

Effective Corrective Action Plans

Program Agenda:

- 5:15 – 5:30 pm – Registration
- 5:30 – 6:30 pm – Presentations
- 6:30 – 7 pm – Networking

Program Description:

Corrective and Preventive Actions (CAPA) Plans guide Clinical Research Professionals in improving weaknesses, deficiencies, or in rectifying deviation patterns and areas of noncompliance. By asking questions focused on understanding the “what” and the “why”, a CAPA becomes one of the most effective tools not only for uncovering root causes and reporting deviations, but also for analyzing and assessing deviations patterns to prevent them from recurring. This presentation offers attendees an approach to structuring CAPAs in a disciplined way that probes beneath the surface of completing a report for either sponsors or oversight agencies.

Upon completion of this Presentation, attendees will:

- Learn about writing and developing effective corrective and preventative action plans.
- Identify elements that structure effective corrective and preventative action plans.
- Understand the difference between a corrective action and preventative action.

We invite your active participation in our local chapter. Your participation will help our chapter develop into a group that meets the needs of our members. It will also enable us to continue to offer excellent educational programming. If you are interested in presenting or have a suggestion for a program or speaker OR if you are interested in participating on one of our Chapter’s committees OR have information or ideas for the Front Range Newsletter, please contact any Board member. We want to know how we can best meet your interests and needs and also utilize the skills, ideas, and energies of each of our members.

For more information about the ACRP Front Range Chapter visit www.acrpn.net.org/frontrange
