

Twenty+

What to do:

1. Sit child in your lap.
2. Start counting your child's fingers from left to right.
3. Continue to the toes the same way.

How to extend the activity:

Count on...Start counting your toes and fingers too. Your baby would like it too!

Materials:

- A baby and a total of twenty fingers and toes

What they will learn:

- This helps with sensory development.
- This helps in cognitive development.
- This helps with communication development.
