

November Newsletter - Dolton

Director's Desk

Elise Cole-Rogers, Site Director

November is the month to be thankful, and we would like to send a special thank-you to our volunteers and families.

Now that we have completed our programs' mandated screenings in hearing and vision, behavioral and developmental areas, we can dedicate 100 percent to our time on the implementation of the rest of our plans for getting our children ready for Kindergarten!

Getting children ready for kindergarten is not a task that we can achieve alone. We need our staff, parents, families, and our community partners working together in harmony on behalf of all of our children. One way that we can assess and measure how Dolton Early Learning is progressing with meeting benchmarks of school-readiness is through completing your Parent-Teacher Conference in the classroom with your child's teacher(s).

This year our Parent-Teacher Conference is scheduled for November 11, 2019.

The topics of discussion with your child's teacher should include:

- Parent-Teacher Conference form and child's progress.
- Screening Results
- Child's Portfolio and Individual Goals
- Finally, please make sure that you have a conversation with your Family Engagement Specialist(s) during this time as well.
