## EXPANDING THE POTENTIAL FOR LEARNING

Keeping pace with technological advancements and changes in generational preferences means that education practices and facilities can’t remain stagnant. With a well-rounded portfolio of products designed to support the shift in how students learn and connect with others, HON delivers spaces that help students, faculty and administrators achieve their full potential.
COVID-19 Disinfection: For disinfecting hard surfaces against the COVID-19 virus the CDC recommends using diluted household bleach solutions (minimum 1/3 cup of bleach for every gallon of water, or a 2% bleach solution) or isopropyl alcohol solution (minimum 70% isopropyl). Concentrations for bleach disinfecting solutions for mesh are noted below and for specific textiles, on page 2 of this document.

Cleaning Instructions for Hard Surfaces and Textiles: Leave cleaning below and for specific textiles, on page 2 of this document.

The following surface materials can be cleaned in this manner:

1. **Vinyl**
   1:10 Diluted Bleach and Water

2. **HPL/TFL/Edgeband/T-Mold/Glass/Plastics**
   5 teaspoons (1/3rd cup) bleach per gallon of water or 4 teaspoons of bleach per quart of water

3. **Poly Shell Seating**
   Apply warm water and mild soap or ammonia-based foam glass cleaner solution to a clean, lint-free microfiber cloth.

4. **Powder Coated Metal Painted MDF**
   Apply a small amount of nonabrasive cleaner such as Windex®, Formula 409®, or Fantastik® to a clean, dry, lint-free microfiber cloth or paper towel.

**Passing With Flying Colors**

The impact of color on mood and behavior has long been studied by color psychologists, scientists, and design professionals, who have concluded that color elicits distinct neurological and biochemical responses in humans. Luckily you don’t have to choose between color and cleanability. HON has a wide variety of finishes that allow you to do both.
Student Health

A safe environment begins at the front door. Set up indoor or outdoor temperature check stations to start your day with peace of mind. HON’s health check station provides faculty & administrators the flexibility and support needed to quickly assess students as soon as they enter the building.

Nurses’ Office and Isolation Area

Our solutions provide support for your schools’ health needs throughout the day. Ensure your Nurse’s office is fully equipped to address the daily needs of your students. In an effort to keep your school community healthy, provide a dedicated space to care for those students exhibiting symptoms.

Featured Product:
Verse® Panels
SmartLink™ Value Mobile Storage
Hand Sanitizer stand
Olson® Stack Chair
Motivate® High Density Stack Chair
