LEADING THE WAY TO RECOVERY

YOUR PARTNER IN PROVIDING A GUIDED PATH TO RECOVERY

When it comes to accessing a higher level of care for patients struggling with an eating disorder or other mental health illness, you and your patient don't have to navigate it alone. Eating Recovery Center and Insight Behavioral Health Centers are your partners in providing your patient with comprehensive, integrative treatment across the continuum of care.

If you have a patient in need of a higher level of care, call **1-877-825-8584** or visit **EatingRecovery.com** for a free confidential assessment by a masters-level clinician.

Education, Dissemination & the Science of Eating Disorders

ICED2019

MARCH 14-16
NEW YORK, NY

PRESIDENT'S WELCOME

*Welcome to the 2019 International Conference on Eating Disorders (ICED), and welcome to New York City! This year's theme is **"Start Spreading the News: Education, Dissemination, & the Science of Eating Disorders."***

There will always be more to learn, but we already know quite a bit—and what

we know can help people. How do we get to work getting this information in the hands of those who are best positioned to make the greatest impact? This is what the theme of the conference means to me, and I will be looking for all the answers to this question I can find during our time together in New York.

Many people worked tirelessly to put together this thought-provoking, informative, diverse, and cutting-edge program that begins with the keynote address by **Dr. Thomas Joiner**, who will discuss his theory of suicidal behavior. We also look forward to the four plenaries, covering treatment duration/intensity, sexual minority issues relevant to eating disorders, when compulsory treatment may be indicated, and devising neurobiologically based treatment targets. The individuals invited to speak at these plenaries come from all over, representing many places, people, and perspectives. Space does not allow listing all of the offerings, but between the clinical teaching and research training day sessions, all the workshops, oral paper presentations, poster presentations, SIG panel presentations, and the Research Practice Global Think Tank, this program is bursting at the seams with fascinating topics, discussions, and presentations. As is always the case at our annual meeting, we will have to make difficult decisions about what to attend, because there are so many wonderful options from which to choose. Don't forget that if you have to make a choice, most of the program content will be available for you to buy online and you can bring back some of the great ideas via the recordings to share with your team at home.

For this year's meeting, enormous thanks go to the Scientific Program Committee, co-chaired by **Ross Crosby** and **Kelsie Forbush** (and the Director of Annual Meetings, **Jennifer Thomas**). Thanks also go to the Research-Practice Committee, co-chaired by **Allison Kelly** and **Kelly Bhatnagar**, and the Educational Programming Committee, co-chaired by **Beth Brandenburg** and **Caitlin Martin-Wagar** (and the Director of Research Practice Integration, **Kristin von Ranson**). Finally, we owe thanks to the Awards and Scientific Review Committee, co-chaired by **Robyn Sysko** and **TJ Raney**, and the Fellows Committee, chaired by **Susan Paxton** (and the Director of Standards of Excellence, **Jennifer Lundgren**). Importantly, the AED relies heavily on a small paid staff whose expertise on meeting and non-profit organization management is critical to our functioning. Thank you to our staff, which includes our Executive Director, **Elissa Myers**, our Deputy Executive Director, **Dawn Gannon**, our meetings team of **Margaret Jamborski**, **Yvette Duron**, and **Casey Rodgers**, our Marketing/Communications Manager, **Courtney Eiland** and our administrative staff, **Lorna Valle** and **Ronald Phan**.

Of course, the AED is more than its annual meeting. We are "a global professional association committed to leadership in eating disorders research, education, treatment, and prevention." If you attend this meeting, and you're not a member of the AED, I urge you to consider joining. I encourage you to find me at this meeting to ask me why you should join—I will exhaust you with a list of reasons that I feel confident will convince you of the value of being a member of this group. Better yet, engage with members of our Member Recruitment and Retention Committee (MRRC) who are vastly more adept at conveying the benefits of joining the AED than me. They have helped put together enticing introductory member offers that are only available while you're at this meeting.

While I'm mentioning other committees, did you know that the AED has 22 committees/task forces? They each deserve mention: (1) Advocacy & Communications Committee, (2) Nominations Committee, (3) Awards and Scientific Review Committee, (4) Partnership, Chapter, & Affiliate Committee, (5) Research Practice Committee, (6) Educational Programming Committee, (7) Electronic Media Committee, (8) Social Media Committee, (9) Ethics Committee, (10) Expert by Experience Committee, (11) Special Interest Groups Oversight Committee, (12) Fellows Committee, (13) Finance Committee, (14) Forum Committee, (15) Medical Care Standard Committee, (16) Member Retention/Recruitment Committee, (17) 2019 Annual Conference Program Committee, (18) 2020 Annual Conference Program Committee, (19) Task Force for the Development of Psychological Care Guidelines, and the (20) Task Force of Leaders of Nonprofit & University-Based Intensive Eating Disorder Treatment. In addition, we're currently forming the (21) Development Committee and the (22) Diversity, Equity, and Inclusion Committee. In total, there are over 200 committee/task force member positions (and growing, with the addition of two new committees). The business of the AED is conducted by these 200+ unpaid member volunteers, a very small paid staff, and the 12-member Board of Directors, who are also unpaid member volunteers. Without our members volunteering to carry on the work of the AED, we could not accomplish all that we do. **THANK YOU, and "thank you" doesn't begin to cover the level of gratitude owed to you.**

While you're here in New York, soaking in the intellectual riches of this meeting, please become a member of the AED, and if you're already a member, please talk to those who are committee/task force/board members to identify your place in the organization. Then, look out for the next call for volunteers and raise your hand! Or, if you'd like to get started right away, it's not too late to volunteer for a committee right here at the meeting—speak to the staff at the registration desk!

Finally, I'm personally thrilled that we will celebrate the start of **Bryn Austin's** presidency on Saturday night at the closing social event. Everyone is welcome, and I hope you attend. Bryn is worldly, kind, humble, courageous, committed, and it's simply a delight to be in her company. The AED could not be in better hands. **Thank you, Bryn, for taking on this responsibility.**

I am grateful for having been entrusted to lead the AED over this past year and even more grateful for all of the volunteers and staff who've done all the heavy lifting. I'm especially thankful for members of the Board of Directors, **Stephanie Bauer, Bryn Austin, Ursula Bailer, Guido Frank, Rachel Bachman-Melman, Jennifer Thomas, Marisol Perez, Annemarie van Elburg, Chevese Turner, Kristin von Ranson**, and **Jennifer Lundgren**, and Executive Director **Elissa Myers** and Deputy Executive Director **Dawn Gannon**, all of whom are reliable colleagues and honest friends. If you see them, please thank them.

Education, Dissemination & the Science of Eating Disorders

ICED2019

MARCH 14-16
NEW YORK, NY

PRESIDENT ELECT'S WELCOME

Greetings, AED® Family and Friends!

Welcome to the International Conference on Eating Disorders (ICED) 2019 and to the Big Apple! New York City is the largest city in the United States and also one of the most diverse anywhere in the world, with over 800 languages spoken

among the 8.5 million city residents. Here at ICED, we are pleased to provide Spanish translation of the keynote, plenary sessions, and a few of the other presentations. We invite you to take the opportunity to use the service if you prefer to hear the presentations in Spanish or would like to hone your Spanish language skills if you are out of practice.

This ICED also marks the advent of our new Diversity, Equity, and Inclusion Advisory Committee to the Board. This committee is made up of dedicated AED volunteers with valuable experience in helping organizations like our own not only reflect the diversity of the communities we serve but also become more vibrant, innovative, relevant, and ultimately more effective in achieving our mission by embracing and integrating what it means to be a truly diverse, equitable, and inclusive professional society.

The lineup for ICED 2019 is as spectacular as ever, and we are so appreciative of the hard work of the Conference Scientific Program Planning Committee, ably led by Co-Chairs **Kelsie Forbush** and **Ross Crosby** and their talented committee of volunteers. Now if you will allow me, I have two challenges I'd like to propose to you, dear conference goer, as you plan out your next few days with us at ICED:

- 1) Keep an eye out for something completely different from the kinds of talks, workshops, or SIG panels you usually attend. That's the beauty of having an annual conference:

It's a place we can come together to learn from and be inspired by a diverse selection of research approaches, clinical practices, theoretical ideas, and

more, all with some important relevance or implications for how we do our work in eating disorders. Working and learning across differences—whether in terms of discipline, profession, perspectives, or life experience—can often spark our most generative “aha” moments.

- 2) Reach out to someone new, someone you don't know already, and someone from another country and continent far from your own. At ICED this year, we have nearly 50 countries and every continent represented among our delegates (*well, except Antarctica...*). Introduce yourself, share a little about each other and your work, and exchange emails. A hallmark of our conference is the priceless opportunity to network with other eating disorders professionals from around the world. Whether you are new to the field or you have many years of networking under your belt, take this opportunity with ICED 2019 to build your global network that much more. *Nothing would make us happier!*

With ICED 2019 now officially underway, I am humbled to be following in the footsteps of the many gifted and wise leaders before me—most recently the razor-sharp but equally compassionate and kind **Kyle DeYoung**—all of whom demonstrated their dedication to the Academy and our mission day in and day out in everything they did as President. You have my heartfelt commitment to serve to the best of my abilities all of you who make up the talented, vital, and growing membership of our great organization.

With much gratitude,

S. Bryn Austin, ScD, FAED
President-Elect

STATE OF NEW YORK
EXECUTIVE CHAMBER

ALBANY 12224

ANDREW M. CUOMO
GOVERNOR

March 14 – 16, 2019

Dear Friends:

It is a pleasure to send greetings to everyone gathered for "Start Spreading the News: Education, Dissemination, and the Science of Eating Disorders," the 2019 International Conference on Eating Disorders, hosted by the AED. Welcome to the great City of New York!

Since 1993, the Academy for Eating Disorders, as a global professional association, has been committed to research, prevention, and treatment of eating disorders. This conference brings together professionals from all sectors of eating disorder research and education for the purpose of promoting prevention and proven treatment practices.

I am confident that ICED2019 will be an excellent opportunity to integrate your collective expertise and to share innovative ideas and information about the latest trends, best practices, and collaborative solutions needed to advance progress in the field of eating disorders. On behalf of all New Yorkers, I commend everyone who comes together for this important conference, demonstrating a steadfast commitment to keeping informed of recent developments in eating disorder research that will ultimately lead to the survival, health, and wellness of those exhibiting an eating disorder or related symptoms.

With warmest regards and best wishes for a productive and enjoyable meeting.

Sincerely,

A handwritten signature in blue ink, reading "Andrew M. Cuomo".

THE CITY OF NEW YORK
OFFICE OF THE MAYOR
NEW YORK, NY 10007

March 14, 2019

Dear Friends:

It is a pleasure to join the Academy for Eating Disorders in welcoming everyone to New York City for the 2019 International Conference on Eating Disorders.

Far too many New Yorkers struggle with mental health conditions, and through ThriveNYC, spearheaded by First Lady Chirlane McCray, my administration has made it a priority to change the way we think about mental health, improve the way we deliver services, and shatter the stigma that is all too often associated with these conditions. In these efforts, we are grateful for the leadership of organizations like the Academy of Eating Disorders and the powerful example they have set in furthering such work. AED's research, education, treatment, and prevention initiatives advance a global mission to better serve those who suffer from eating disorders and increase public understanding of these illnesses worldwide. The International Conference on Eating Disorders provides a wonderful forum through which medical and health professionals, researchers, students, and those with lived experience can gather to review the latest science around eating disorders, and we are delighted to host so many leaders and future leaders of this field in our city this weekend.

On behalf of all New Yorkers, please accept my best wishes for an informative conference and a memorable stay for all those visiting our city.

Sincerely,

A handwritten signature in black ink, appearing to read "Bill de Blasio".

Bill de Blasio
Mayor

ABOUT AED®

The Academy for Eating Disorders (AED)®

The AED® is the largest multi-disciplinary professional society in the eating disorders field. Founded on September 11, 1993, the AED® has grown to include almost 1,700 members worldwide who are working to prevent and treat eating disorders such as anorexia nervosa, bulimia nervosa and binge eating disorder.

AED®'s membership is comprised of professionals and students working and studying in universities, hospitals, research centers and treatment facilities, and others committed to furthering empirical insight into diagnosing and treating eating disorders. Approximately 29% of AED® members reside outside of the USA, representing 61 different countries.

The AED® provides cutting-edge professional training and education; advances new developments in eating disorders research, prevention and clinical treatments; and advocates for the rights of people with eating disorders and their caregivers; and provides the field at large with a variety of services, resources and educational programs, including the invaluable support of a community of dedicated colleagues.

Since the organization was founded in 1993, the International Conference on Eating Disorders (ICED) has been AED®'s flagship activity and the highlight of the AED® year. The ICED is the primary gathering place for professionals and advocates engaged in research, treatment and prevention of eating disorders.

Specific Goals of the Academy for Eating Disorders

- Generate knowledge and integrate collective expertise about eating disorders
- Provide platforms to promote understanding, sharing of knowledge, and research practice integration
- Building capacity in the next generation of eating disorder professionals
- Foster innovation and best practice by recognizing excellence in the field of eating disorders
- Ensure that eating disorders are addressed on a unified global basis by building relationships around the world
- Increase awareness among policy regulators and funders of the importance of eating disorders research and treatment
- Build the capacity and sustainability of AED

AWARD, FELLOWSHIP, GRANT & SCHOLARSHIP HONOREES

AED® thanks members and friends who have made contributions to the Scholarship and General Funds.

The Scholarship Fund provides funding to sponsor the research and clinician scholarships for the 2019 International Conference on Eating Disorders.

The General Fund provides essential support to AED® educational, research, clinical and outreach programs.

Thank you to all who have so graciously contributed. Special thanks to the participants in the **United States Combined Federal Campaign Program**.

AED® Early Career Investigator Travel Scholarship

Thanks to the generosity of AED® members, AED® is able to offer the AED® Early Career Investigator Travel Scholarships. Eligible recipients are AED® members who currently are in training or are less than three years out of training. Additionally, eligibility requires evidence of academic excellence. These awards support attendance at the AED® International Conference on Eating Disorders.

The AED® Student/Early Career Investigator Travel Scholarship

The 2019 Recipients are:

Meghan Bryne, MS
Bethan Dalton, MSc
Valerie Douglas, MA
Jessica McClelland, PhD
Stephanie Manasse, PhD
Alvin Tran, ScD, MPH
Ya-Ke Wu, PhD, RN

AED® Clinician Scholarship

AED® is pleased to provide scholarships to support conference attendance to AED® members who are clinical scholars from around the world.

The 2019 Recipients are:

Joelle Bazaz, PsyD
Mireille Coelho de Almeida, MD
Felicia Chang, MA
Ashlea Hambleton, MPsych (Clin), MAPS
Yael Lewis, MD

AWARD, FELLOWSHIP, GRANT & SCHOLARSHIP HONOREES (continued)

AED® Student Research Grant

This award is to support innovative and cutting-edge research conducted by student members of AED®.

The 2019 Recipients are:

Brittany Bohrer, MA
Lauren Forrest, MA

AED® Scholarship for Low and Middle Income Countries

Thanks to the generosity of AED® members, AED® is able to offer the AED® Scholarship for Low and Middle Income Countries. These awards support attendance at the AED® International Conference on Eating Disorders.

