

CHICAGOLAND PHARMACEUTICAL DISCUSSION GROUP

Affiliated with the American Association of Pharmaceutical Scientists

Winter, 2026

Volume XXXIII, Number 3

**PROGRAM: "HOLY GRAIL FOR THE DELIVERY OF POORLY SOLUBLE COMPOUNDS":
AMORPHOUS NANO PARTICLES.**

DATE: THURSDAY, MARCH 19, 2026

SPEAKER: DR. DEVALINA LAW

This talk will encompass the rationale for amorphous nanoparticle (ANP) development, highlighting the advantages and challenges with respect to formulation development, scale up and analytical evaluations needed for ensuring quality and efficacy. Although this research is still in its early stages, but based on the scientific rationale and early clinical data in animals and humans the value of this approach for the delivery of high drug load formulations is evident, thus providing a step change improvement in the delivery of BCS II and IV compounds.

Dr. Law received her B. Pharm and M. Pharm from Jadavpur University, Kolkata India, and Ph.D. from University of Minnesota. After graduating from Dr. Grant's Lab she joined Pharmaceutical Research & Development at Abbott Laboratories, now AbbVie Inc. During her 30+ years in AbbVie she has held various positions from supporting discovery in candidate nomination, to Phase 1-3 formulation development, new product launch and on-market product support, retiring in 2025. In 2015, she received the Outstanding Service and Leadership Award from AAPS MSE Community and in 2025 became AAPS Fellow. Dr. Law has served as Chair of Chicagoland Pharmaceutical Discussion Group and as a Chair of AAPS-MSE Community. Currently, she is a founder of PharmaEdge Development, Editor for Journal of Pharmaceutical Sciences, Adjunct Professor of Creighton University and Board Member of National Indo-American Museum.

TIME: 5:30 PM – SOCIAL HOUR

6:00 PM – DINNER

7:00 PM – MEETING

PLACE: DOVER STRAITS

890 US-45, MUNDELEIN, IL 60060

COST: \$55.00 (In person)

\$25.00 (Virtual)
