

Learning At Home Activity

Living Room Camp Out

Directions:

Pitch a small pup tent, or make your own by draping blankets over carefully arranged furniture.

Then pull out the sleeping bags, pillows, and flashlights for a real camping experience.

The "tent" can stay up for as long as you want, making it easy for you and your child to go camping anytime.

Materials:

Blankets
Pillows
Flashlights

Extend the Activity: Camping with games passes the time in a healthy and nourishing way. Gather some crayons and paper, and kick back and draw together. With the lights out and a flashlight in hand, share stories from own childhood with your children and let them know how it used to be.