The 2019 Recipients are:

Mariana Gutierrez Carvajal, Diplomate Medical Nutriology
Gloria Maria Dada Sanchez, PhD
Babatunde Fadipe, MD, MSc, FWACP
Maria Sol Menga, Licentiate Degree in Psychology (dissertation pending)
Gabriela Rodriguez Rey, Licentiate Degree in Psychology

AED® Patient Carer Travel Scholarships

Thanks to the generosity of AED® members, AED® is able to offer AED® Scholarships in the Patient Carer community. These awards support attendance at the AED® International Conference on Eating Disorders.

The 2019 Recipients are:

Violeta Bozinovski, BB
Blair Burnette, MS
Lian Folger, BA
Lisa Epstein, RN
Judy Krasna, BA

Erin Riederer Memorial Scholarship Award

The Erin Riederer Foundation is a legacy foundation dedicated to improving eating disorder treatment in Wisconsin and across the globe. We support the development of professional interest in eating disorders through ICED scholarship to medical students and PhD candidates at the Medical College of Wisconsin, University of Wisconsin, Madison Medical Schools as well as University of Wisconsin, Milwaukee. In addition our mission supports credential advancement through IAEDP. Since inception we are proud to have presented ten scholarships to worthy candidates.

The 2019 Recipients are:

Alexandra Cohn, MSt
Elizabeth Jilek, MD

Alex DeVinney Memorial Scholarship Award

The Alex DeVinney Memorial Award is presented through a generous donation in loving memory by the DeVinney family for the top two abstracts submitted for ICED 2018, which investigate the overlap between eating disorders and obsessive-compulsive disorder and/or compulsive exercise. Only abstracts in which the first author is an early career investigator (i.e., not more than 5 years post terminal degree) are eligible.

The 2019 Recipients are:

Jennifer Barney, MS
Kristie Herb, BS

International Journal of Eating Disorders Awards for Outstanding Scientific Contribution and Best Paper

Each year, two prizes are awarded by the *International Journal of Eating Disorders* for the previous year: the Outstanding Scientific Contribution Award and the Award for Best Paper by an Early Career Scholar.

The *IJED* editorial board members nominate candidates and the winners are then selected by the journal's Editor-in-Chief and Associate Editors. Winners are honored with a certificate and prize at the next International Conference on Eating Disorders (ICED), the annual meeting of the Academy for Eating Disorders® (AED®). This year's awardees are being recognized for their contributions in 2018.

The Awardees are:

The *IJED* Outstanding Scientific Contribution in 2018 Award

Allison Kelly

Paper entitled:

"A Feasibility Study of a 2-Week Self-Compassionate Letter-Writing Intervention for Nontreatment Seeking Individuals with Typical and Atypical Anorexia Nervosa"
[*IJED* 2018, Vol. 51, pp. 741-744;
DOI/10.1002/eat.22930]

The *IJED* Award for Best Paper by an Early Career Scholar

The 2018 Recipient is:

Mun Yee Kwan

Paper entitled:

"Warning Labels on Fashion Images: Short- and Longer-Term Effects on Body Dissatisfaction, Eating Disorder Symptoms, and Eating Behavior"
[*IJED* 2018, Vol. 51, pp 1153-1161;
DOI/10.1002/eat.22951]

FELLOWS CLASS OF 2019

Congratulations to the AED® Fellows Class of 2019!

These members will be inducted as Fellows during the **Annual Business Meeting & Awards Ceremony on Saturday, March 16th beginning at 08:00.**

0730 – 0830

AED Mentor/Mentee Breakfast

The AED is actively facilitating mentoring relationships for members as part of its Membership Recruitment and Retention Initiative. At ICED, interested AED® trainee and early professional members will be paired with seasoned AED® members at the Mentor/Mentee Breakfast on Thursday, March 14 from 07:30 – 09:00. The aim of this event is to provide an opportunity for members to receive short-term (and potentially lasting) mentorship from experienced AED® members/leaders. Mentors may also benefit from interaction with up-and-coming professionals by networking and facilitating optimal training and retention of promising professionals who will be the future of the AED®. Prospective mentees and mentors will be paired based on interests (for example, research, clinical, advocacy, genetics and epidemiology). *Sign up to become a mentor or mentee during the ICED registration process.*

MENTEE ELIGIBILITY:

- » All AED® members who are trainees, early career professionals and new AED members (less than five years out).

MENTOR ELIGIBILITY:

- » All past Presidents of the AED
- » Fellows
- » Board Members (past and present)
- » Committee Chairs, SIG Chairs and Committee Members
- » Seasoned professionals with an advanced degree and five or more years of experience in the eating disorders field
- » All disciplines welcomed!

continued ▶

GENERAL CONFERENCE INFORMATION & SPECIAL EVENTS

0800 – 0900

Finance Committee Meeting

Park 1, Fifth Floor

900 – 1045

Welcome & Keynote Address

Metropolitan Ballroom, Second Floor

AED® President **Kyle De Young** and ICED 2019 Scientific Program Chairs **Ross Crosby** and **Kelsie Forbush** will welcome all delegates to New York City and the conference.

1045 – 1115

Tweet Up, Tweet Out

Sugar Hill, Lower Level

Curious about using Twitter for eating disorder awareness? Come to ICED's annual "TweetUp"! At the Tweet Up, chat with and learn from some of AED®'s most active Twitter users and social media volunteers as they tweet in real time. Volunteers will help you create your own account and send your first tweet. Meet the faces, and the thumbs, behind AED®'s online advocates!

1300 – 1400

Global Member Welcome

New York West, Third Floor

One of the very special aspects of AED is its international character. AED represents members from more than 40 countries. We are strong thanks to the liaison with 33 National Partner Organizations and 3 multi-national chapters – the Hispanic Latin American Chapter, the European Chapter, and our newest – the Middle Eastern Eating Disorder Association. The Global Welcome is an opportunity to celebrate our internationality and to chat with friends and colleagues from around the world. All are welcome to hear and learn from each other on building and strengthening local, national, and multi-national initiatives to bring experts together.

THURSDAY, MARCH 14 & SATURDAY, MARCH 16

Special Interest Group (SIG) Annual Meetings

All attendees are invited to attend any of the SIG Annual Meetings scheduled during lunch on Thursday and Saturday during the meeting. Lunch is NOT provided, however this year the Committee has extended the lunch period to two hours to allow time for attendees to purchase lunch at one of the many restaurants just outside the hotel. Information on specific SIG meeting dates, times and locations are available in the Final Program, Schedule at-a-Glance, through the mobile app, and on signs throughout the Conference spaces.

THURSDAY, MARCH 14

1300 – 1400

ICED 2020 Scientific Committee Meeting

Liberty 2, Third Floor

1300 – 1400

REDC/UNNP Joint Planning Meeting (Invitation Only)

Park 1, Fifth Floor

- » Access to all educational sessions
- » Access to all exhibits
- » Entry to poster sessions
- » Welcome Reception on Thursday, March 14
- » Closing Social Event on Saturday, March 16

Spouse/Guest Registration

This rate is applicable only to attendees outside of the eating disorders field and includes:

- » Admission to the keynote address
- » Exhibit Hall
- » Poster Sessions
- » Welcome Reception
- » Closing Social Event

DETAILED PROGRAM INFORMATION

The most current conference information can be found at:

www.aedweb.org/index.php/conference/iced-2019/Final_Program

ICED Registration Desk

The registration desk, located on the Lower Level, will be open during the following days and hours:

- » Tuesday, March 12 | 0800 – 1700
- » Wednesday, March 13 | 0800 – 1700
- » Thursday, March 14 | 0700 – 1700
- » Friday, March 15 | 0700 – 1700
- » Saturday, March 16 | 0700 – 1200

Continuing Education Desk

The CE/CME desk, located near the registration desk, will be open during registration hours (see above).

Speaker Ready/Upload Room

Carnegie West, Third Floor

The Speaker Ready Room will be available daily as follows:

- » Wednesday, March 13 | 0700 – 1700
- » Thursday, March 14 | 0700 – 1700
- » Friday, March 15 | 0700 – 1700
- » Saturday, March 16 | 0700 – 1700

REGISTRATION INFORMATION

Participation in the ICED 2019 is limited to registered delegates. Your full registration includes:

Admission to ALL sessions (Thursday, March 14 through Saturday, March 16), **excluding** Clinical Teaching Day and Research Training Day (*an additional fee is required for these workshops*).

Delegate Lounges & Social Media Studio

Catch up with your colleagues, make new friends who share your interests, or interact directly with the Social Media Committee in the following lounges, open 0700 - 1700

Thursday - Saturday

- › **Fellows Lounge** Madison 1 Fifth floor
- › **First Timers Lounge** Madison 2, Fifth floor
- › **Social Media Studio** Carnegie East Third floor
- › **University Lounge** Madison 3, Fifth floor
- › **Volunteer Lounge** Liberty 5 Third floor

Nursing Mother's Room

A private nursing mother's room is available throughout the conference. Directions and entry can be obtained at the Registration Desk on the Lower Level

Exhibits

Vendor exhibits will be located in the Empire, Lenox and Central Park rooms on the second floor. Exhibit hours are:

- › Thursday, March 14 | 10:45 – 20:00
- › Friday, March 15 | 10:45 – 5:45
- › Saturday, March 16 | 9:45 – 2:30

Light snacks and beverages will be available in the exhibit hall during the refreshment breaks each day. A directory of exhibitors is included in this program on pages 120.

Poster Sessions

Posters will be presented by authors during the conference and will be available for viewing on Thursday and Saturday. The poster presentations are located in the Empire, Lenox and Central Park rooms on the Second Floor next to the exhibits.

Poster Session Schedule

Poster Session I:

Thursday, March 14 | 0800 – 0900 | **Set-Up**

Thursday, March 14 | 0900 – 1845 | **Viewing**
(presenters need not be present)

Thursday, March 14 | 1845 – 2015 | **Presentations**
(attendance is required)

Thursday, March 14 | 2015 – 2045 | **Dismantle**
(all posters must be removed)

Poster Session II:

Friday, March 15 | 1600 – 1830 | **Set-Up**

Saturday, March 16 | 0800 – 0945 | **Viewing**
(presenters need not be present)

Saturday, March 16 | 0945 – 1100 | **Presentations**
(attendance is required)

Saturday, March 16 | 1100 – 1115 | **Dismantle**
(all posters must be removed)

Presenters are responsible for dismantling posters.

Posters left behind at the close of the dismantling period will be disposed of and are not the responsibility of AED® or the hotel.

Meeting Evaluation

The ICED Scientific Program Committee needs your input to enhance future AED® meetings. **AED® greatly appreciates your input.**

During ICED:

You may submit your evaluations using the event MOBILE APP.

After ICED:

You will receive an online meeting evaluation via email shortly after the conference.

Special Needs

Notify AED® staff members of any special needs by visiting the AED® registration desk on the fifth floor.

If you have questions regarding the program or registration, visit the AED® registration desk on the Lower Level.

KEYNOTE ADDRESS

Thomas Joiner, PhD

PRESENTING:

Why People Die by Suicide

Thomas Joiner, PhD will present the ICED 2019 keynote address which will challenge conference attendees to consider why people with eating disorders die by suicide, and how to avoid “McMindfulness,” emphasizing how to use authentic, empirically supported practices to assess and treat suicidal ideation in people with eating disorders.

In his new theory of suicidal behaviour, Thomas Joiner, PhD proposes three factors that mark those most at risk for suicide: the feeling of being a burden on loved ones; the sense of isolation; and, perhaps chillingly, the learned ability to hurt oneself. He tests the theory against diverse facts taken from clinical anecdotes, history, literature, popular culture, anthropology, epidemiology, genetics, and neurobiology—facts about suicide rates among men and women; white and

African-American men; individuals with anorexia, athletes, sex workers, and physicians; members of cults, sports fans, and citizens of nations in crisis.

Learning Objectives:

- To review basic facts about the epidemiology and risk factors for death by suicide.
- To learn about a new theory of suicidal behavior.
- To learn about anecdotal, clinical, and scientific evidence that evaluates this new theory.
- To learn about approaches to suicide risk assessment
- To learn about developments in the treatment of suicidal behavior.
- To learn about developments in suicide prevention.
- To understand the experience of people who are bereaved by suicide.

About Thomas Joiner, PhD:

Thomas Joiner grew up in Georgia, went to college at Princeton, and received his PhD in Clinical Psychology from the University of Texas at Austin. He is The Robert O. Lawton Distinguished Professor in the Department of Psychology at Florida State University (FSU), Tallahassee, Florida. Dr. Joiner's work is on the psychology, neurobiology, and treatment of suicidal behavior and related conditions. Author of over 640 peer-reviewed publications, Dr. Joiner is the Editor-in-Chief of the journal *Suicide & Life-Threatening Behavior*, and was awarded the Guggenheim Fellowship and the Rockefeller Foundation's Bellagio Residency Fellowship. He received the Young Investigator Award from the National Alliance for Research on Schizophrenia and Depression, the Shakow Award for Early Career Achievement from the Division of Clinical Psychology of the American Psychological Association, the Shneidman Award for excellence in suicide research and the Dublin Award for career achievement in suicide research from the American Association of Suicidology, and the Award for Distinguished Scientific Early Career Contributions from the American Psychological Association, as well as research grants from the National Institute of Mental Health, Department of Defense (DoD), and various foundations. The Lawton Professorship and the Dublin Award are the single highest honors bestowed, respectively, by FSU and the American Association of Suicidology. In 2017, he was named a Fellow of the American Association for the Advancement of Science.

He was a consultant to NASA's Human Research Program, and is the Director, with Pete Gutierrez, PhD, of the DoD-funded Military Suicide Research Consortium, a \$30 million project. The effort was recently extended for a second five-year phase at a similar funding level.

Dr. Joiner has authored or edited eighteen books, including *Why People Die By Suicide*, published in 2005 by Harvard University Press, and *Myths About Suicide*, published in 2010, also with Harvard University Press. The book *Lonely at the Top* was published by Palgrave MacMillan in October, 2011, and the book *The Perversion of Virtue: Understanding Murder-Suicide* was published by Oxford University Press in 2014. The book *Mindlessness: The Corruption of Mindfulness in a Culture of Narcissism*, came out in 2017, also from Oxford. Largely in connection with *Why People Die by Suicide*, he has made numerous radio, print, and television appearances, including write-ups in *The Wall Street Journal* and *The Times of London*, a radio interview on NPR's Talk of the Nation, and two appearances on the Dr. Phil Show. He runs a part-time clinical and consulting practice specializing in suicidal behavior, including legal consultation on suits involving death by suicide. He lives in Tallahassee, Florida, with his wife and two sons, the elder of whom is an FSU senior and the younger of whom will be an FSU freshman.

Radically Open Dialectical Behavior Therapy

Este es un evento con boleto que requiere una cuota de inscripción adicional.

Este año tendremos el honor de contar con la presencia de Julianna Gordor y Ellen Astrachan-Fletcher (Ver bios abajo) quienes impartirán un taller introductorio de Radically Open Dialectical Behavior Therapy.

Ellen Astrachan-Fletcher, PhD, CEDS-S

Regional Managing Director

Eating Recovery Center, IL

Insight Behavioral Health Centers

Julianna Gordor, PhD

University of California, San Diego, CA

Eating Disorders Center

Descripción del Taller:

Teniendo en cuenta que el rango de éxito terapéutico en los tratamientos de trastornos alimentarios continúa siendo relativamente bajo, nos incumbe considerar factores que son probablemente influyentes en la recuperación de nuestros pacientes y en su calidad de vida.

