-life women and has provided women with a better understanding of their health. In 1989 Dr. Woods and her colleagues, including Dr. Joan Shaver, established the first NIH-funded Center for Women’s Health Research at the University of Washington School of Nursing.

Dr. Woods has served as president of the American Academy of Nursing, the North American Menopause Society, and the Society for Menstrual Cycle Research. She helped set research agendas as a member of the National Institutes of Health Women’s Health Task Force and Office of Women’s Health Research Advisory Council. Her honors include election to the Institute of Medicine of the National Academies and to the American Academy of Nursing. She received the American Nurses Foundation Distinguished Contribution to Nursing Research Award, and in 2003, she received the Pathfinder Award from the Friends of the National Institute for Nursing Research. She has received honorary doctoral degrees from the University of Pennsylvania, the University of Haifa, and Chiang Mai University, Thailand. She earned a B.S. in nursing from the University of Wisconsin, Eau Claire, in 1968; a M.N. from the University of Washington in 1969; and a Ph.D. in epidemiology from the University of North Carolina, Chapel Hill, in 1978.

Linda Burnes Bolton, DrPH, RN, FAAN

Linda Burnes Bolton is the Vice President for Nursing, Chief Nursing Officer and Director of Nursing Research at Cedars-Sinai Medical Center in Los Angeles. Her research, teaching, and clinical expertise includes: nursing and patient care outcomes, improving organization performance, quality care and cultural diversity within the health professions. She is co-investigator of the Collaborative Alliance for Nursing Outcomes research team.

Dr. Burnes Bolton is a past president of the American Academy of Nursing and the National Black Nurses Association. She has provided leadership for several state and national programs including service as chair of the National Advisory Committee for Transforming Care at the Bedside, VA Commission on Nursing and the California AHEC Health Professions Committee. Currently she serves on multiple nursing and health services advisory boards and is a trustee of the Case Western University board. In 2009 she was appointed vice chair of the Institute of Medicine Commission on the Future of Nursing. She is the recipient of numerous awards for her scholarly work and community service. Dr. Burnes Bolton received her DrPH from UCLA School of Public Health.
Julie Fairman, PhD, RN, FAAN

Julie Fairman is a Professor of nursing at the School of Nursing, University of Pennsylvania, where she is also the Director of the Barbara Bates Center for the Study of the History of Nursing. She holds a secondary appointment in the Department of the History and Sociology of Science and is a member of the Women’s Studies Faculty Advisory Board. She is also a Senior Fellow at the Leonard Davis Institute of Health Economics, University of Pennsylvania. Dr. Fairman received her BSN from Albright College, Reading, Pennsylvania, and her MSN and PhD from the University of Pennsylvania. Her clinical practice background includes critical care and renal transplantation. Her research on the history of nursing and health care has been funded by an RWJ Investigator in Health Policy fellowship, the NLM, the NEH, and the American Nurses Foundation. She is the author of two critically acclaimed books, Critical Care Nursing: A History (University of Penn Press, 1998), and an analysis of the American nurse practitioner movement from 1960-1980, Making Room in the Clinic, (Rutgers). She is currently funded by an RWJ Investigator in Health Policy Fellowship, for which she is writing a new book focusing on the intersection of nursing and health care policy. In 2009-2010 she was the Institute of Medicine Distinguished Nurse Scholar in Residence, where she worked with the RWJF Initiative on the Future of Nursing, at the Institute of Medicine. She recently published an article in the New England Journal of Medicine entitled “Broadening the Scope of Nursing Practice.”

Susan Hassmiller, PhD, RN, FAAN

Susan Hassmiller is the Robert Wood Johnson Foundation Senior Advisor for Nursing where she is tasked with shaping and leading the Foundation’s strategies to address the nurse and nurse faculty shortages in an effort to create a higher quality of patient care in the United States. Drawn to the Foundation’s “organizational advocacy for the less fortunate and underserved,” Dr. Hassmiller is helping to assure that RWJF’s commitments in nursing have a broad and lasting national impact. She is overseeing the Robert Wood Johnson Foundation Future of Nursing: Campaign for Action in partnership with AARP. This is an effort dedicated to implementing the recommendations of the IOM report on the Future of Nursing: Leading Change, Advancing Health.

Dr. Hassmiller, who joined RWJF in 1997, is involved in the American Red Cross as a former member of the National Board of Governors for the American Red Cross, serving in the role of chair of the Disaster and Chapter Services Committee and now on the national nursing committee, and chair elect of the Central New Jersey Red Cross.

Previously, Dr. Hassmiller was with the Health Resources and Services Administration, where she was the executive director of the U.S. Public Health Service Primary Care Policy Fellowship and worked on other national and international primary care initiatives. She also has worked in public health settings at the local and state level and taught public health nursing at the University of Nebraska and George Mason University in Virginia.

