Parent, Family, and Community Engagement

I would like to thank all parents who completed and returned the weekly take home activities.

The winter season is approaching and with that comes a change in the temperature and weather conditions. As the days become shorter and the weather becomes cooler, please dress your child with the appropriate clothing to keep them warm and dry. Remember to provide extra clothing to store in your child's locker (pants, sweater, etc.) As the weather permits, children will continue to go outdoors on a daily basis. Please submit a current copy of any medical, dental or immunizations records that have been up-dated. If you have any questions, feel free to stop by and talk with your Family Engagement Specialist.