Sabemos que muchos individuos con trastornos de la conducta alimentaria luchan con todo lo relacionado a la conexión social, posiblemente como consecuencia de la inhibición de la expresión de las emociones y a rangos más altos de ansiedad y perfeccionismo que pueden predisponer a los individuos a la enfermedad. Radically Open

Dialectical Behavior Therapy (RO-DBT) es un tratamiento basado en la raíz de las neurociencias de la expresión emocional y la conexión social que ha mostrado respuestas prometedoras en el tratamiento de la Anorexia Nervosa, en la Depresión refractaria y en el tratamiento de los Trastornos de Ansiedad resistentes. A través de un paradigma más abarcativo, RO-DBT tiene como objetivo el sobre-control emocional que puede alimentar el desarrollo y el mantenimiento de los síntomas de TCA. En un formato didáctico e interactivo esta presentación proveerá una introducción a la utilidad del RO-DBT para facilitar la conexión social, mientras se focalizan en señales maladaptativas. Tendremos una discusión de cómo utilizar lo que llamamos la neurociencia del temperamento Obsesivo Compulsivo para aumentar el compromiso de los pacientes sobrecontroladores.

Biografías:

Ellen Astrachan-Fletcher, PhD, CEDS-S, tiene una gran y amplia experiencia en el tratamiento de adultos, adolescentes con trastornos del estado de ánimo, ansiedad y trastornos de la conducta alimentaria. Es profesora en la Facultad de Medicina Feinberg del Departamento de Psiquiatría y Ciencias del Comportamiento de la Universidad Northwestern y profesora asociada de Psicología Clínica en el Departamento de Psiquiatría de la Universidad de Illinois en Chicago. Ella tiene más de 25 años de experiencia clínica y docente en el campo de los trastornos de la conducta alimentaria y problemas de salud mental de las mujeres y ha enseñado y supervisado a residentes y fellows de psiquiatría, así como a externos y pasantes de Psicología Clínica durante más de dos décadas. Fue nombrada Maestra del Año por el Programa de pasantías y fellows de psicología clínica en la Facultad de medicina Feinberg de la Northwestern University en 2013. La Dra. Astrachan-Fletcher es un clínico senior de RO DBT, entrenada directamente por Tom Lynch y una experta reconocida a nivel nacional en el campo de DBT, FBT (tratamiento basado en la familia), y es un presentador frecuente en las conferencias nacionales sobre trastornos de la conducta alimentaria. La Dra. Astrachan-Fletcher ha sido fundamental en las colaboraciones de investigación con Daniel Le Grange, Tom Lynch y otros. Ella ha ayudado a hacer tratamientos empíricos e innovadores traducibles para el sector privado. Ella es coautora del libro de trabajo de Habilidades de Terapia Dialéctica Conductual para la Bulimia: uso de DBT para Romper el Ciclo y Recuperar el Control de tu Vida (2009), que se usa en los centros de tratamiento de trastornos de la conducta alimentaria en todo el país.

Julianna Gordor, PhD, La Dra. Julianna Gordor es fellow post-doctoral en el Centro de Trastornos de la Conducta Alimentaria de UCSD. La Dra. Gordor completó su entrenamiento intensivo de dos semanas en RO DBT con el desarrollador del tratamiento, Tom Lynch, y tiene experiencia en la administración de RO DBT para trastornos alimentarios dentro de los tratamientos residenciales y a través de los diferentes niveles de atención ambulatoria. También se ha desempeñado como Consejero en la Junta de Estudiantes de RO DBT desde 2017. La Dra. Gordor obtuvo su Psy.D. de la Escuela de Psicología Profesional de Chicago y tiene una amplia experiencia en el tratamiento de trastornos de la conducta alimentaria en todos los niveles de atención. Antes de ingresar a UCSD, recibió capacitación especializada en el tratamiento de trastornos de la conducta alimentaria en el Centro de Tratamiento para Trastornos de la Conducta Alimentaria Eating Recovery Center

de Chicago y en el Programa de Trastornos Alimentarios de la Universidad de Chicago. La Dra. Gorder también tiene experiencia en el trabajo con poblaciones generales y forenses de niños, adolescentes y adultos jóvenes dentro de un hospital de salud mental para pacientes internados. Sus intereses de investigación incluyen definir la recuperación de un trastorno alimentario, así como el impacto del estilo de regulación emocional y de biotemperamento en las presentaciones de los trastornos de la conducta alimentaria.

Radically Open Dialectical Behavior Therapy

This is a ticketed event which requires an additional registration fee.

This year we will be honored with the presence of Julianna Gorder and Ellen Astrachan-Fletcher (Bios attached) who will deliver an introductory workshop of Radically Open Dialectical Behavior Therapy.

Regional Managing Director

Eating Recovery Center, IL

Insight Behavioral Health Centers

Julianna Gorder, PhD

University of California, San Diego, CA

Eating Disorders Center

Workshop Description:

With overall treatment success rates for eating disorders remaining relatively low, it behooves us to closely consider factors that are likely to influence our patients' recovery and quality of life. We know that many individuals with eating disorders struggle with social connectedness, related possibly to the inhibited emotional expression and higher rates of anxiety and perfectionism that can predispose individuals to these illnesses. Radically Open Dialectical Behavior Therapy (RO-DBT) is a treatment approach rooted in neuroscience of emotional expression and social connectedness that has shown strong promise for the treatment of anorexia nervosa, refractory depression and treatment resistant anxiety. Through a comprehensive paradigm, RO DBT targets emotional over-control, and resulting lack of social connection, that can fuel the development and maintenance of eating disorder symptoms. In a didactic and an interactive format, this presentation will provide an introduction to the RO-DBT model and how it helps to facilitate greater social connectedness while targeting maladaptive social signaling and increasing openness and flexibility. There will be a discussion on how to use what we learn about the neuroscience of OC and bio temperament to enhance client engagement with the overcontrolled patient.

Speaker Bios:

Ellen Astrachan-Fletcher, PhD, CEDS-S, has a wealth and breadth of experience treating adults and adolescents with mood, anxiety and eating disorders. She is Lecturer at Northwestern University's Feinberg School of Medicine, Department of Psychiatry and Behavioral Sciences and Associate Professor of Clinical Psychology in the Department of Psychiatry at the University of Illinois at Chicago. She has over 25 years of clinical and teaching

experience in the field of eating disorders and women's mental health issues and has taught and supervised Psychiatry residents and fellows as well as Clinical Psychology interns and externs for over two decades. She was named Teacher of the Year by the Clinical Psychology Internship and Fellowship Program at the Northwestern University Feinberg School of Medicine in 2013. Dr. Astrachan-Fletcher is a senior RO DBT clinician, training directly under Tom Lynch and she is a nationally recognized expert in the field of DBT, FBT (Family-Based Treatment), and is a frequent presenter at national eating disorders conferences. Dr. Astrachan-Fletcher has been instrumental in research collaborations with Daniel Le Grange, Tom Lynch and others. She has helped to make empirically based and innovative treatments translatable for the private sector. She co-authored The Dialectical Behavior Therapy Skills Workbook for Bulimia: Using DBT to Break the Cycle and Regain Control of Your Life (2009), which is used at eating disorders treatment facilities throughout the country.

Dr. Julianna Gorder is a postdoctoral fellow at UCSD Eating Disorders Center. Dr. Gorder completed her two-week intensive training in RO DBT with treatment developer, Tom Lynch, and has experience administering RO DBT for eating disorders within residential through outpatient levels of care. She has also served as an officer on the RO DBT Student Board since 2017. Dr. Gorder earned her Psy.D. from The Chicago School of Professional Psychology and has extensive experience treating eating disorders at all levels of care. Prior to coming to UCSD, she received specialized training in the treatment of eating disorders at Eating Recovery Center of Chicago and the Eating Disorders Program at University of Chicago. Dr. Gorder also has experience working with general and forensic populations of children, adolescents, and young adults within an inpatient behavioral health hospital. Her research interests include defining recovery from an eating disorder, as well as the impact of biotemperament and emotion regulation style on eating disorder presentations.

PLENARY I | LEARNING**THURSDAY, MARCH 14 | 1115 – 1300***Metropolitan Ballroom, Second Floor***Treatment Quicker and Better: What is the Evidence for Short-Term Treatments in Eating Disorders?***Co-Chairs:***Karina Allen**, PhD, MPsyChSouth London and Maudsley NHS Foundation Trust
London, UK**Judy Krasna**, BA

Bet Shemesh, Jerusalem District, Israel

There is a growing body of research to show that short-term treatments may achieve similar therapeutic outcomes to longer term interventions (e.g., Ost & Ollendick, 2017; Waller et al., 2018). This reflects, in part, a non-linear dose-response relationship between treatment duration and treatment outcomes, with benefits dropping off rapidly after an initial optimum 'dose'. In addition, early symptom change is one of the most potent predictors of longer-term outcomes in cognitive behavioral therapy and family-based therapy, and if early reductions in symptoms do not occur, additional treatment may offer relatively little benefit (Le Grange et al., 2014; Rose & Waller, 2017; Turner et al., 2015). This plenary seeks to examine evidence around the optimum dose-response relationship in the treatment of psychological disorders generally and eating disorders more specifically. In addition, it aims to describe and evaluate some of the available short-term interventions for eating disorders.

Learning Objectives:

- ▶ To explore the relationship between treatment duration and treatment outcomes in eating disorders.
- ▶ To explore the evidence base for short-term interventions for eating disorders.

Balancing Input with Output: How Treatment Duration Relates to Symptom Improvement**Michael Barkham**, BEd, MA, MSc, PhD

University of Sheffield, Sheffield, UK

This presentation introduces and summarises various models and key issues in relation to treatment duration and symptom improvement within the broader field of research in the psychological therapies. Evidence on the relationship between treatment duration and outcome is drawn from randomised controlled trials and large practice-based (i.e., naturalistic) studies, including the UK government's Improving Access to Psychological Therapies (IAPT) initiative. The clinical merits and challenges of shorter treatment durations are considered along with a number of caveats in relation to carrying out research in this area.

Doing Less to Achieve More: The Case of CBT-T for Eating Disorders**Glenn Waller**, BA, MCLinPsychol, DPhil

University of Sheffield, Sheffield, UK

While we routinely assume that 'more therapy = better outcomes' in working with eating disorders, the evidence for that assumption is poor. Indeed, offering more treatment can have negative outcomes for all concerned. This presentation will explain the development of a brief, ten-session therapy for non-underweight eating disorders (CBT-T) and will present evidence that doing less can indeed be better than doing more. Therapy can be cheaper, faster, and easier to access, without losing any effectiveness, and with very positive acceptability to the patients who undertake it. However, while patients are positive about shorter therapies, clinicians are often more resistant, and we need to understand why that is the case. Otherwise, we will continue to waste time when we could be helping more people to recover and reducing waiting times substantially.

Brief Single and Multi-Family Interventions for Child, Adolescent and Young Adult Anorexia Nervosa: When, Why and in What Context

Ivan Eisler, OBE, PhD, FAED
Kings College, London, UK

Most treatment research in eating disorders tends to focus on trying to identify the best evidence-based treatments i.e. it centres on questions such as is treatment A better than treatment B or is one variant of treatment A better than another variant of treatment A. This presentation will take a broader look, that will include factors (individual, family as well as the service context) that may need to be included when considering using brief family treatments and the different aims that such brief treatments might have. For instance, recent major investment by the National Health Service in England to establish a network of specialist community-based services for young people with an eating disorder has resulted in a growing number of very early referrals at a point in time when the family is concerned but as yet has not been much affected by the emerging eating disorder and where a very brief intervention of 2-4 sessions may be all that is needed. A very different type of brief family intervention is a 5-day intensive multi-family therapy for young adults that we are currently developing at

UCSD. The aim of this intensive intervention is primarily to address motivation to change and the ambivalence of the young person about accepting help and support from their families. For some, the brief intervention may itself lead to significant symptom change but for others the key aim is to target possible individual or family "roadblocks" and thereby facilitate other, longer individual or family treatments. The talk, while drawing on existing (though very limited) empirical evidence, will be more clinically oriented and will aim to raise new questions rather than provide answers.

Discussant:

Tracey Wade, BSc, MCLinPsych, PhD
Flinders University of South Australia, Adelaide, SA, Australia

The goal of this presentation is to summarize and synthesize key points from other presentations. The discussant will express their viewpoints on the optimal 'dose' of eating disorder treatment and short-term interventions in the field, drawing on the previous presentations, their own work, and the general literature on these issues. The Discussant will talk about her opinion regarding the optimal dose of treatment, based on a synthesis of information presented by speakers.

EATING DISORDER TREATMENT THAT RESTORES HOPE HEALTH LAUGHTER CREATIVITY CURIOSITY PEACE LIFE

We offer a safe, structured environment and a treatment approach based on research and years of experience. We combine on-site medical and psychiatric care with intensive therapy and nutritional care to help patients learn to put recovery into practice, including:

- Normalizing exercise, fitness, and movement
- Collaboration with outpatient professionals and Family-Based Treatment providers
- Hands-on coaching for patients and families

PLENARY 2 | SOCIOCULTURAL**FRIDAY, MARCH 15 | 0900 – 1045***Metropolitan East Ballroom, Second Floor***Let's Get Things Straight, I'm Not: Eating Disorders in the LGBTQ+ Community***Co-Chairs:***Kelly Bhatnagar**, PhD

Center for Evidence-Based Treatment, Moreland Hills, OH, USA

Erin C. Accurso, PhD

University of California San Francisco, San Francisco, CA, USA

Despite greater awareness that eating disorders affect a diverse group of individuals and research suggesting that certain LGBTQ+ subgroups are disproportionately vulnerable to body dissatisfaction and eating disorder psychopathology, relatively little research has focused on eating disorders in LGBTQ+ individuals. The links between sexuality, gender identity, body image, and eating disorders are still under investigation, but stressors specific to LGBTQ+ individuals may increase risk for developing an eating disorder. Further, this group may experience additional barriers to seeking treatment. This plenary strives to explore the unique factors in understanding disordered eating behaviours, body image, and eating disorders in LGBTQ+ individuals and discuss best practice clinical guidelines.

Learning Objectives:

- ▶ Describe the context of social stigma for individuals who identify as LGBTQ+.
- ▶ Summarize emerging research about associations between sexuality, gender identity, body image, and eating disorders.
- ▶ Identify barriers to seeking care and best practice clinical guidelines.

Stigma and LGBT Health Inequalities**Mark Hatzenbuehler**, PhD

Columbia University, New York, NY, USA

Epidemiologic studies have consistently documented that LGBT populations are at heightened risk for a range of adverse health outcomes relative to cisgender heterosexuals, including eating and weight disorders. Having documented this increased risk, researchers have turned their attention to understanding causes of these disparities. Stressors related to stigma are one of the most frequently studied mechanisms contributing to LGBT health disparities. In this talk, I will review illustrative evidence documenting the health consequences of stigma for LGBT populations, with a particular focus on structural forms of stigma, which are defined as societal-level conditions, cultural norms, and institutional policies and practices. I will end the talk with a brief discussion of the implications of this research for the eating disorders field, and for the development of preventive interventions aimed at reducing the negative health sequelae of stigma for LGBT populations.