Dr. Hassmiller is a Fellow in the American Academy of Nursing and a member of the JCAHO National Nurse Advisory Council and the New York Academy of Medicine. She is the recipient of a number of awards, most notably, the Florence Nightingale Medal, the highest international honor given to a nurse by the International Committee of the Red Cross.
Walter Willett, MD, DrPH

Walter Willett is Professor of Epidemiology and Nutrition and Chairman of the Department of Nutrition at Harvard School of Public Health and Professor of Medicine at Harvard Medical School. Dr. Willett, an American, was born in Hart, Michigan and grew up in Madison, Wisconsin, studied food science at Michigan State University, and graduated from the University of Michigan Medical School before obtaining a Doctorate in Public Health from Harvard School of Public Health. Dr. Willett has focused much of his work over the last 25 years on the development of methods, using both questionnaire and biochemical approaches, to study the effects of diet on the occurrence of major diseases. He has applied these methods starting in 1980 in the Nurses’ Health Studies I and II and the Health Professionals Follow-up Study. Together, these cohorts that include nearly 300,000 men and women with repeated dietary assessments are providing the most detailed information on the long-term health consequences of food choices.

Dr. Willett has published over 1,100 articles, primarily on lifestyle risk factors for heart disease and cancer, and has written the textbook, Nutritional Epidemiology, published by Oxford University Press. He also has three books book for the general public, Eat, Drink and Be Healthy: The Harvard Medical School Guide to Healthy Eating, which has appeared on most major bestseller lists, Eat, Drink, and Weigh Less, co-authored with Mollie Katzen, and most recently, The Fertility Diet, co-authored with Jorge Chavarro and Pat Skerrett. Dr. Willett is the most cited nutritionist internationally, and is among the five most cited persons in all fields of clinical science. He is a member of the Institute of Medicine of the National Academy of Sciences and the recipient of many national and international awards for his research.

Congratulations New Fellows!

Building Academic Geriatric Nursing Capacity

Congratualtions
New Fellows!
The Academy Shoppes
Look for the Academy Shoppes booth to purchase medallions, lapel pins, and charm bracelets. Our new items for 2011 include leather business card holders, coffee mugs and pens.

Affiliate Receptions during the Annual Meeting & Conference
The schedule of Affiliate Group functions can be found on page 28.

American Academy of Nursing Membership Meetings

OPEN FORUM
- **Date:** Friday, October 14, 12 - 1:15 pm
- **Location:** Regency Ballroom
This is an open meeting at which Fellows will have the opportunity to discuss the Academy's programs and policies, bylaws, as well as the Academy’s strategic direction.

BUSINESS MEETING
- **Date:** Saturday, October 15, 8 - 10:30am (breakfast will be provided)
- **Location:** Regency Ballroom
All Fellows are encouraged to attend the Annual Business Meeting to vote on the new Bylaws, learn about the current accomplishments of the Academy, future planning, and major announcements. **Please be sure to bring your ticket included in your packet for admission.**

COMMITTEE MEETINGS
Please see the American Academy of Nursing Group Meetings Schedule on page 27 for a full listing of Academy Committee Meetings.

EXPERT PANEL MEETINGS
Expert Panels meetings are scheduled throughout the Annual Meeting & Conference. Expert Panel meetings are open to all attendees. Please see the complete schedule on page 27.

FELLOW SELECTION OPEN FORUM
- **Date:** Friday, October 14, 4:30 - 5:30pm
- **Location:** Regency Ballroom
This forum is a question-and-answer session for Fellows who are interested in sponsoring New Fellows. What are the criteria? What do I need to do to sponsor a nominee? Bring your questions for a discussion with members from the Fellow Selection Committee.

NEW FELLOW ORIENTATION
- **Date:** Thursday, October 13, 5:30 - 6:30pm
- **Location:** Congressional A
A required meeting for all 2011 New Fellows to meet each other and learn what happens at the Annual Meeting & Conference as well as the Induction process.
American Academy of Nursing Annual Meeting & Conference Policies

ADMISSION TO SESSIONS
Official name badges will be required for admission to all Academy sessions. All Annual Meeting & Conference attendees receive a name badge with their registration materials. Name badges should be worn at all times inside the hotel, as badges will be used to control access to sessions and activities. Attendees are cautioned against wearing their name badges while away from the hotel as badges draw unwanted attention to your status as visitors to the Washington, DC area.

ADMISSION BY TICKETS
Admission into the Living Legends Celebration Reception and the Induction Ceremony and Soiree are included in the FULL registration price. The FRIDAY only registration fee includes admission to the Living Legends Ceremony and the SATURDAY only registration fee includes admission to the Induction Ceremony and Soiree. Your registration packet should include all tickets, including tickets for entrance to the Business Meeting and any tickets purchased for guests. If you feel you are missing a ticket, please check with the HELP DESK. Tickets will be collected at the door by ushers.

ATTIRE
Appropriate dress for the Annual Meeting & Conference is business casual. A jacket or sweater is recommended as temperatures in meeting rooms may vary. Dress for the Living Legends Ceremony & Reception is formal business attire (suits and ties for men, business-like dress with jackets for women). Dress for the Induction Ceremony is cocktail-to-formal, with black tie optional for men.

