

Age Group: Birth to 1 year
Objective: Receptive/Expressive
Language

Babbling /Mirror Babbling

Instructions:

1. Play babbling games with your baby face to face.
2. Then babble while looking in a mirror together.
3. Repeat sounds that your child currently makes and make new sounds to see if your child can repeat them.

Questions to extend learning:

- Do you see my mouth making a funny sound?
- Can you make this sound?
- What other sounds can we make?

Materials:

- Plastic mirror
(handheld/standing)

What will children learn?

The Infant will learn expressive/receptive language skills as well as socialization with others.

Learning Objectives:

- Child will begin to develop receptive/expressive language.
- Uses language to express thought and needs.
- Uses an expanding expressive vocabulary.