Learning Objectives:

- ▶ Briefly review the evidence for LGBT health disparities.
- ▶ Discuss stigma as a mechanism contributing to LGBT health disparities.
- ▶ Summarize and evaluate research about the health consequences of stigma for LGBTQ+ populations, with a particular focus on structural forms of stigma.
- ▶ Discuss implications of this research for the eating disorders field and for preventive interventions with LGBTQ+ populations.

Understanding the Relationship Between Sexual Orientation and Eating Disorder Psychopathology in Youth

Jerel P. Calzo, PhD, MPH

San Diego State University, San Diego, CA, USA

A tendency in research and clinical practice is to treat sexual and gender minority populations as a monolithic group (e.g., grouped as LGBTQ+); rather, sexual and gender minority populations are diverse. Although early epidemiologic research indicated overall greater risk for disordered eating among sexual and gender minorities relative to heterosexual and cisgender populations, emerging research indicates greater complexity with regards to the direction and magnitude of health inequities in eating disorder risk (e.g., across age, across and within gender subgroups, by race/ethnicity). These emerging insights introduce new lines of inquiry regarding the development of sexual orientation disparities in eating disorder risk. This presentation will discuss body image and disordered eating in the context of sexual orientation identity development in adolescence and young adulthood. Using gender-based analysis as a framework, the talk will explore cross-sectional and longitudinal data that explicate how age and developmental factors, race/ethnicity, minority stress, and socialization processes shape eating disorder risk among heterosexual and sexual minority adolescents and young adults of diverse gender groups. Gaps in research, and their implications for prevention and clinical practice will also be explored.

Learning Objectives:

- ▶ Recognize differences and similarities in gender minority identity development and sexual minority identity development.
- ▶ Utilize examples from various research designs and gender-based analysis to understand how gender and sexual orientation identity development processes are connected to adolescent and young adult body image and eating disorder risk.
- ▶ Summarize relevant gaps in research and practice in addressing eating disorder psychopathology among youth of diverse sexual orientations.

Body Image and Trans People

Jon Arcelus, MD, PhD

University of Nottingham, Institute of Mental Health, Jubilee Campus, Nottingham, UK

As transgender people have become more visible in our society, the number of people who identify as transgender and gender diverse attending health services has increased dramatically over the last few years. In view of this, health professionals need to have a good understanding of the needs of this population, including knowledge of the correct terminology when addressing transgender people. There has been a rapid development and change in the use of language in transgender healthcare. Recent research has started to identify some of the difficulties with regards to mental health and body image that some of transgender people experience. The role of gender affirming medical interventions, such as hormone treatment and surgery to improve body image and mental health difficulties has also started to emerge. This presentation will firstly describe the current terminology to be used when working with the transgender population. It will follow with a description of the body image difficulties that this population present with and the risk of developing eating disorders. The role of gender affirming medical treatment in reducing body dissatisfaction will also be discussed. The presentation will use research and clinical experience to discuss why this population may be at an increased risk of developing eating disorders.

Learning Objectives:

- ▶ To describe current terminology in transgender health.
- ▶ To discuss, using clinical and research evidence, body image difficulties of transgender people attending transgender health services.
- ▶ To present the most recent evidence describing eating disorders psychopathology among the transgender population.
- ▶ To discuss the role of gender affirming medical interventions regarding the body satisfaction of transgender people.

Discussant:

Rachel Levine, MD

Commonwealth of Pennsylvania and the Pennsylvania College of Medicine, Middletown, PA, USA

The goal of this presentation is to summarize and synthesize key points from other presentations. The discussant will express viewpoints on future directions for research on eating disorders in the LGBTQ+ community and how the treatment community can ensure the unique needs of this population are being met.

PLENARY 3 COMPULSORY TREATMENT

FRIDAY, MARCH 15 | 1645 – 1830

Metropolitan East Ballroom, Second Floor

When Has the Time Come for Compulsory Treatment? Issues, Challenges, and Implications

Co-Chairs:

Susan M. Byrne, PhD, DPhil

University of Western Australia, Crawley Perth, WA, Australia

Jason M. Lavender, PhD

University of California San Diego, San Diego, CA, USA

Compulsory treatment of psychiatric disorders is always a controversial issue, and this is particularly the case with eating disorders. There are many sides to the argument that patients with eating disorders, because of impaired judgement and cognitive functioning affecting their capacity to meet basic nutritional needs, should be treated involuntarily. While in many cases involuntary intervention is clearly life-saving, in other cases it is argued that it destroys therapeutic relationships and there is often reluctance among clinicians to initiate compulsory treatment for patients with eating disorders. This plenary will present a range of perspectives that inform decisions about and arguments for and against compulsory treatment in the eating disorders field. It will focus on the criteria for assessing decisional capacity, ethical considerations, patient perspectives on compulsory treatment, and alternative approaches for patients with severe and enduring eating disorders.

Learning Objectives:

- ▶ Describe ethical considerations related to assessing decisional capacity and compulsory psychiatric treatment, including for eating disorders.
- ▶ Provide insights into the lived experience of a patient with a history of compulsory treatment for an eating disorder.
- ▶ Summarize alternative care approaches and related issues for patients with severe and enduring eating disorders.

Anorexia Nervosa, Limits of Capacity, and Futility

Scott Kim, MD, PhD

National Institutes of Health, Bethesda, MD, USA

In working with patients who have severe, chronic anorexia nervosa with poor prognosis, the question of futility of treatment as well as of the patient's mental capacity to direct her own treatment (or refusal of treatment) can arise. This talk will discuss how to analyze the complicated interaction between these questions by first providing a brief precis of mental capacity in psychiatric disorders and then applying it to situations of chronic, severe anorexia nervosa.

What's the Right Call? Ethical Considerations in Compulsory Treatment of Eating Disorders

Jacinta Tan, MBBS, MA, MRCPsych, MSc, DPhil

College of Medicine, Swansea University, Swansea, Wales, UK

The goal of this presentation is to discuss ethical considerations related to decisional capacity, coercion, and compulsory treatment for eating disorders.

Perspectives on Compulsory Treatment from a Lived Experience

Shannon Calvert

Connolly, WA, Australia

Eating Disorders can result in life threatening medical and psychiatric complications, and treatment may be required to prevent further deterioration and/or to save a life. There are times when someone with an eating disorder is not able to make decisions and take appropriate actions to keep them alive, and in these cases involuntary treatment may be necessary. As someone with many experiences of compulsory treatment, most of which were traumatic, I still believe that there are occasions when compulsory treatment is warranted. It is vital that clinicians use empathy and compassion when treating someone against their will, with awareness of the potential for trauma and the possibility of re-traumatisation. In this way, the therapeutic trust can be maintained. I will identify some contributing factors that can either maintain or fracture the therapeutic relationship between clinician and patient post-intervention. If compulsory treatment is deemed necessary, so too is the equal importance of compassion and dignity towards the individual. I will be using my own life experiences to highlight the importance: of a) open communication; b) a full rationale for the use of compulsory treatment; and c) a fully explained and predictable course of treatment.

Learning Objectives:

- ▶ Cite the rationale for compulsory treatment.
- ▶ Reflect on the perspective of someone with lived experience.
- ▶ Evaluate the necessary components of successful compulsory treatment.

Alternative Approaches to Treatment in Severe and Enduring Eating Disorders

Allan Kaplan, MSc, MD, FRCP(C)

Center for Addiction and Mental Health, University of Toronto, Toronto, Canada

This presentation will focus on alternative approaches to the management of patients who struggle with severe and enduring eating disorders. Such individuals typically have been treated, usually on multiple occasions, in hospital symptom focused programs that have not led to long-term sustained recovery. The primary focus of such alternative approaches is the enhancement of quality of life as

opposed to symptom reduction and recovery. This presentation will include a description of such a program that we developed in Toronto that was modelled after Assertive Community Treatment (ACT) approaches for individuals with severe and enduring mental illness, usually psychotic disorders. Our Eating Disorder ACT Program provides personalized service and long-term intensive follow up in the daily living environment with a focus on psychosocial rehabilitation. The long-term goal is the attainment of medical stability and functional autonomy and independent living in the community. Case studies and outcome data of individuals treated in this program will be presented.

Learning Objectives:

- ▶ Alternative approaches to the care of individuals who have severe and enduring eating disorders.
- ▶ Factors to consider in deciding to adopt such approaches for these patients.
- ▶ Factors to consider in evaluating the success of such approaches.

Hitting the Bullseye: Can Experimental Therapeutics Target Treatment More Effectively

Co-Chairs:

Marci Gluck, PhD, FAED

National Institutes of Health Phoenix Clinical Research Center, Phoenix, AZ, USA

Sarah Racine, PhD

McGill University, Montreal, QC, Canada

It is well known that not all treatments are effective for all patients, and there has been increased attention to the identification of treatment mechanisms to enable better matching of patients to available treatments. The experimental therapeutics approach, widely accepted for drug development, is beginning to be applied to clinical trials focused on psychosocial variables. Such interventions are to be based on psychopathology research that identifies neuroscientific treatment targets associated with the development, maintenance, severity, and/or course of disorders. These treatments can be designed to “hit” the target to make therapies more precise. Intervention strategies that map onto these targets are designed to determine if manipulation of identified targets leads to clinical improvement. Such information is consistent with the goal of learning more about mental illnesses from a neuroscience perspective and providing critical information on effective dose and duration of treatment, both of which are necessary for developing evidence-based treatment models.

Learning Objectives:

- ▶ Describe the experimental therapeutics approach to treatment development.
- ▶ Summarize basic neuroscience research on deficits in cognitive flexibility and central coherence among patients with anorexia nervosa and to discuss how these findings have been used to develop of Cognitive Remediation Therapy.
- ▶ Describe recent findings of both increased reward and decreased inhibition processes in the etiology and maintenance of binge eating and discuss how new treatments that target these processes are being developed, consistent with the experimental therapeutics approach.

Bottom Up and Top Down Psychobehavioral Experimental Therapeutic Strategies to Improve Emotion Regulation by Targeting its Underlying Circuitry

Hilary Blumberg, MD

Yale School of Medicine, Yale University, New Haven, CT, USA

Emotion dysregulation is a hallmark of mood disorders, such as bipolar disorder (BD), but can also be a symptom that leads to suffering and psychosocial and other functional impairment, as well as increased risk for suicide, across eating and other disorders. In this talk, a brain circuitry model of emotion regulation will be reviewed. Evidence from multiple magnetic resonance imaging (MRI) modalities (techniques to study gray and white matter and regional brain function and connectivity) supporting involvement of this circuitry in disorders in which emotion dysregulation is prominent (with BD as a model of severe dysregulation) and in risk for suicide will be presented. The focus of the presentation will then be on an experimental therapeutics approach using an intervention (BE-SMART, brain emotion regulation circuitry targeted self-monitoring and regulation therapy) to target this circuitry using top down and bottom up psychological and behavioral strategies, including preliminary neuroimaging evidence to support a psychobehavioral approach can “hit the bullseye” of emotion regulation circuitry.

Learning Objectives:

- ▶ Describe the brain circuitry underlying emotion regulation
- ▶ Summarize neuroimaging research on differences in emotion regulation circuitry in mood and related disorders.
- ▶ Describe recent neuroimaging findings of changes in emotion regulation circuitry when using psychobehavioral bottom up and top down strategies being developed, consistent with the experimental therapeutics approach.

Cognitive Remediation Therapy for Anorexia Nervosa: Lessons from a Translational Program of Research

Kate Tchanturia, PhD, FAED

Kings College, London, UK

The effective treatment of anorexia nervosa (AN) remains a significant challenge. This has prompted new research into ways of engaging and keeping patients in treatment and ultimately achieving better outcomes, not only on a symptomatic level but also in broader aspects of life. Cognitive styles has been implicated in the maintenance of AN, contributing to individuals' difficulties in processing and in engaging with psychological therapy. The role of CRT in the treatment of anorexia nervosa is an idea worth researching, given its clear hypothesised links between brain function, psychological function and treatment. Findings demonstrate a relatively consistent picture – CRT is associated with cognitive improvements in AN. It is also associated with low drop-out rates and high levels of acceptability among both patients and therapists.

Learning Objectives:

- ▶ Identify difficulties with cognitive functioning which are commonly experienced by patients with eating disorders in intensive clinical care.
- ▶ Demonstrate how research findings can be translated into clinical practice through the use of experiential exercises.
- ▶ Discuss current evidence for Cognitive Remediation Therapy for eating disorders.

Targeting Reward and Inhibition in the Treatment of Binge Eating

Kerri Boutelle, PhD

University of California San Diego, San Diego, CA, USA

Food is an unavoidable, motivationally salient cue. Today, individuals who are vulnerable to binge eating and overeating are faced with an environment which encourages excess energy intake. The influence of the current environment, coupled with the inherent trait to binge eat/overeat when exposed to food cues, has led to binge eating in vulnerable individuals. Binge eating and overeating can be conceptualized as a balance between the drive resulting from the rewarding aspects of food and an individual's ability to inhibit those urges. Neuroscience data suggests that individuals with binge eating and those who overeat have increased responsivity to food cues. We have developed a treatment program targeting reward and inhibition, called Regulation of Cues (ROC), which shows promise in overweight and obese adults with binge eating and in children. ROC specifically targets two mechanisms; decreasing external food cue responsivity (reward) and improving appetite sensitivity (inhibition). Our data with children and adults suggests that the ROC program is promising for decreasing binge eating, overeating, and weight. This presentation will review the research supporting the role of these two mechanisms in binge eating, as well as our efforts to address these mechanisms through ROC and other interventions. By targeting underlying mechanisms, we may be able to improve treatments for binge eating and overeating.

Learning Objectives:

- ▶ Participants will learn the role of reward and inhibition in binge eating and overeating.
- ▶ Participants will learn the theoretical basis for the Regulation of Cues (ROC) intervention.
- ▶ Participants will learn about the efficacy data for ROC in children and adults.

Discussant:

Anita Jansen, PhD

University of Maastricht, Maastricht, Netherlands

The goal of this presentation is to summarize and synthesize key points from other presentations. The discussant will express their viewpoints on the current focus on neuroscience and on the experimental therapeutics approach to treatment development. The discussant will present ideas for translating basic neuroscience research into treatment developments based on the presentations, their own work, and the literature in this area.