CELL PHONE PROTOCOL
Please ensure that cell phone ringers are turned off during all sessions.

Continuing Education
The American Academy of Nursing is pleased to be working with the Alabama State Nursing Association to provide Continuing Education Contact Hours to attend this year’s annual meeting.

By attending all plenary sessions scheduled for the conference, submitting completed education session evaluation forms, personal verification form and the program evaluation form as directed, attendees are eligible to earn 3 contact hours for the pre-conference and 6.75 contact hours for the Annual Meeting and Conference for continuing nursing education.

- October 13, 2011, Pre-Conference Session, 3.0 contact hours
- October 14, 2011, Annual Meeting & Conference Sessions, 5.5 contact hours
- October 15, 2011, Annual Meeting & Conference Sessions, 1.25 contact hours

This continuing nursing education activity was approved by the Alabama State Nurses Association, an accredited approver of continuing education by the American Nurses Credentialing Center’s Commission on Accreditation.

Emergency & First Aid
The Hyatt Regency Washington is fully prepared to handle emergency requests and first aid. Pick up any house phone for immediate assistance and contact an Academy staff person for support. Remember to note all emergency exits within the hotel.

Evaluations
In the Academy's continued effort to be green, again this year meeting evaluation will be completed online. You will be notified how to access it after the meeting. Please take the time to complete the evaluation form. Your input and comments are essential in planning future Annual Meeting & Conferences.
Exhibits
- Location: Regency Foyer
Remember to stop by and visit this year's exhibitors. Show your support of the new programs and products displayed at this year’s conference.

EXHIBIT HALL OPEN
- Thursday, October 13 • 1 – 7pm
- Friday, October 14 • 7am – 7pm
- Saturday, October 15 • 7 – 11am

Floral Orders
**Grand Floral and Design** is handling all floral orders. Please go to the HELP DESK for all questions in regards to flower orders, including pick up location.

Hotel Information
**Hyatt Regency Washington on Capitol Hill**
400 New Jersey Avenue, NW, Washington, DC
202-737-1234
Check in: 3pm • Check-out: 12pm

**BUSINESS CENTER**
There is a FedEx Business Center on the Lobby Level of the hotel.

**INTERNET ACCESS**
The public areas at the hotel are wireless. Your guest room is wireless. The charge for the internet is $10.99/day.

**NO SMOKING**
The Hyatt Regency Washington on Capitol Hill is a non-smoking property.

**PARKING**
Valet parking is available for $41/day with in-and-out privileges.

Lost & Found
Please feel free to stop by the HELP DESK if you have lost or found an item during the course of the Conference. You may also wish to check with hotel security regarding lost items.

Messages
A self-service message board (non-electronic) will be available in the Registration Area for attendees to post notes or leave messages for other attendees. Please remember to check for any messages that may be left for you.

Photography
Cameras are not permitted in any 38th Annual Meeting educational session or in the poster areas.

The Academy has arranged for a photographer to be present throughout much of Conference. The Academy will use these photos in publications and to produce related literature and products for public release. Individuals photographed will not receive compensation for the use and release of these photos and will be deemed to have consented to the use and release of photos in which they appear. If you are opposed to being photographed, please immediately notify the photographer or an Academy staff member if your picture is taken. Thank you for your cooperation.
The photographer, Sonny Odom, has agreed to provide a 10% donation to the Rheba de Tornyay Development Fund for six months after the meeting for Academy Annual Meeting & Conference photographs that are purchased from his Web site: www.sonnyodom.photoreflect.com.

**Poster Sessions**
- Location: Regency Foyer
All posters will be shown in an electronic format. Please be sure to come and check out this latest technology and support your colleagues.

**POSTER SESSION HOURS**
- Thursday, October 13 • 1 – 7pm
- Friday, October 14 • 7am – 7pm
- Saturday, October 15 • 7 – 11am

**AUTHORS AVAILABLE**
- Friday, October 14 • 7 – 8:30am, 10:15 – 10:45am, 4:30 – 6pm
- Saturday, October 15 • 7 – 8am, 10:30 – 11am

**Registration Desks**
- Location: Hotel Lobby
Name badges, registration bags, and tickets will be distributed at the Registration Desk. Academy staff will be available to answer questions and provide support to attendees. Academy Board Members will be available throughout the Registration hours as well.

The Registration Desk will be open during the following times:
- Wednesday, October 12 • 5 – 8pm
- Thursday, October 13 • 9am – 7pm
- Friday, October 14 • 7am – 7pm
- Saturday, October 15 • 7am – 5pm

**Guest Tickets**
Guests may register to attend the Living Legends Ceremony & Reception at a cost of $125 per guest. Tickets for the Induction Ceremony and Soiree may be purchased for $150 per guest (based on availability). All tickets may be purchased at REGISTRATION.

