

The Complete Curb-to-Curb Communication Tool for Techs

In field service, providers have been faced with the challenge of keeping up with raised customer expectations and demand while also finding ways to battle the growing labor shortage. Initially developed with the goal of addressing the challenges and effects of the skilled trades gap, XOi Technologies is transforming the way field service professionals do business.

The easy to use XOi Vision app leverages smart technology to transform a technician's work onsite by enabling photo and video documentation, on the job remote training and support, and unlocking an extensive knowledge base of equipment documentation, manuals, diagrams, and more.

35% increase
in the number of service requests completed

24% increase
in the average revenue value of each service request

40% decrease
in the number of second truck rolls

Schedule a personalized webinar for your MIX group to see how XOi can impact your business and bottom line.