SESSION 1 WORKSHOPS & SIG PANELS

THURSDAY, MARCH 14 | 1500 – 1630

W1.1:

Treating Avoidant Restrictive Food Intake Disorder (ARFID) in the Inpatient Setting Using a Multi-Disciplinary Approach

Developing a Specialized Outpatient Unit for Patients with Severe and Enduring Anorexia Nervosa—Experiences and Statistics from the First 14 Months of Operation

Monica Igars, MPSych, PhD
Jaana Suokas, MD, PhD
 HUS Helsinki University Hospital, Helsinki, Finland

T-191:

Inpatient Treatment of Severe and Enduring Anorexia Nervosa

Monica Igars, MPSych, PhD
Jaana Suokas, MD, PhD
 HUS Helsinki University Central Hospital, Helsinki, Finland

T-192:

History of Childhood Abuse Moderates the Outcome of Patients with Eating Disorders: A Three Years Follow-up Study

Giovanni Castellini, Assistant Professor, PhD, FAED, MD
Valdo Ricca, Associate Professor, MD
 University of Florence, Florence, Italy

T-193:

Changes in Cortisol Levels before and after Cognitive Behavioral Therapy in a Group of Patients with Eating Disorders Reporting a History of Childhood Abuse

Giovanni Castellini, PhD, MD, Assistant Professor, FAED
Lorenzo Lelli, PhD
Valdo Ricca, Associate Professor
 University of Florence, Florence, Italy
Alessio Maria Monteleone, PhD, MD
 University of Vanvitelli Naples, Naples, Italy

T-194:

Body Image Concern and Treatment Outcome in Adolescents with Anorexia Nervosa: A Longitudinal Study

Simona Calugi, PhD, Villa Garda Hospital, Garda, Verona, Italy
Maddalena Conti, PsyD
Marwan El Ghoch, MD
Riccardo Dalle Grave, MD, FAED
 Villa Garda Hospital, Garda, Verona, Italy

T-195:

Outpatient Enhanced Cognitive Behavior Therapy for Severe and Extreme Anorexia Nervosa

Riccardo Dalle Grave, MD, FAED
Massimiliano Sartirana, PsyD
Marwan El Ghoch, MD
Simona Calugi, PhD
 Villa Garda Hospital, Garda, Verona, Italy

T-196:

The Role of Antidepressant Medication in Response to High-Frequency Repetitive Transcranial Magnetic Stimulation in People with Severe, Enduring Anorexia Nervosa

Bethan Dalton, MSc
Jessica McClelland, PhD
Savani Bartholdy, PhD
Maria Kekic, PhD
Iain C. Campbell, DSc
Ulrike Schmidt, MD, PhD, FRCPsych, FAED
 King's College London, UK

T-197:

Cerebral Blood Flow Acquired by Arterial Spin Labelling in Severe and Enduring Anorexia Nervosa

Bethan Dalton, MSc
Erica Maloney, MSc
Samantha J Rennalls, PhD
Savani Bartholdy, PhD
Maria Kekic, PhD
Jessica McClelland, PhD
Iain C Campbell, DSc
Ulrike Schmidt, MD, PhD, FRCPsych, FAED
Owen O'Daly, PhD
 King's College London, UK

T-198:

Does Impulsivity Predict Clinical Outcome in Eating Disorder patients?

Patrizia Todisco, MD, Psychotherapist, Specialist
Alice Garolla, Psychologist, Psychotherapist
 Eating Disorders Unit-Villa Margherita, Arcugnano, Italy
Paris Vogazianos, PhD
Athos Antoniadis, PhD
Federica Tozzi, MD, Psychiatrist
 Stremble Ventures LTD, Germasogeia, Limassol, Cyprus

T-199:

Relation between Vitamin D and Impulsivity in Eating Disorder Patients

Patrizia Todisco, MD, Psychotherapist, Specialist
Alice Garolla, Psychologist, Psychotherapist
 Eating Disorders Unit-Villa Margherita, Arcugnano, Italy
Athos Antoniadis, PhD
Paris Vogazianos, PhD
Federica Tozzi, MD, Psychiatrist
 Stremble Ventures LTD, Germasogeia, Limassol, Cyprus

POSTER SESSION 2

SATURDAY, MARCH 16 | 0945 – 1100

Empire, Lenox & Central Park, Second Level

S-1:

Predicting Weight Stigma: Associations with Thin Ideal Internalization and Beliefs about Weight Neutrality and Weight Control

Kelechi Uzoegwu, Student
Christina Verzijl, BA, PhD Student
Marina Kleinschmidt, Student
Emily Choquette, MA, PhD Student
Diana Rancourt, PhD
 University of South Florida, Tampa, FL, USA
Rachel Rodgers, PhD
 Northeastern University, Boston, MA, USA

S-2:

The Relationship between Desired Weight, Eating-Disorder Psychopathology and Weight Loss in Post-Bariatric Surgery Patients with Loss-Of-Control Eating

Ashley Wiedemann, PhD
Valentina Ivezaj, PhD
Jessica Lawson, PhD
Jaime Coffino, MPH, MA
Carlos Grilo, PhD
 Yale School of Medicine, New Haven, CT, USA

S-3:

Economic burden of Binge Eating Disorder: A Systematic Literature Review

Aditi Kadakia, MS
Daisy Ng-Mak, PhD
Krithika Rajagopalan, PhD
 Sunovion Pharmaceuticals, Marlborough, MA, USA
Vinay Pandey, MS
 Parexel International, Chandigarh, India

S-4:

Getting a Head Start: Identifying Factors Associated with Early Rapid Weight Loss for Individuals Participating in Weight Loss Treatment

Sydney Baumgardt, BA
Ashley Wiedemann, PhD
Valentina Ivezaj, PhD
Janet Lydecker, PhD
Carlos Grilo, PhD
Rachel Barnes, PhD
 Yale School of Medicine, New Haven, CT, USA

S-5:

Does Bariatric Binge Eating Size Matter: Preliminary Findings from a Post-Operative Treatment-Seeking Group with Loss-of-Control Eating

Valentina Ivezaj, PhD
Janet Lydecker, PhD
Andrew Duffy, MD
Carlos Grilo, PhD
 Yale School of Medicine, New Haven, CT, USA

S-6:

The Relationship between Food Addiction, Eating-Disorder Psychopathology, and Weight among Latino/as Seeking Bariatric Surgery

Valentina Ivezaj, PhD
Jessica Lawson, PhD
Carlos Grilo, PhD
 Yale School of Medicine, New Haven, CT, USA
Maansi Jayade, Student
Elissa Davila-Shiau, Student
Justine Lee, Student
Manish Parikh, MD
 New York University, New York City, NY, USA

S-7:

Overvaluation of Shape and Weight among Bariatric Surgery-Seeking Adults with Obesity

Leah Hecht, MS
Alissa Haedt-Matt, PhD
Natalie Schwartz, MS
 Illinois Institute of Technology, Chicago, IL, USA
Andrea Goldschmidt, PhD
 Brown Alpert Medical School, Providence, RI, USA

S-8:

Emotion Regulation and Symptoms of Eating Disorders in a Sample of Bariatric Surgery Patients

Annie Shearer, BA
Wynne Lundblad, MD
Hannah Krohner, LCSW
Casie Probst, MEd
Alexis Fertig, MD
 University of Pittsburgh Medical Center, Pittsburgh, PA, USA

S-9:

Eating Disorder Symptom Severity and Correlates in High-Weight Bulimia Nervosa

Joanna Chen, BS
 Laura Berner, PhD
 Tiffany Brown, PhD
 Christina Wierenga, PhD
 Walter Kaye, MD, FAED
 University of California, San Diego, San Diego, CA, USA

S-10:

Weight Regain after Bariatric Surgery: Which Psychopathology is Involved?

Maria Francisca Mauro, MD
 Marcelo Papelbaum, MS, DSc, MD
 João Hiluy, MD
 Marco Antonio Brasil, MS, DSc, MD
 Jos Carlos Appolinario, DSc, MD
 Universidade Federal do Rio de Janeiro, Rio de Janeiro, Brazil

S-11:

Investigating Potential Healthcare Disparities in Emergency Medical Care

Suzanne Dooley-Hash, MD, FAED
 The Center for Eating Disorders, The University of Michigan, Ann Arbor, MI, USA
 Anna Zaleski, BS
 The University of Michigan, Ann Arbor, MI, USA

S-12:

Binge Eating among Men: Testing the Restraint and Emotion Regulation Models

Katrin Kukk, MA
 Kirsti Akkermann, PhD
 Hedvig Sultson, MA
 Martin Kimmel, BA
 University of Tartu, Tartu, Tartumaa, Estonia

S-13:

How Mothers Remember Eating Interactions as a Child is Linked to their Current Weight Status and their Own Eating-Related Parenting Behaviors

Chloe Patel, BS(Hons) MSc
 Eleni Karasouli, BSc (Hons), MSc, PhD
 Meyer Caroline, BSc (Hons), PhD
 University of Warwick, Coventry, West Midlands, UK

S-15:

A Mixed Method to Treating Binge Eating Disorder; Review of a Pilot Study in Combining Inpatient Care with Stepped-Down Day Program Therapy

Urvashnee Singh, MbChB, UKZN Dip, MPM, RANZCP
 Nicola Cummings, Grad Dip Diet, PhD, APD, Principal Dietitian
 Hollywood Hospital, Perth, Australia
 Jacqueline Stump, MS, PhD Candidate
 University of Western Australia, Hollywood Hospital, Perth, Australia

S-16:

Weight Loss Trajectories and Psycho-Behavioral Predictors of Outcome of Primary and Reoperative Bariatric Surgery: A Two-Years Longitudinal Study

Ana Pinto-Bastos, MSc
 Marta de Lourdes, MSc
 Isabel Brandão, PhD
 Paulo P.P. Machado, PhD
 Eva Conceição, PhD
 University of Minho, Braga, Portugal

S-17:

Binge Focused Therapy for BED: A Protocol for a Novel, Guided Self-Help Intervention Delivered by Non-Specialists

Laura Dixon, BSc
 Sarrah Ali, BSc
 Aaron Keshen, MD, FRCPC
 Thomas Helson, BSc
 Joel Town, PhD
 Nova Scotia Health Authority, Halifax, Nova Scotia, Canada

S-18:

Excess Skin, Body Image Shame and Disordered Eating Behavior after Bariatric Surgery

Eva Conceição, PhD
 Ana Lu sa Sequeira, MSc
 Ana Pinto-Bastos, PhD
 Marta de Lourdes, MSc
 Ana Rita Vaz, PhD
 University of Minho, Braga, Portugal Portugal
 Isabel Brand o, MD, PhD
 São João Hospital Center, Porto, Portugal

S-19:

Examining Internalized Weight Bias in Post-Surgical Bariatric Patients with Loss-of-Control Eating

Abigail LeCates, Student
Amherst College, Amherst, MA, USA
Jessica Lawson, PhD
Valentina Ivezaj, PhD
Janet Lydecker, PhD
Carlos Grilo, PhD
Yale School of Medicine, New Haven, CT, USA

S-20:

Parent and Child Impairment by Disordered Eating Behaviors and Weight

Jiwoo Park, Student
Amherst College, Amherst, MA, USA
Janet Lydecker, PhD
Carlos Grilo, PhD
Yale School of Medicine, New Haven, CT, USA

S-21:

Thymus Activity in Female Adolescent Inpatients with Anorexia Nervosa

Yael Lewis, MD
Shalvata Mental Health Center, Hod HaSharon, Israel
Abraham Weizman, MD
Geha Mental Health Center, Petach-Tikva, Israel
Itay Tokatly Latzer, MD
Shimrit Ziv, MD
Raz Somech, MD, PhD
Daniel Stein, MD
Edmond and Lily Safra Children's Hospital,
The Chaim Sheba Medical Center, Ramat-Gan, Israel

S-22:

Obsessive Compulsive Symptoms in Acutely-Ill and Symptomatically-Stabilized Female Adolescent Inpatients with Restrictive vs. Binge-Purge Eating Disorders

Yael Lewis, MD
Shalvata Mental Health Center, Hod HaSharon, Israel
Tal Gilon-Mann, MA
Adi Enoch-Levi, MD
Gal Dubnov-Raz, MD
Doron Gothelf, MD
Daniel Stein, MD
Edmond and Lily Safra Children's Hospital, The Chaim Sheba Medical Center, Ramat-Gan, Israel
Abraham Weizman, MD
Geha Mental Health Center, Petach-Tikva, Israel

S-23:

Type 2 Diabetes and Cognitive Impairment in an Elderly Sample with Obesity and Metabolic Syndrome: A Cross-Sectional Analysis of the PREDIMED-Plus Study

Fernando Fernández-Aranda, PhD, FAED
Núria Mallorquí-Bagué, PhD
María Lozano-Madrid, MS
Bellvitge University Hospital, Hospitalet de Llobregat, Barcelona, Spain
Dolores Corella, PhD
Jodi Salas-Salvadó, PhD
Aida Cuenca-Royo, PhD
Ramon Estruch, PhD
Francisco J. Tinahones, PhD
Xavier Pint, PhD
Emilio Ros, PhD
Roser Granero, PhD
Mónica Bulló, PhD
Montserrat Fitó, PhD
Susana Jiménez-Murcia, PhD
Miguel A. Martínez-González, PhD
Rafael De la Torre, PhD
CIBEROBN, Instituto de Salud Carlos III, Madrid, Spain

S-24:

Prospective Six Months Follow up Study of Salivary DHEA-S Levels and Treatment Response Among Adolescents with Eating Disorders

Ruth Giesser, MD
Amit Shalev, MD
Tanya Goltser Dubner, PhD
Ayelet Meltzer, MD
Ranin Masarwa, MD
Dalya Pevzner, BSc
Laura Canetti, PhD
Esti Galili Weisstub, MD
Ronen Segman, MD
Hadassah - Hebrew University Medical Center, Jerusalem, Israel

S-25:

The Shared Genetic Risk for Body Mass Index and Weight Loss Behaviors

Jason Nagata, MD, MSc
Kirsten Bibbins-Domingo, PhD, MD, MAS
Andrea Garber, PhD, RD
Stuart Murray, PhD
University of California, San Francisco, San Francisco, CA, USA
Benjamin Domingue, PhD
Stanford University, Palo Alto, CA, USA
Scott Griffiths, PhD, University of Melbourne, Melbourne, Victoria, Australia

S-26:

Dysfunction of Inflammatory Pathways in Female Patients with Eating Disorders

Marina Diaz Marsa, MD, PhD
Aida Navalon, Psychologist
Maria J Collado, PhD, Psychologist
Marta Soto, MD
Christian Prado, MD
Jose Luis Carrasco, MD, PHD,
 Full Professor and Chairman
 Hospital Clinico San Carlos, Madrid, Spain

S-27:

Eating Disorders and Suicidal/Self-Harm Behaviors in the Emergency Department

Mackenzie Adams, BS, MPH
Suzanne Dooley-Hash, MD, FAED
 University of Michigan, Ann Arbor, MI, USA

S-28:

Diagnostic Challenge: Bulimia Nervosa and Achalasia of the Esophagus

Claudia Pieper, PhD,
 CETTAO (Clinical for the Study and Treatment of Eating Disorders and Obesity) of Santa Casa da Misericórdia in Rio de Janeiro

Simone Freitas, MS, Professor, Psychologist
Fabia de Campos, Nutritionist
 Clinical Studies and Treatment of Eating Disorders and Obesity (CETTAO), Rio de Janeiro, Brazil

S-29:

Parental Comments, Body Image and Dieting among 8-year Old Girls

Rachel Rodgers, PhD, FAED
 Northeastern University, Boston, MA, USA
Stephanie Damiano, PhD
Eleanor Wertheim, PhD
Susan Paxton, PhD, FAED
 La Trobe University, Melbourne, Australia

S-30:

Body Image Disturbance in Brazilian Adolescents with Eating Disorders

Vanessa Pinzon, Physician, Psychiatrist
 Porto Alegre Clinical Hospital, University of São Paulo, São Paulo, Brazil
Juliana Vega, MS, Specialist, Nutritionist
Felipe Alckmin, MClInPsych, Specialist, Clinical Psychologist, PhD Student
Priscila Soares, Nutritionist
Aline Araújo, Specialist, Nutritionist
Alessandra Fabbri, MS, Nutritionist
Alicia Cobelo, MS, Psychologist
 University of São Paulo, São Paulo, Brazil