**Induction Ceremony Seating**
There is no assigned seating for the Induction Ceremony. However all guests are allowed access to the Regency Ballroom at 4pm to save the appropriate number of seats. New Fellows, 2011 Honorary Fellows, 2011 Living Legends, and Academy Board Members will have assigned seats up front. New Fellows WILL NOT be sitting with their families. Please visit the HELP DESK for assistance.

---

**College of Nursing**

**Faculty and Administrative Positions**

We seek highly qualified individuals to join our dynamic faculty in a top ranked research university with state of the art teaching, research, and clinical facilities on an interdisciplinary health sciences campus.

- **Assistant/Associate Professor** (tenure track): Health Services Research expertise in acute care delivery systems; Position # 813954.
- **Associate Professor**: Pediatric Nurse Practitioner (tenure or clinical teaching track); Position # 814607
- **Associate/Full Professor** (tenurable): Family Nurse Practitioner; position # 814608
- **Associate/Full Professor** (tenurable), Psychiatric/Mental Health Nursing; Position # 813998.
- **Professor and Division Chair** (tenurable), Adult & Senior Health; Position # 811372

For more information, please contact Dr. Ruth A. O’Brien, Professor and Chair, Faculty Search Committee; ruth.obrien@ucdenver.edu. Submit application, www.jobsatcu.com under the relevant position number.
CONGRATULATIONS TO THE 2011 LIVING LEGENDS

AMERICAN ACADEMY OF NURSING
LIVING LEGENDS 2011

Patricia E. Benner, PhD, RN, FAAN
Suzanne Lee Feetham, PhD, RN, FAAN
Ada Sue Hinshaw, PhD, RN, FAAN
Meridean L. Maas, PhD, RN, FAAN
May L. Wykle, PhD, RN, FGSA, FAAN

The American Academy of Nursing is proud to recognize outstanding Fellows who epitomize nursing’s proud history and serve as role models for all of us. The following nurses are honored as Living Legends in recognition of the multiple contributions these individuals have made to our profession and society and in recognition of the continuing impact of these contributions on the provision of health care services in the United States and throughout the world.

A Fashion Hayvin  BOOTH 2119
www.conventionjewelry.com
A Fashion Hayvin, Inc. is a specialty company that markets fine jewelry in over 150 conventions annually. We cater to today's modern, working, medical professional. All items come with our unconditional warranteen and free insurance policy forever.

Elsevier  BOOTH 2111
www.elsevierhealth.com
As the world's leading publisher of science and health information, Elsevier serves more than 30 million scientists, students and health and information professionals worldwide. We help customers advance science and health by providing world-class information and innovative tools that help them make critical decisions, enhance productivity and improve outcomes.

Johns Hopkins University School of Nursing  BOOTH 2113
www.nursing.jhu.edu
Johns Hopkins University School of Nursing offers academic preparation for the future leaders in the profession of nursing to practice in national and international settings. Degreed programs include Baccalaureate, Master's and Doctoral education. Areas of focus include, but are not limited to, Forensic Nursing, Nurse Practitioner, MSN/MBA, MSN/MPH, DNP and PhD.

Lippincott, Williams and Wilkins  BOOTH 2112
www.lww.com
Lippincott Williams & Wilkins (LWW) is a leading international publisher of professional health information for nurses, physicians, specialized clinicians and students. LWW provides essential information for healthcare professionals in print and electronic formats, including nursing textbooks, journals, CD-ROM, and via Intranets and the Internet.

New York University College of Nursing  BOOTH 2117
www.nyu.edu/nursing
The mission of NYU College of Nursing as an integral part of a global private university “in the public service” is to generate new knowledge and educate future nursing professionals who in turn exemplify the highest standards of excellence in research, education, and practice for a global society. NYU College of Nursing offers a Bachelor of Science in Nursing; Master of Arts and Post-Master's Certificate Programs; a Doctor of Philosophy in Research Theory and Development, and a Doctor of Nursing Practice degree.
Springer Publishing Company  BOOTH 2118

www.springerpub.com
Springer Publishing Company has been, for more than 55 years, one of the premier publishers of quality nursing books in the field. Please come by our display to see our host of new and exciting titles in numerous fields of nursing.

University of California – Los Angeles, School of Nursing  BOOTH 2115

www.nursing.ucla.edu
UCLA School of Nursing offers one undergraduate degree program – the BS Pre-licensure for incoming freshman from high school and transfer students from community college – two master degree programs – Master’s Entry to Clinical Nursing and Advance Practice in areas of Nursing Administration, Clinical Nurse Specialist, or Nursing Practitioner. UCLA’s PhD program offers research strands in Bio-behavioral Science, Biologic Science, Health Disparities/ Vulnerable Populations and Health Services

University of Minnesota School of Nursing  BOOTH 2116

www.nursing.umn.edu
The University of Minnesota School of Nursing, ranked in the nation’s top five percent of nursing schools, is a leader in improving health care through research, education, and service. The school has a vast number of programs including the BSN, MN, PhD, and DNP which features 14 specialty areas.

