

### Baby Beep

**What to do:**

1. Gently lay baby on his/her back on top of the blanket.
2. Begin to Beep Baby: Tap baby in different places and say the name of each body part.
3. Then say “beep” or make another sound after each new body part you touch. They may start watching your hands and anticipating each touch.

**How to extend activity:**

Turn baby onto their belly and begin to “Beep Baby” while baby is laying on his/her belly.

**Materials:**

- Safe, open floor space without sharp objects on or near the floor.
- A Blanket for the floor.

**What they will learn:**

- Helps baby develop their sense of touch and body awareness.