S-31:

Discrepancies in Current and Ideal Weight in Predicting Eating Disorder Symptoms in a Sample of Adult Runners

Kaitlin Wright, BA, Research Coordinator
 University of Minneapolis, Minneapolis, MN, USA
Lisa Anderson, PhD
 University at Albany, State University of New York, and
 University of Minneapolis, Minneapolis, MN, USA
Christina Scharmer, BA, PhD Candidate
Drew Anderson, PhD
 University at Albany, State University of New York,
 Albany, NY, USA
Erin Reilly, PhD
 University at Albany, State University of New York, and
 University of California-San Diego, San Diego, CA, USA

S-32:

Predictors of the Use of Ergogenic Substances in Men Practicing Muscle-Building

Georgina Alvarez-Rayón
Consuelo Escoto
Jaime Camacho-Ruiz
Juan Manuel Mancilla-Diaz
 Universidad Nacional Autonoma de México,
 Ciudad de México, México
Jamie García-Rodríguez
 Instituto Politécnico Nacional, Mexico City, México
Fanny Martinez-Quintero
 Universidad Tecnológica de México, Mexico City, México

S-33:

An Examination of the Influence of Online Dating Platforms on Body Image, Disordered Eating, and Related Outcomes

Helena Lewis-Smith, BSc, MSc, PhD
Kharis Smith, BSc, University of the West of England,
 Bristol, UK

S-34:

Is that a Real Body or a Reel Body? Investigating the Effects of a Video that Exposes Enhancement Techniques Used on Social Media

Jenna Campagna, MA
Rachel Berry, MA
Rachel Rodgers, PhD, FAED
 Northeastern University, Boston, MA, USA

S-35:

A Comparison of the Fat Talk Experience in Young and Middle-Aged Women

Alexandra Miller, BS

Anna Bardone-Cone, PhD, FAED, University of North Carolina at Chapel Hill, Chapel Hill, NC, USA

S-36:

Male Photographic Figure Scale (MPFS): Development and Validation of a New Body Image Test

Emilia Manzato, Psychiatrist

Eleonora Roncarati, Dietitian

Salus Private Hospital, Ferrara, Emilia Romagna, Italy

Gianna Di Loreto, Psychotherapist, Freelancer

Pisa, Tuscany, Italy

Carla Piccione, Dietitian

Camilla Casagrande, Dietitian

Giovanni Gravina, Endocrinologist

Eating Disorders Center, San Rossore Nursing Home, Pisa, Tuscany, Italy

S-37:

Warning vs. Rewarding: Evaluating the Effects of Labeling Images as Retouched or Retouch-Free on Body Image in Women

Francesca Giorgianni, BA Candidate

Elisa Danthinne, BS Candidate

Rachel F. Rodgers, PhD, FAED

Northeastern University, Boston, MA, USA

S-38:

Materialistic Much? Investigating the Relationship between Materialism and Poor Body Image in Women and Men

Raihaan Attawala, MS

Rachel F. Rodgers, PhD, FAED

Jenna Campagna, MA

Chloe Richard, MS

Christopher Kafka, MS

Northeastern University, Boston, MA, USA

S-39:

The Relation between Conceptualizations of Beauty and Weight Bias

Ashley MacPherson, MA

Alexandria Davies, MS

Suzanne Mazzeo, PhD

Virginia Commonwealth University, Richmond, VA, USA

S-40:

Development and Preliminary Validation of the Functional Body Questionnaire for Patients with Eating Disorders (FBQ-ED)

Santiago Pino, MA, Clinical Psychologist

Sergio Castro, MD, Psychiatrist

Juanita Gempeler, Clinical Psychologist, FAED

Maritza Rodriguez, MSc, MD, Psychiatrist

Equilibrio, Bogota, Colombia

S-41:

Body Dissatisfaction and Thin Ideal Internalization among Dieters, Concerned Eaters, and Unconcerned Eaters

Jamie Smith, MS

Jane Smith, PhD

University of New Mexico, Albuquerque, NM, USA

Elizabeth McLaughlin, PhD

Veterans Administration Connecticut Healthcare System, West Haven, CT, USA

S-42:

The Association Between Catch-Up Sleep and Children's Reported Eating in the Absence of Hunger

Sarah LeMay-Russell, BS

Marian Tanofsky-Kraff, PhD

Lisa M. Shank, MS, MPH

Meghan Byrne, MS

Natasha L. Burke, PhD

Natasha Schvey, PhD

Nichole R. Kelly, PhD

University of Oregon, Eugene, OR, USA

Manuela Jaramillo, BS

Sarah G. Rubin, BS

Elisabeth K. Davis, BS

Ifechukwu Ofonedu, Undergraduate Student

Miranda M. Broadney, MD, MPH

Sheila Brady, FNP

Jack A. Yanovski, MD, PhD

National Institute of Child Health and Human Development, Bethesda, MD, USA

Susan Z. Yanovski, MD

National Institute of Diabetes and Digestive and Kidney Diseases, Bethesda, MD, USA

S-43:

Coping Patterns in Relation to Emotional Eating Among Female and Male Adolescent Military Dependents at High Risk for Eating Disorders and Adult Obesity

William Leu, BA, 1st Lt, USAF
Natasha Burke, PhD, Uniformed Services University of the Health Sciences, Bethesda, MD, USA

Mary Katy Higgins Neyland, PhD
Mary Quattlebaum, BA
Abigail Pine, BA

Natasha Schvey, PhD
Sarah LeMay-Russel, BS
Alexandria Morettini, BA
Sarah Jorgenson, DO

Tracy Sbrocco, PhD
David Klein, MD, Maj, USAF
Jeffrey Quinlan, MD, CAPT, USPHS

Marian Tanofsky-Kraff, PhD
 Uniformed Services University of the Health Sciences, Bethesda, MD, USA

Denise Wilfley, PhD
 Washington University in St. Louis, St. Louis, MO, USA

Mark Stephens, MD
 Pennsylvania State University, State College, PA, USA

Jack Yanovski, MD, PhD
 National Institutes of Health, Bethesda, MD, USA

S-44:

Parent-Child Concordance in Child Eating-Disorder Pathology Eating Disorder Examination-Questionnaire and Parent Eating Disorder Examination-Questionnaire

Olivia Wons, BS, BA
Ani Keshishian, BA
Jennifer Thomas, PhD, FAED
Kamryn Eddy, PhD
 Massachusetts General Hospital, Boston, MA, USA

Katharine Loeb, PhD
 Fairleigh Dickinson University, Teaneck, NJ, USA

S-45:

Eating Disorder Symptom Severity and Psychological Distress: No Differences Exist among Adolescents with Atypical Anorexia Nervosa and Full Threshold Anorexia Nervosa

Abigail Matthews, PhD, MHA
Katrina Lenz, PsyD
Claire Peterson, PhD
Laurie Mitani, MD, FAAP
 Cincinnati Children's Hospital Medical Center, Cincinnati, OH, USA

S-47:

Eating Habits in Relation to BMI and Binge Eating in Mexican Teenagers

Rachel Balderrama-Diaz, MS
Rosalía Vazquez-Arevalo, PhD
Xochitl Lopez-Aguilar, PhD
Mariana Valdez-Aguilar, MS
Juan Manuel Mancilla-Diaz, PhD
 National Autonomous University of Mexico, Mexico City, Mexico

S-48:

The Prevalence of Eating Disorder Symptomatology Amongst Low-Income, Ethnic Minority Youth Presenting for Outpatient Services

Katelyn Zmigrodski, MA
Kathryn M. Huryk, MA
Michelle I. Lupkin, PhD
 Montefiore Medical Center, Bronx, NY, USA

S-49:

Cognitive Behavior Group Therapy for Adolescents with Eating Disorders: A Brazilian Pilot Study

Camila Lafeta Sesana, RD, PROTAD
Carlos Bonilla, Clinical Psychologist, CBT Specialist, PROTAD
Alicia Weisz Cobelo, MS, Psychologist, PROTAD
Vanessa Dentzien Pinzon, MS, Psychiatrist, PROTAD
 University of Sao Paulo School of Medicine, Sao Paulo, Brazil

S-50:

When the World seems Pro-Ana: Young People and Parents Perspectives on Social Media

Laura Baker, BSN
Catherine Stewart, PhD, DClinPsy
Natalie Pretorius, DClinPsy
 South London and Maudsley NHS Foundation Trust, London, UK
Beth McDermott, DClinPsy
 Northamptonshire Children and Young People Eating Disorders Service, Northampton, Northamptonshire, UK

S-51:

FT-AN in Everyday Clinical Practice: Who Does Well and When is More Needed?

Catherine Stewart, PhD, DClinPsy
Julian Baudinet, BA (Hons.), MSc, DCP
Darren Cutinha, MRC Psych
Ivan Eisler, PhD
Mima Simic, MD, MRC Psych
 South London and Maudsley NHS Foundation Trust, London, UK

S-52:

Caregiver and Adolescent Predictors of Weight Restoration in an FBT-Based Day Treatment Program for Anorexia Nervosa

Caitlin Martin-Wagar, MA
Samantha Holmes, MA
 The University of Akron, Akron, OH, USA
Kelly Bhatnagar, PhD, FAED
 Case Western Reserve University, Akron, OH, USA

S-53:

How Does Childhood Sexual Abuse History Relate to Psychological Functioning in Adults with Eating Disorders?

Caitlin Martin-Wagar, MA
Samantha Holmes, MA
 The University of Akron, Akron, OH, USA
Grace Boland, BA
 Sam Houston, Huntsville, TX, USA
Rita Hanna, BA
 Bellefaire JCB, Cleveland, OH, USA
Kelly Bhatnagar, PhD, FAED
 Case Western Reserve University, Cleveland, OH, USA

S-54:

A Qualitative Investigation of Low Energy Availability in Current and Former NCAA Division I Female Distance Runners of Reproductive Age

Traci Carson, BA, MPH, PhD Candidate
Carrie Karvonen-Gutierrez, BA, MPH, PhD
 University of Michigan School of Public Health, Ann Arbor, MI, USA

S-55:

Associations between Compensatory Eating Behaviors Related to Problematic Drinking and Traumatic Stress in a College Sample

Megan Michael, BS
 Drexel University, Philadelphia, PA, USA
Jonathan Stewart, BA
Tricia Witte, PhD
 University of Alabama, Tuscaloosa, AL, USA

S-56:

Shame Moderates the Relationship between Eating Disorder Cognitions and Depression

Irina Vanzhula, MS
Jessica Witten, BA
Cheri Levinson, PhD
 University of Louisville, Louisville, KY, USA

S-57:

Developing Treatment for Young People with Anorexia Nervosa and Obsessive Compulsive Disorder: A Case Series Exploring Effectiveness, and Contra Indications of Cognitive Behavioral Therapy for Young People (Under 18) in Treatment for Anorexia

Jonathan Espie, BSc (Hons), DClinPsy
Catherine Stewart, PhD, DClinPsy
Anna Konstantellou, PhD
 South London and Maudsley NHS Foundation Trust, London, UK

S-58:

Rates of Psychiatric Comorbidities in a sample of Low-Income, Ethnic Minority Youth with Eating Disorders

Lisa Kremen, MA
 Montefiore/Albert Einstein College of Medicine, Bronx, NY, USA
Michelle Lupkin, PhD
 Montefiore Medical Center, Bronx, NY, USA

S-59:

Social Anxiety, Fear of Negative Evaluation, and Fear of Positive Evaluation Predict Eating Disorder Symptoms in Patients with Eating Disorders Over 16 Weeks

Nicole M. Della Longa, MA
 University of North Dakota, Grand Forks, ND, USA
Alexandra Thiel, MA
Kyle De Young, PhD, FAED
 University of Wyoming, Laramie, WY, USA
Katie Kriegshauser, PhD
 Kansas City Center for Anxiety, Kansas City, MO, USA
Andrew Jarrett, MA
 Charleston Area Medical Center, Charleston, WV, USA
Jessica Luzier, PhD, ABPP
 West Virginia University School of Medicine, Charleston, WV, USA

S-60:

Fear of Negative Evaluation and Fear of Positive Evaluation Mediate the Relationship between Social Anxiety and Eating Disorder Symptoms in a Clinical Eating Disorder Sample

Alexandra M. Thiel, MA

University of Wyoming, Laramie, WY, USA

Nicole M. Della Longa, MA

University of North Dakota, Grand Forks, ND, USA

Katie Kriegshauser, PhD

Kansas City Center for Anxiety Treatment, Kansas City, MO, USA

Andrew Jarrett, MA

Charleston Area Medical Center, Charleston, WV, USA

Jessica Luzier, PhD, ABPP

West Virginia University, Charleston, WV, USA

S-61:

Compulsive Exercise in Eating Disorders: How Important is Our Drive for Thinness vs. Our Drive for Muscularity?

Marita Cooper, MPsy (Clinical), PhD Candidate, Psychologist

Kathleen Griffiths, BSci (Hons), PhD, Emeritus Professor
Australian National University, Acton, Australia

S-62:

Comparing Clinical Presentation of Eating Disorder Patients with and Without Trauma History and Comorbid PTSD

Adela Scharff, BS

SUNY Albany, Albany, NY, USA

Shelby Ortiz, BA

Miami University of Ohio, Oxford, OH, USA

S-63:

Obesity with and without Food Addiction Differ in Depressive Symptoms, Attention Bias to Food, and Hemispheric Brain Asymmetry

Roni Aviram-Friedman, PhD, M.A.R.D.