Wiley-Blackwell  BOOTH 2114

www.wiley.com
Wiley-Blackwell is the international scientific, technical, medical and scholarly publishing business of John Wiley & Sons, with strengths in every major academic and professional field and partnerships with many of the world’s leading societies. Wiley-Blackwell publishes over 1,400 peer-reviewed journals as well as 1,500+ new books annually in print and online, as well as databases, major reference works and laboratory protocols. For more information, please visit www.wiley.com or http://onlinelibrary.wiley.com.

39th ANNUAL MEETING & CONFERENCE

OCTOBER 11-13, 2012
HYATT REGENCY WASHINGTON ON CAPITOL HILL, WASHINGTON DC
POSTER SESSION HOURS

- Thursday, October 13 .................... 1 – 7 pm
- Friday, October 14 ....................... 7am – 7pm
  Presenting Author Available .......... 7 – 8:30am, 10:15 – 10:45am, 4:30-6pm
- Saturday, October 15 ................. 7 – 11am
  Presenting Author Available .......... 7 – 8am, 10:30 – 11am

POSTER LIST (Information appears as submitted by author)

Evidence-based Content for Oncology Support Groups

This is the largest assessment of support issues for patients and caregivers. Patients express clear preferences for the types of topics they particularly value, and findings from this study should guide nurses when developing oncology support groups. Further analysis will be reported evaluating the influence of various demographic parameters on patient and caregiver preferences. These preferences validate oncology nursing practice based on evidence provided from patients themselves.

PRESENTING AUTHOR

- Cynthia N. Rittenberg, MR, RN, AOCN, FAAN
  Rittenberg Oncology Consulting
- Kathi D. Morse, LCSW, ACSW, CT, Hofstra North Shore - LIJ School of Medicine, Monter Cancer Center, Center for Advanced Medicine
- Richard J. Gralla, MD, Hofstra North Shore - LIJ School of Medicine, Monter Cancer Center, Center for Advanced Medicine
- Judy A. Petersen, RN, MN, AOCN, NexCura, Inc
- Kenda Burg, NexCura, Inc
- Beverly V. Davis, RN, MSN, AOCN, NexCura, Inc
- Cristina I. Sison, PhD, Feinstein Institute for Medical Research; North Shore-LIJ health System
- Lisa M. Rosen, ScM, Feinstein Institute for Medical Research; North Shore-LIJ health System
- Martin L. Lesser, PhD, Feinstein Institute for Medical Research; North Shore-LIJ health System

Physical Activity Promotion in Older Adults

The multi-faceted information resulting from this study will aid in developing targeted nursing, community-based interventions to promote physical activity in order to positively impact the health of this growing and at-risk population.

PRESENTING AUTHOR

- Donna J. Plonczynski, PhD, APN, RN
  Northern Illinois University
- Ping Yao, Northern Illinois University
To Understand Women’s Attitudes Toward Physical Activity

The findings supported significant relationship between midlife women’s attitudes toward physical activity and their actual participation in physical activity while indicating significant ethnic differences in the women’s attitudes. Also, this study indicated the women’s attitudes toward physical activity were a significant predictor of their physical activity across ethnic groups and identified ethnic-specific predictors of the women’s participation in physical activity. In the design of a future Web-based physical activity promotion program, researchers need to consider ethnic differences in the women’s attitudes toward physical activity, their associations to the women’s participation in physical activity, and ethnic-specific predictors of the women’s physical activity.

PRESENTING AUTHOR

Eun-Ok Im, PhD, MPH, RN, CNS, FAAN  
School of Nursing, The University of Texas at Austin

Wonshik Chee, School of Nursing, The University of Texas at Austin
Alexa Stuifbergen, PhD, FAAN, School of Nursing, The University of Texas at Austin
Lorraine Walker, PhD, MPH, FAAN, School of Nursing, The University of Texas at Austin
Adama Brown, PhD, School of Nursing, The University of Texas at Austin

Development of a Web-based Physical Activity Promotion Program

The findings supported the feasibility of developing a Web-based physical activity promotion program that incorporates the women’s ethnic-specific attitudes toward physical activity and ethnic-specific predictors of their physical activity. The findings suggest that it would be worthy for researchers to make continuous efforts to develop and test Web-based programs for health promotion of people across the lifespan.

PRESENTING AUTHOR

Wonshik Chee  
School of Nursing, The University of Texas at Austin

Eun-Ok Im, School of Nursing, The University of Texas at Austin

Age-related Impact of Intensive Insulin Therapies

In almost all survey questions concerning management and effect on lifestyle, Insulin Pump scores were more positive than MDI scores for both patients and SOs. There should be increased emphasis on teaching “SOs” how to operate the off-function of insulin pumps. These factors have clinical practice ramifications.