Zlotowski Center for Neuroscience, Ben Gurion University,
Beer Sheva, Israel

S-64:

Obsessive Compulsive Disorder Symptomology and Thought Action Fusion Presentation within Individuals Seeking Treatment at a Residential Eating Disorder Treatment Facility

Jennifer Barney, MS

Eric Lee, MA

Michael Twohig, PhD

Utah State University, Logan, UT, USA

Tera Lensegrav-Benson, PhD

Avalon Hills Residential Treatment Facility, Logan, UT, USA

Benita Quakenbush-Roberts, PhD

Founder/Owner/CEO, Avalon Hills Residential Treatment
Facility, Logan, UT, USA

S-65:

Obsessive Compulsive Disorder and Thought Action Fusion: Relationships with Eating Disorder Treatment Outcomes

Jennifer Barney, MS

Eric Lee, MA

Michael Twohig, PhD

Utah State University, Logan, UT, USA

Tera Lensegrav-Benson, PhD

Avalon Hills Residential Treatment Facility, Logan, UT, USA

PAPER SESSION 1

THURSDAY, MARCH 14 | 1645 – 1815

Bowery, Lower Level

Session Co-Chairs:

Anthea Fursland, PhD and **Sian McLean**, PhD

PS1.1.1:

Trajectories of Child Eating Behaviors are Associated with Disordered Eating and Eating Disorder Diagnosis in Adolescence

Moritz Herle, BSc, MSc, PhD

Bianca De Stavola, PhD

Rachel Bryant-Waugh, PhD, FAED

University College London, Institute of Child Health, London, UK

Mohamed Abdulkadir, MSc, PhD

University of Geneva, Geneva, Switzerland

Cynthia Bulik, PhD, FAED

Zeynep Yilmaz, PhD

University of North Carolina at Chapel Hill, Chapel Hill, NC, USA

Christopher Hübel, MSc, MD

King's College London, London, UK

Ruth Loos, PhD

Icahn School of Medicine at Mount Sinai, New York, NY, USA

Diana Santos Ferreira, PhD

University of Bristol, Bristol, UK

Nadia Micali, MD, PhD, FAED

Geneva University Hospital, Geneva, Switzerland

PS1.1.2:

Pediatric Weight Management Interventions and Eating Disorder Risk: A Systematic Review and Meta-Analysis

Hiba Jebeile, BMedSci/BBus, MNutrDiet, APD

Louise Baur, MBBS (Hons), BSc(Med), PhD, FRACP, FAHMS

Natalie Lister, B HSc (Hons), MNutr Diet, PhD, APD

The University of Sydney, Sydney, Australia

Susan Paxton, BA (Hons), MPsy, PhD, FAED

La Trobe University, Melbourne, Australia

Megan Gow, BSc(Nutr)(Hons), B Ex Sport Sci, PhD

Katharine Aldwell, BSci, MNutrDiet, APD

Sarah Thomas, BNutrDiet (Hons), APD

Sarah Garnett, BSc, MNutrDiet, PhD APD

The Children's Hospital at Westmead, Westmead, Australia

PS1.1.3:

Neurobiological Underpinning of Eating Disorders: Integrative Biopsychosocial Longitudinal Analyses in Adolescents and Emerging Adults

Lauren Robinson, BSc, PhD

Anna Roach, BSc

Marina Bobou, BSc

Zuo Zhang, BEng, PhD

Sylvane Desrivieres, BSc, MSc, PhD

Ulrike Schmidt, MD, PhD, FRCPsych

King's College London, London, UK

PS1.1.4:

A 15-Year Longitudinal Investigation of Changes in Body Dissatisfaction and Subsequent Changes in Eating Disorder Outcomes from Adolescence through Adulthood

Lisa M. Anderson, PhD

Ann F. Haynos, PhD

Marla E. Eisenberg, ScD, MPH

Dianne Neumark-Sztainer, PhD, MPH, RD, FAED

University of Minnesota, Minneapolis, MN, USA

Lauren M. Schaefer, PhD

Sanford Research, Fargo, ND, USA

Melanie M. Wall, PhD

Chen Chen, MPH

Columbia University, New York, NY, USA

PS1.1.5:

Comparison of Help-Seeking by Sex and Ethnicity/Race in U.S. Adults with DSM-5-Defined Eating Disorders

Tomoko Udo, PhD

Jaime Coffino, MA, MPH

University at Albany, Albany, NY, USA

Carlos Grilo, PhD

Yale University, New Haven, CT, USA

PS1.1.6:

Reciprocal Associations between Eating Pathology and Parent-Daughter Relationships across Adolescence: A Monozygotic Twin Differences Study

Kristin von Ranson, PhD, FAED

Laurel Korotana, PhD

University of Calgary, Calgary, Alberta, Canada

Sylia Wilson, PhD

William Iacono, PhD

University of Minnesota, Minneapolis, MN, USA

Chelsea, Lower Level

Session Co-Chairs:

Karina Allen, PhD, MPsyCh
and **Thomas Hildebrandt**, PsyD, FAED

PS1.2.1:**From Research to Practice to Large-Scale Practice: Implementing First Episode Rapid Early Intervention for Eating Disorders (FREED)**

Karina Allen, PhD, MPsyCh, BA (Hons)
Victoria Mountford, DClinPsych, BA (Hons)
Danielle Glennon, BA (Hons)
Nina Grant, PhD, DClinPsych, BA (Hons)
Amy Brown, DClinPsych, BA (Hons)
 Maudsley Hospital, South London and Maudsley NHS Foundation Trust, London, UK
Michaela Flynn, BSc (Hons), PhD Candidate
Ulrike Schmidt, PhD, MPhil, MD, FAED
 Institute of Psychiatry, King's College London, London, UK

PS1.2.2:**Primary Efficacy and Nine Month Outcomes for Behavioral Coach Delivered Smartphone Intervention for Binge Eaters**

Tom Hildebrandt, PsyD, FAED
 Icahn School of Medicine, New York, NY, USA
Andreas Michaelides, PhD
 Icahn School of Medicine at Mount Sinai, New York, NY, USA
Robyn Sysko, PhD
Tatiana Toro-Ramos, PhD
 Noom, Inc., New York, NY, USA
Megahn Mayhew, MS,
 Kaiser Permanente Center for Health Research, Portland, OR, USA
Lynn DeBarr, PhD, MPH
 Kaiser Permanente Washington Health Research Institute, Seattle, WA, USA

PS1.2.3:**Dietary Fat Intake and Fat Preference in Individuals with and Without in Anorexia Nervosa**

Janet Schebendach, PhD, RD
 Columbia University Irving Medical Center, New York State Psychiatric Institute, New York, NY, USA
Blair Uniacke, MD
Evelyn Attia, MD
B. Timothy Walsh, MD
Joanna Steinglass, MD
 Columbia University Irving Medical Center, New York, NY, USA

PS1.2.4:**Optimising Treatment Delivery and Reducing Length of Stay in an Adult Inpatient Unit**

Urvashnee Singh, MbChB, UKZN, MPM, RANZCP
 South Africa Dip Child Health, Hollywood Hospital, Perth, Australia
Fiona Cartwright, PhD
Fiona Salter, Masters of Dietetics, Dietician
Kate Fleming, Bsc., Dietician
 Hollywood Hospital, Perth, Australia

PS1.2.5:**Ignorance is Bliss: Blind vs. Open Weighing from an Eating Disorder Patient Perspective**

Franziska Foreich, BPsych (Hons), MPsyCh, PhD
 Candidate, Clinical Psychology Registrar
Lenny Vartanian, PhD, Professor, Associate Dean
Sarah Ratcliffe, BHealthSci, MSci (Hons), Research Assistant, Health Psychology Tutor
 UNSW Sydney, Sydney, Australia

PS1.2.6:**Multiple Purging Methods vs. Vomiting alone in Bulimia Nervosa and Purging Disorder: A Comparison of Clinical Features and Treatment Response**

Danielle MacDonald, PhD, C.PsyCh.
Kathryn Trottier, PhD, C.PsyCh.
 University Health Network, University of Toronto, Toronto, ON, Canada

Flatiron, Lower Level

Session Co-Chairs:

Erin Reilly, PhD and **Jane Miskovic-Wheatley**, PhD

PS1.3.1:**The Effectiveness of the Intensive Day Treatment Program (ITP) for the Severely Ill Adolescents with the Restrictive Eating Disorders**

Mima Simic, MD, MRCPsych
Catherine Stewart, PhD, DClinPsy
Julian Baudinet, BA (Hons), MSc, DCP, FAED
Ivan Eisler, PhD, FAED
Laura Baker, BscN
Katrina Hunt, DClinPsy
 South London and Maudsley NHS Trust, London, UK

PS1.3.2:**Where Does the Bridge Lead? Evaluating the Long-Term Outcomes of a Partial Hospitalization Program for Adolescents with Anorexia and Bulimia Nervosa****Erin Reilly**, PhD**Roxanne Rockwell**, PhD**Ana Ramirez**, PhD**Leslie Anderson**, PhD**Tiffany Brown**, PhD**Christina Wierenga**, PhD**Walter Kaye**, PhD

University of California, San Diego, San Diego, CA, USA

PS1.3.3:**Group Cognitive Remediation Therapy for Children and Adolescents Receiving Intensive Daypatient Treatment for Anorexia Nervosa: A Feasibility Study****Charlotte Rhind**, PhD, Trainee Clinical Psychologist**Kate Tchanturia**, PhD, FAED, FBPS, FHEA, Consultant

Clinical Psychologist, BSc (Hons), MSc, PhD

Institute of Psychiatry, Kings College London, London, UK

Jonathan Espie, DClinPsy, Principal Clinical Psychologist

South London and Maudsley NHS Foundation Trust, London, UK

PS1.3.4:**The Caregiver Traps Scale: Validation of an Assessment Tool to Identify Roadblocks to Parental Involvement in Treatment****Adele Lafrance**, PhD, C.Psych

Laurentian University, Sudbury, ON, Canada

PS1.3.5:**Changes in Weight and Percent Expected Body Weight Predict Outcomes in a Family-Based Partial Hospitalization Program****Jessica L Van Huysse**, PhD**Kellsey Smith**, BS**Kathleen A Mammel**, PhD, FAED

University of Michigan, Ann Arbor, MI, USA

Renee Rienecke, PhD, FAED

Medical University of South Carolina, Charleston, SC, USA

PS1.3.6:**Does inpatient weight restoration prior to outpatient family-based treatment improve longterm outcomes for adolescent Anorexia Nervosa: A five-year follow-up.****Jane Miskovic-Wheatley**, BS (Hons 1), MS, PhD**Andrew Wallis**, PhD, Graduate Diploma of Psychology, MFT, Graduate Diploma of Mental Health**Sloane Madden**, BMBS (Hons II), PhD (Medicine)

The Children's Hospital at Westmead, Sydney, Australia

Michael Kohn, MBBS, FRACS, ECFMG, FRACP,

Fellowship in Adolescent Medicine

Albert Einstein College of Medicine, Westmead Hospital, Sydney, Australia

Janice Russell, MB, BS

University of Sydney, Royal Prince Alfred Hospital, Sydney, Australia

Hay Phillipa, MB, ChB, Psychiatrist

Wesley Hospital, Sydney, Australia

Gramercy, Lower Level

Session Co-Chairs:

Carly Pacanowski, PhD, RDand **Nadia Micali**, MD, MRCPsych, PhD, FAED**PS1.4.1:****Examining the Role of Persistence in the Relationship Between Restraint and Restriction of Caloric Intake****Angeline Bottera**, BA**Evelyna Kambanis**, BA**Kyle De Young**, PhD, FAED

University of Wyoming, Laramie, WY, USA

PS1.4.2:**Network Analysis of Eating Disorders and PTSD in a Community Sample: The Role of Reexperiencing as a Mechanism of Comorbidity****Rachel Liebman**, PhD**Kendra Becker**, PhD**Kamryn Eddy**, PhD, FAED**Jennifer Thomas**, PhD, FAED

Eating Disorders Clinical and Research Program, Massachusetts General Hospital, Harvard Medical School, Boston, MA, USA

Li Cao, PhD

Sanford Research, Fargo, ND, USA

Kathryn Smith, PhD**Ross Crosby**, PhD

University of North Dakota, Fargo, ND, USA

PS1.4.3:**Mindfulness and Eating Disorder Psychopathology: A Meta-Analysis****Margarita Sala**, MA

Southern Methodist University, Dallas, TX, USA

Shruti Shankar Ram, BS**Irina Vanzhula**, MS**Cheri Levinson**, PhD

University of Louisville, Louisville, KY, USA

PS1.4.4:**Protective Associations Between Father-Child Connectedness in Adolescence and Eating Concern in Young Adulthood**

Vivienne M. Hazzard, MPH, RD
Alison L. Miller, PhD
Katherine W. Bauer, PhD
Bhramar Mukherjee, PhD
Kendrin R. Sonnevile, ScD, RD
 University of Michigan, Ann Arbor, MI, USA

PS1.4.5:**Elucidating Factors Underlying Parent-Offspring Similarity in Eating Pathology in Pre- and Early Puberty: Exploring the Possibility of Passive Gene-Environment Correlation**

Shannon O'Connor, PhD
 University of Chicago, Chicago, IL, USA
S. Alexandra Burt, PhD
Kelly Klump, PhD, FAED
 Michigan State University, East Lansing, MI, USA
Matthew McGue, PhD
William Iacono, PhD
 University of Minnesota, Minneapolis, MN, USA

PS1.4.6:**A Randomized Trial of the Impact of Daily Self-Weighing on Affective Reactivity using Ecological Momentary Assessment**

Carly Pacanowski, PhD, RD
Gregory Dominick, PhD
 University of Delaware, Newark, DE, USA
Jennifer Linde, PhD
 University of Minnesota, Minneapolis, MN, USA
Ross Crosby, PhD, FAED
Scott Engel, PhD
 Sanford Health, Fargo, ND, USA

Murray Hill, Lower Level

Session Chair:

Scott Griffiths, PhD

PS1.5.1:**Body Satisfaction in Children and Adolescents Undergoing Weight Management Treatment: Systematic Review and Meta-Analysis**

Megan L. Gow, PhD, BS (Hons), BSc
Natalie Lister, BSc, MNutr, PhD
Louise A. Baur, Professor, PhD, FRACP
Hiba Jebeile, MNutr
 The University of Sydney, Sydney, Australia

Susan J. Paxton, Emeritus Professor, PhD
 La Trobe University, Melbourne, Australia

Katharine Aldwell, BSc, MNutr

Sarah Thomas, BSc, MNutr

Sarah P. Garnett, Associate Professor, PhD, MNutr&Diet
 The Children's Hospital at Westmead, Sydney, Australia

PS1.5.2:**Imaginal Exposure Eating Disorder Fear Scripts are Associated with Increased Activation Related to Threat and Internally Generated Thought Compared to Neutral Scripts: A Proof-of-Concept fMRI Study**

Leigh Brosnoff, BA
Lindsay Knight, MS
Karisa Hunt, MSW
Cheri Levinson, PhD
Brendan Depue, PhD
 University of Louisville, Louisville, KY, USA

PS1.5.3:**Warning vs. Rewarding: Evaluating the Effects of Labeling Images as Retouched or Retouch-Free on Body Image in Women**

Francesca Giorgianni, BA Candidate
Elisa Danthine, BS Candidate
Rachel F. Rodgers, PhD, FAED
 Northeastern University, Boston, MA, USA

PS1.5.4:**Thinspiration and Fitspiration: Are they a Cause or Symptom of Eating Disorders? Findings from a Cross-Lagged Longitudinal Mediation Analysis of Individuals with Eating Disorders**

Scott Griffiths, PhD
 University of Melbourne, Melbourne, Australia
Stuart Murray, PhD
 University of California San Francisco, San Francisco, CA, USA
Deborah Mitchison, PhD
 Macquarie University, Sydney, Australia
Jonathan Mond, PhD
 University of Tasmania, Launceston, Australia
Fiona Barlow, PhD
 University of Queensland, Brisbane, Australia

PS1.5.5:**Attentional Bias to Weight-Related Body Parts Predicts Body Dissatisfaction in Female College Students when Embodying a Real-Size Virtual Body**

Marta Ferrer-Garcia, PhD, FAED
Bruno Porras Garcia, MS, PhD Candidate
Alexandra Ghita, Master's Degree, PhD Candidate
Laura López Jiménez, BS
Alba Vallve-Romeu, BS

Valentina Tarantino, BS
José Gutiérrez-Maldonado, PhD
 Universitat de Barcelona, Barcelona, Catalonia, Spain

PS1.5.6:

The Exploration of State Body Dissatisfaction in Everyday Lives: An EMA Study with Japanese Young Women

Mika Omori, PhD
Ai Takamura, MA
Yoko Yamazaki, PhD
 Ochanomizu University, Bunkyo, Tokyo, Japan
Hiroe Kikuchi, MD, PhD
 Center Hospital of the National Center for Global Health and Medicine, Shinjuku, Tokyo, Japan
Toru Nakamura, PhD
 Osaka University, Toyonaka, Osaka, Japan
Kazuhiro Yoshiuchi, MD, PhD
Yoshiharu Yamamoto, PhD
 Tokyo University, Bunkyo, Tokyo, Japan