PRESENTING AUTHOR

Marlene M. Rosenkoetter, PhD, RN, CNS, FAAN  
College of Nursing, Georgia Health Sciences University

Max E. Stachura, MD, Medical College of Georgia, Georgia Health Sciences University
Elena Astapova, MD, PhD, Medical College of Georgia, Georgia Health Sciences University
David Brown, PA-C, Medical College of Georgia, Georgia Health Sciences University
James Dias, PhD, College of Graduate Studies, Georgia Health Sciences University
Creating a Personal Health Record (PHR)

Chronically ill, complex persons living with HIV/AIDS welcomed the opportunity to receive a paper-based PHR that reflected their unique history. Further research is needed to evaluate if patients use the PHR in subsequent visits with healthcare providers, integrate health-related information from other sources, and update the PHR regularly. Other research with veterans and at a safety-net setting in San Francisco has shown that less than 20% of HIV+ persons create a readily accessible internet-based PHR. PHR are a new tool available to clinicians and consumers who are interested in creating more engaged relationships characterized by shared decision-making. This research shows that the cost involved in starting a PHR for a relatively low educationally literate and diverse population is relatively low and could be worth the effort in ensuring more accurate histories upon which providers develop and implement plans of care.

PRESENTING AUTHOR

- Kathleen M. Nokes, PhD, RN, FAAN
  Hunter Bellevue School of Nursing, Hunter College / CUNY
- Valery Hughes, FNP, New York Presbyterian Hospital
- Ryan Santos, MSN, ANP-BC, New York Presbyterian Hospital
- Heejung. Bang, PhD, Division of Biostatistics & Epidemiology, Department of Public Health, Weill Cornell Medical College

The Menstrual Cycle as a Fourth Vital Sign

Data was produced by 455 women who used an online menstrual cycle charting system. Participants ranged in age from 21-42 years, had a mean of 1.7 children, and produced 3,169 menstrual cycles of data. Menstrual bleeding was self-rated from 1-3, with 1 = light, 2 = moderate, and 3 = heavy bleeding. Bleeding outside of menses was considered unusual and classified whether it was during or outside of the fertile phase. Phases of the menstrual cycle were estimated based on urinary assays of estrogen and LH. Menstrual cycles outside of a 21-35 day range and luteal phases outside of a 7-17 day range were considered abnormal.

FIRST AUTHOR, PRESENTING AUTHOR

- Richard J. Fehring, PhD, RN, FAAN
  College of Nursing, Marquette University
- Dana Meredith Rodriguez, College of Nursing, Marquette University

Activity and Fall Risk: Methadone-treated Adults

Impaired mobility and increased fall risk are not usually thought of as a consequence of drug use. In a drug treatment population, an increased fall risk was associated with decreased physical activity and decrease ankle range of motion. Data are needed about falling and these fall risk factors. With aging of the large cohort of baby boom drug users, it is important to understand fall risk factors. Besides the general negative health effects of low physical activity levels, impairments in mobility need to be considered in terms of screening for fall risk. A better understanding of the underlying deficits is needed so that safe and targeted interventions can be developed and tested.

PRESENTING AUTHOR

- Barbara Pieper, PhD, RN, FAAN
  College of Nursing, Wayne State University
- Thomas N. Templin, College of Nursing, Wayne State University
- Allon Goldberg, PhD, Health Sciences, Wayne State University
Oral Health Promotion in Elders with Dementia

The MOUTh protocol contributed to improved oral health in this sample of persons with moderate to severe dementia by reducing CRBs. This evidence-based innovation is highly relevant to meeting the public need for improved oral health in older adults. We are in the process of further testing the MOUTh protocol in a randomized controlled trial recently funded by NIH/NINR (R01NR012737-01).

PRESENTING AUTHOR
- Rita A. Jablonski, PhD, CRNP
  School of Nursing, Penn State
- Ann M. Kolanowski, School of Nursing, Penn State
- Barbara Therrien, University of Michigan, Ann Arbor
- Erminia Gabello, School of Nursing, Penn State
- Cathy Kassab, PhD, By The Numbers

APRN Managed Heart Failure Clinic

Utilization of an innovative APRN-managed multidisciplinary HF Clinic has improved QOL and contributed to one hospital’s decreased HF all-cause readmission rates within this population. It is anticipated that an increase in physician referrals to the clinic will result in improved QOL and fewer hospital readmissions in this population.

PRESENTING AUTHOR
- Donna J. Plonczynski, PhD, APN, RN
  Northern Illinois University
- Christina Hanson, MSN, ACNS-CS, Heart Failure Clinic, Sherman Hospital
- Kara Aalfs, MSN, ACNS-BC, Heart Failure Clinic, Sherman Hospital

Genome-wide Analysis of DNA Methylation in PE

Genome-wide analysis revealed novel genes differentially methylated in the placental tissue from women with PE, compared to those with normotensive pregnancy. DNA hypermethylation around promoter sites may reduce transcription of genes regulating blood vessel development in placental tissue from women with PE, providing a putative explanation for the mechanism of placental insufficiency. These findings have the potential to stimulate new, innovative approaches for identification of PE risk through characterization of DNA methylation patterns in key genes as well as development of effective therapeutic strategies aimed at mechanistic targets.

PRESENTING AUTHOR
- Cindy M. Anderson, PhD, RN, WHNP-BC, FAAN
  Family and Community Nursing, University of North Dakota
- Eric Uthus, PhD, USDA ARS Grand Forks Human Nutrition Research Center
Geriatric Nursing Care in Long-term and Acute Care
Nurses in long-term care were more satisfied that care was evidence-based; specialized to individual needs of older adults; promoted autonomy and independence of elders; and was continuous across settings.

PRESENTING AUTHOR
- Beth E. Barba, PhD, RN, FAAN
  Community Practice, University of North Carolina at Greensboro
- Jie Hu, University of North Carolina at Greensboro

Needs Assessment Survey on Evidence-based Practice
The DEBP Questionnaire was successfully adapted and implemented. EFA identified 7 underlying factors and relationships between the factors and several nurse characteristics. Findings have implications for designing institutional strategies for EBP initiatives.

PRESENTING AUTHOR
- Patricia Robin McCartney, PhD, RNC, FAAN
  Department of Nursing, Washington Hospital Center
- Siobhan Moose, RN, BSN, Department of Nursing, Washington Hospital Center
- Cathie E. Guzzetta, PhD, RN, FAAN, Washington Hospital Center

Health Promotion Outcomes in PHN Home Visiting
This study suggests that positive outcomes take longer to achieve than not reaching a positive outcome. Improvement may occur in 11-12 months vs. 2-4 years. The public health nurses and clients in this data set mutually decided the length of service delivery, while standardized home visiting programs protocols require that providers serve families for 2-4 years from the birth of the first child. The difference in cost of providing services for 1 year vs. 2 – 4 years is considerable. This finding is important for practice and policy, and should be tested in a prospective trial. This study is an exemplar of meaningful use of nursing data to inform health promotion practice and influence local and national policy. Large nursing terminology data sets have potential to be used in new ways to expand health promotion research and innovation.

PRESENTING AUTHOR
- Karen A. Monsen, PhD, RN, FAAN
  School of Nursing, University of Minnesota
- Karen S. Martin, RN, MSN, FAAN, Martin Associates
- Kathryn H. Bowles, PhD, RN, FAAN, School of Nursing, University of Pennsylvania

Exploring Health Promotion Activities for Nurses
This project, testing the effectiveness of bringing health promotion activities onto a hospital unit, will provide stimulation for expanding research regarding nurse health and nurse participation in health promotion activities. Further research utilizing large samples to identify cost-effectiveness nurse health promotion activities is indicated. Creating a comprehensive, visible, and easily accessible program of evidence-based nurse wellness offerings, ranging from interventions for nurses’ physical and emotional health to workplace safety and hazards protection would likely influence RNs health perceptions, create a safety climate, and impact retention.
**Fidelity of Grandmother Resourcefulness Training**

Quantitative findings provide beginning evidence for the implementation fidelity of RT using either the journal or digital voice recorder and support moving forward with testing the effectiveness of RT in reducing grandmother’s stress and promoting their mental and physical health. However, qualitative findings showed that use of a digital recorder for practicing and reinforcing resourcefulness skills may have better fidelity than use of a written journal, suggesting ongoing monitoring of implementation fidelity across methods used for reinforcing and practicing the resourcefulness skills constituting RT.

**SALSA: Using Evidence for Program Development**

Findings of the survey revealed that underage alcohol use was a common practice for this group of young women, along with binge drinking. These findings are being used in the development of a gender-specific integrated HIV and alcohol abuse prevention program for students, which will focus on student awareness of the link between substance abuse and HIV/AIDS (SALSA). Further studies are being conducted to determine the incidence of drinking by other student groups, and the most effective ways to deliver prevention messages across campus.

**Promoting the Health of Family Caregivers**

In order to promote the health of family caregivers, it is critical that organizational policy change to shift the prevailing focus on caregivers as co-providers who extend care toward care-recipients who require supportive interventions to manage the difficult realities of losing their charge to a life-limiting illness.
Effects of Grandmother Resourcefulness Training
The identified trends show that RT reinforced by either EW or VD is superior to comparison interventions (EW or VD alone) and attention in reducing perceived stress and depressive symptoms and increasing quality of life with no substantial difference between reinforcement methods, EW versus VD. Further testing of the comparative effectiveness in a randomized controlled trial of grandmothers is recommended. However, the findings suggest that teaching resourcefulness skills to grandmothers raising grandchildren and reinforcing them with either expressive writing or expressive disclosure may be beneficial for minimizing their perception of stress and depressive symptoms and enhancing their quality of life. Since no differences were found between the two reinforcement methods, offering the grandmothers a choice between the two methods may be a possibility.

PRESENTING AUTHOR
- Jaclene A. Zauszniewski, PhD, RN-BC, FAAN
  Frances Payne Bolton School of Nursing, Case Western Reserve University
- Tsay-Yi Au, Frances Payne Bolton School of Nursing, Case Western Reserve University
- Carol Musil, Frances Payne Bolton School of Nursing, Case Western Reserve University
- Theresa Standing, Frances Payne Bolton School of Nursing, Case Western Reserve University

Leveraging Informatics to Eliminate Disparities
The evidence base for the most effective clinical interventions aimed at eliminating health disparities is limited for medically underserved, minority, low income, and immigrant populations; such as those in Northern Manhattan. NOCERED is using informatics methods and innovations that can play an important role in CER to eliminate health disparities

PRESENTING AUTHOR
- Robert James Lucero, PhD, MPH, RN
  School of Nursing, Columbia University
- Chunhua Weng, PhD, MS, Department of Biomedical Informatics, Columbia University
- Jose A. Luchsinger, MD, MPH, Division of General Medicine, Columbia University

Physical Activity Behaviors in College Freshmen
There are limited studies, which have collectively examined physical activity, interpersonal relationships, stress management, and consumption of alcohol in college students. This study found that a significant relationship exists with physical activity and alcohol consumption during the initial months of the freshmen year of college. It will be important to develop interventions to continue physical activity interventions over time for college students, especially if physical activity promotes lower alcohol consumption in the college population.

PRESENTING AUTHOR
- Mary A. Nies, PhD, RN, FAAN, FAANB
  College of Health and Human Services, School of Nursing, University of North Carolina
- Simone Salandy, MPH, University of North Carolina
Promoting Sexual Health: At-risk Adolescent Girls

Effective gender-appropriate prevention intervention strategies that can reduce risky sexual activity in adolescent girls are paramount in the promotion of healthy sexual behaviors. We demonstrated the ability to recruit and retain over 700 girls from non-clinical populations. Findings from baseline data show the interconnection of high risk behaviors among impoverished, sexually active, urban girls and provide insight into how to target health promotion intervention in scientific trials to address a major gap in adolescent health.

PRESENTING AUTHOR

- Dianne Morrison-Beedy, PhD, RN, WHNP-BC, FNAP, FAAN

- Hugh Crean, PhD, School of Nursing, University of Rochester
- Yinglin Xia, PhD, Biostatistics and Computational Biology, University of Rochester

Insider Perspectives of End of Life Care in Prison

We believe that broader implementation and greater success in infusing EOL care into correctional settings will be actualized through the teaming of researchers with insider stakeholders who include not only the frontline workers who are the focus of the parent study but also the offenders themselves. Infusion of EOL initiatives stand to enhance community relations and inmate morale stemming from the provision of humane death experiences, minimizing suffering, and demonstrating care and compassion within the harsh prison environment. These factors are important to all stakeholders, since compassion for the dying comforts them and contributes to a good death, while at the same time holds potential for liberating the caregivers, who at some point will likely face the same issues.

PRESENTING AUTHOR

- Susan J. Loeb, PhD, RN
  School of Nursing, The Pennsylvania State University

- Janice Penrod, School of Nursing, The Pennsylvania State University
- Erin Kitt-Lewis, School of Nursing, The Pennsylvania State University
- Carol Smith, School of Nursing, The Pennsylvania State University
- Christopher S. Hollenbeak, School of Nursing, The Pennsylvania State University
The American Academy of Nursing is pleased to announce The Rheba de Tornyay Development Fund. The de Tornyay Development Fund (formerly known as the Annual Fund) honors Dr. Rheba de Tornyay, a Living Legend and Founding Member of the Academy, as well as it’s first Board President.

While the yearly fund will elevate and support a variety of the Academy’s initiatives – including Raise the Voice Edge Runners and Expert Panel discussions – each dollar raised directly supports the Academy’s mission of transforming health care policy and practice through nursing knowledge.

DONATIONS
Your generosity allows the Academy to build upon opportunities that may not otherwise be funded. Please go to the Academy’s website for more information and instructions on how to make a gift to the fund. Due to the high cost of processing credit cards, a payment made by check allows for the entire value of your gift to be utilized by the Academy.

Congratulations!  
Presenting the two latest in our group of Fellows of the American Academy of Nursing.  

Drs. Damron and Giddens are nationally known for leading edge work. They are committed to excellence in education, research, and practice. These visionary leaders have an interest in transforming nursing through the development of innovative educational and policy initiatives and building partnerships for enhanced nursing effectiveness.  

They join Drs. Nancy Ridenour, Sally Cohen, Marie Lobo, and Leah Albers as The University of New Mexico’s College of Nursing’s contingent of FAAN designees.
Dean and AAN Fellow Georgia Narsavage and the West Virginia University School of Nursing wish to congratulate 2011 newly elected AAN Fellow Laurie Badzek, MS, JD, LLM, RN