Sugar Hill, Lower Level

Session Co-Chairs:

Stephanie Manasse, PhD and **Janet Lydecker**, PhD

PS1.6.1:

Relating goal-directed behaviour to eating disorder features and higher BMI

Andreea I Heriseanu, BS Psych (Hons),
 DClinPsych, PhD Candidate
Laura Corbit, PhD
Stephen Touyz, PhD, FAED
 University of Sydney, Camperdown, Australia
Phillipa Hay, MBChB, MD, DPhil, FAED
 Western Sydney University, Campbelltown, Australia
Ross Crosby, PhD, FAED
Li Cao, MS
 Neuropsychiatric Research Institute, Fargo, ND, USA

PS1.6.2:

Secretive Eating among Treatment-Seeking Adults with Binge-Eating Disorder

Janet Lydecker, PhD
Carlos Grilo, PhD
 Yale School of Medicine, New Haven, CT, USA

PS1.6.3:

Internalized weight stigma and intuitive eating explain lower eating disturbances among higher BMI clients in healthy living program

Janell Mensinger, PhD
 Drexel University, Philadelphia, PA, USA

Tracy Tylka, PhD, FAED
 The Ohio State University, Columbus, OH, USA
Rachel Calogero, PhD, FAED
 Western University, London, ON, Canada
Erin Harrop, MSW
 University of Washington, Seattle, WA, Canada

PS1.6.4:

Associations between hair cortisol concentrations, perceived stress, and binge eating and emotional eating in women

Natasha Fowler, MA
Cheryl Sisk, PhD
S. Alexandra Burt, PhD
Kelly Klump, PhD
 Michigan State University, East Lansing, MI, USA
Pamela Keel, PhD
 Florida State University, Tallahassee, FL, USA
Debra Katzman, MD, FRCP(C)
 University of Toronto, Toronto, ON, Canada
Michael Neale, PhD
 Virginia Commonwealth University, Richmond, VA, USA

PS1.6.5:

Hunger and stress differentially predict perceived emotional eating in individuals with and without loss-of-control eating: An ecological momentary assessment study

Stephanie Manasse, PhD
Kelsey Clark, BA
Sarah Palasick, BA
Emily Presseller, BA
Adrienne Juarascio, PhD
 Drexel University, Philadelphia, PA, USA

PS1.6.6:

Sleep Disturbances, Anxiety, and Binge-Eating Behavior in Individuals with Binge-Eating Disorder

Nicole Johnson, BS
 Illinois Institute of Technology, Chicago, IL, USA
Laura Thornton, PhD
Jessica Baker, PhD
Cynthia Bulik, PhD, FAED
Kimberly Brownley, PhD
 University of North Carolina at Chapel Hill, Chapel Hill, NC, USA
Karolinska Institutet
 Chapel Hill, NC, USA

Sutton Place, Lower Level

Session Co-Chairs:

Pamela H. Keel, PhD, FAED and **Lauren Forrest**, MA**PS1.7.1:
Comorbidity in Youth Eating Disorders:
Toward a Functional Model of Risk****Heather Davis**, MS
Gregory Smith, PhD
Anna Marie Ortiz, MS
University of Kentucky, Lexington, KY, USA**PS1.7.2:
Examining Reward Value in Bulimic
Syndromes: Novel Insights into
Vulnerability for Comorbidity****Pamela Keel**, PhD, FAED
Grace Kennedy, MS
Jonathan Appelbaum, MD
Diana Williams, PhD
Florida State University, Tallahassee, FL, USA
Lindsay Bodell, PhD
University of Western Ontario, London, ON, USA**PS1.7.3:
Suicidality and Eating Disorders among
a Diverse Sample of College Students:
Results from a National Survey Study****Sarah Lipson**, PhD, EdM, Assistant Professor
Boston University, Boston, MA, USA
Kendrin Sonnevile, ScD, RD, Assistant Professor
University of Michigan, Ann Arbor, MI, USA**PS1.7.4:
The unique role of weight stigma on
comorbid unhealthy weight control and
substance use among adolescent girls****Melissa Simone**, PhD
Laura Hooper, RD
Marla Eisenberg, ScD, MPH
Dianne Neumark-Sztainer, PhD, MPH, RD
University of Minnesota, Minneapolis, MN, USA**PS1.7.5:
Using network analysis to identify pathways
that bridge trait anxiety and eating disorder
symptoms in patients with anorexia nervosa****Lauren Forrest**, MA
Laurel Sarfan, MA
Shelby Ortiz, BA
April Smith, PhD
Miami University, Oxford, OH, USA
Tiffany Brown, PhD**Leslie Anderson**, PhD
Walter Kaye, MD
University of California San Diego, San Diego, CA, USA**PS1.7.6:
Physical Morbidity and Eating Disorder
Symptoms among Medically Hospitalized
Adolescents with Atypical Anorexia Nervosa****Abigail Matthews**, PhD, MHA
Katrina Lenz, PsyD
Claire Peterson, PhD
Laurie Mitani, MD, FAAP
Cincinnati Children's Hospital Medical Center, Cincinnati,
OH, USA*Metropolitan West Ballroom, Second Floor*

Session Co-Chairs:

Carlos Grilos and **Robin Masheb**, PhD, PhD**PS1.8.1:
Network Analysis of Interoceptive
Awareness and Eating Disorder Symptoms****Tiffany Brown**, PhD
Erin Reilly, PhD
Jason Lavender, PhD
Laura Berner, PhD
Angeline Krueger, BS
Christina Wierenga, PhD
Walter Kaye, MD
University of California San Diego, San Diego, CA, USA**PS1.8.2:
Development and Validation of a Scale
for the Tendency to Exercise in Response
to Mood, Eating, and Body Image Related
Cues: The Reactive Exercise Scale (RES)****Kyle De Young**, PhD, FAED
Alexandra Thiel, MA
Angeline Bottera, BA
Evelyna Kambanis, BA
University of Wyoming, Laramie, WY, USA**PS1.8.3:
A test of the DSM-5 severity specifier for
bulimia nervosa in adolescents: can we
anticipate clinical treatment outcomes****Sasha Gorrell**, PhD
Lisa Hail, PhD
Kathryn Kinasz, MD
Sarah Forsberg, PsyD
Kevin Delucchi, PhD
Daniel Le Grange, PhD, FAED
University of California, San Francisco, San Francisco,
CA, USA
James Lock, MD, PhD, FAED
Stanford University, Stanford, CA, USA

PS1.8.4:**The Yale Emotional Overeating Questionnaire: Overeating in Response to Physical Pain****Robin Masheb**, PhD**Daniel Le Grange**, PhD, FAED

Yale School of Medicine, VA Connecticut Healthcare System, New Haven, CT, USA

Amanda Kutz, PhD**Alison Marsh**, BA

VA Connecticut Healthcare System, West Haven, CT, USA

PS1.8.5:**Fear of Weight Gain in Restrictive Eating Disorders among Adolescents: Does Current Weight Status Matter?****Lisa Hail**, PhD**Sasha Gorrell**, PhD**Kathryn Kinasz**, MD**Sarah Forsberg**, PsyD**Lindsey Bruett**, PhD**Daniel Le Grange**, PhD, FAED

University of California, San Francisco, San Francisco, CA, USA

Elizabeth Hughes, PhD**Susan Sawyer**, MBBS, MD, FRACP, FSAHM

The University of Melbourne, The Royal Children's Hospital Melbourne, Melbourne, Australia

Katharine L. Loeb, PhD, FAED

Fairleigh Dickinson University, Teaneck, NJ, USA

PS1.8.6:**Assessing the Psychometric Properties of the Eating Beliefs Questionnaire (EBQ-18) in Clinical Eating Disorder Sample****Amy Burton**, BSci (Hons), DClinPsy, PhD Candidate**Brooke Donnelly**, MCLinPsy, PhD Candidate**Stephen Touyz**, BSci (Hons), PhD

University of Sydney, Sydney, Australia

Deborah Mitchison, PhD, MCLinPsych**Christopher Basten**, BA, MPsy

Macquarie University, Sydney, Australia

Phillipa Hay, FRANZCP, DPhil, MD, FAED

Western Sydney University, Sydney, Australia

Christopher Thornton, BSci(Hons), MCLinPsych

The Redleaf Practice, Sydney, Australia

Janice Russell, FRACP, FRANZCP, MD**Jessica Swinbourne**, BA, DClinPsych, PhD

Royal Prince Alfred Hospital, Sydney, Australia

Mandy Goldstein, BA (Hons), DPsych

Mandy Goldstein Psychology, Sydney, Australia

Liberty 3, Third Floor

Session Co-Chairs:

Deborah Lynn Reas, PhD and **Sarah Maguire**, DCP, PHD**PS1.9.1:****Disordered Eating at the Intersection of Gender and Ethnicity in U.S. High School Students: A Secondary Data Analysis of the 2013 National Youth Risk Behavior Surveillance System****Ariel Beccia**, MS**Sarah Forrester**, PhD**Jonggyu Baek**, PhD**Kate Lapane**, PhD

University of Massachusetts Medical School, Worcester, MA, USA

PS1.9.2:**Does Arab Ethnicity Moderate the Association of Family Meals with Disordered Eating? Findings from a Representative National Survey of Youth in Israel****Roni Elran-Barak**, PhD

University of Haifa, Haifa, Israel

Michal Bromberg, MD**Tal Shimony**, MA**Rita Dichtiar**, MA**Nisim Mery**, MA**Lesley Nitzan**, MA**Lital Keinan Boker**, MD

Israel Center for Disease Control, Israel Ministry of Health, Ramat Gan, Israel

PS1.9.3:**Seventeen-Year Course and Outcome of Eating Disorders in an Adult Population****Hanna Eielsen**, Psychol Candidate, PhD Candidate**KariAnne Vrabell**, Psychol Candidate, PhD**Asle Hoffart**, Professor, PhD

Modum Bad Research Institute, Vikersund, Buskerud, Norway

Øyvind Rø, Professor, MD, PhD

Oslo University Hospital, Oslo, Norway

Jan Rosenvinge, Professor, PhD

University of Tromsø, Tromsø, Troms, Norway

PS1.9.4:**Time Trends in Healthcare-Detected Incidence of Anorexia Nervosa and Bulimia Nervosa in the Norwegian National Patient Register (2010-2016)****Deborah Lynn Reas**, PhD

Oslo University Hospital, Oslo, Norway

Øyvind Rø, MD, PhD

Oslo University Hospital, University of Oslo, Oslo, Norway

PS1.9.5:**Outcome Data from a Whole of Health System Service Reform Program to Embed the Identification, Access and Treatment of Eating Disorders within Mainstream Health Services in Australia**

Sarah Maguire, BSc (Hons), MA, DCP, PhD
Danielle Maloney, BSc (Hons), MPH
Stephen Touyz, BSc (Hons), MSc, PhD, FAED
Janice Russell, MBBS (Hons), PhD, FRANZCP, FRACP, FAED
 InsideOut Institute, University of Sydney, Sydney, Australia
Sloane Madden, MBBS (Hons), PhD, FRANZCP, CAPCert, FAED
Joanne Titterton, BN
Andrew Wallis, BSW, PhD
 Sydney Children's Hospital Network, Westmead, Australia

PS1.9.6:**Sexual Abuse and Bullying Histories as Shared Risk Factors for Development of Eating Disorder Symptoms and Higher Weight: A Population Based Study**

Deborah Mitchison, PhD, MCLinPsych, MSc, BPsych (Hons)
Kay Bussey, PhD
 Macquarie University, Sydney, Australia
Stephen Touyz, BSc, BSc (Hons), PhD, FAED
 University of Sydney, School of Psychology and InsideOut Institute, Sydney, Australia
David Gonzalez Chica, PhD
Nigel Stocks, BSc, MBBS, MD, DipPH, FRACGP, FAFPHM
 University of Adelaide, Adelaide, Australia
Michael Musker, PhD
 South Australian Health and Medical Research Institute, Adelaide, Australia
Julio Licinio, MD, PhD
 SUNY Upstate Medical University, Syracuse, NY, USA
Phillipa Hay, MD, DPhil, FRANZCP, FAED
 Translational Health Research Institute, Western Sydney University, Sydney, Australia

New York East Third Floor

Session Co-Chairs:

Rachel Rodgers, PhD, FAED
 and **Kendrin Sonnevile**, ScD, RD

PS1.10.1:**New York Fashion Week February 2018: Models' Health Behaviors and Fashion Industry Policies to Reduce Risk for Eating Disorders and Sexual Victimization**

Rachel F. Rodgers, PhD, FAED
Alice S. Lowy, MA
 Northeastern University, Boston, MA, USA

Sara Ziff, MPA

Model Alliance, New York, NY, USA

S. Bryn Austin, PhD, FAED

Harvard T.H. Chan School of Public Health, BCH, Boston, MA, USA

PS1.10.2:**Notification of Weight Status Associated with Short-Term Unintended Consequences**

Kendrin Sonnevile, ScD, RD
Vivienne Hazzard, MPH, RD
 University of Michigan School of Public Health, Ann Arbor, MI, USA

PS1.10.3:**A Peer-Led Trial of the EVERYbody Project: Inclusive Eating Disorder Risk Factor Reduction for College Students**

Anna Ciao, PhD
Janae Brewster, MA
Indira Lalgee, BS
Jana Freeman, BS
Kevin Pringle, BS
Kendall Lawley, BS
Maggie Butler, BA
Jacob Bassett, BS
 Western Washington University, Bellingham, WA, USA

PS1.10.4:**Lessons for Policy Initiatives to Prevent Disordered Weight Control Behaviors: A Qualitative Study of Community Stakeholders' Perceptions and Attitudes about Weight-Loss and Muscle-Building Supplements Sold to Minors**

Kuanysh Yergaliyev, MD, MPH, DrPH, Research Trainee
 Strategic Training Initiative for the Prevention of Eating Disorders, Harvard T.H. Chan School of Public Health, Boston Children's Hospital, Boston, MA, USA
S. Bryn Austin, ScD, MS, Professor
 Harvard Medical School, Boston Children's Hospital, Boston, MA, USA
Emma Louise Aveling, PhD, MPhil, Research Scientist
 Harvard T.H. Chan School of Public Health, Harvard T.H. Chan School of Public Health, Boston, MA, USA

PS1.10.5:**Can Warning Labels Mitigate Body Dissatisfaction?: A Meta-Analysis of the Use of Labels to Expose Digital Manipulation**

Elisa Danthinne, Northeastern University, Boston, MA, USA
Francesca Giorgianni, Northeastern University, Boston, MA, USA
Rachel Rodgers, PhD, FAED, Northeastern University, Boston, MA, USA

PS1.10.6:**Integrating Eating Disorder and Weight Gain Prevention: A Pilot and Feasibility Trial of INSPIRE****Courtney Simpson**, MS**Blair Burnette**, MS**Suzanne Mazzeo**, PhD, FAED

Virginia Commonwealth University, Richmond, VA, USA

New York West, Third Floor

Session Co-Chairs:

Katherin Schaumberg, PhD and **Allison Kelly**, PhD, CPsych**PS1.11.1:****Childhood Neuropsychological Predictors of Disordered Eating Behaviors in Adolescence****Katherine Schaumberg**, PhD

University of Wisconsin, Madison, WI, USA

Leigh Brosos, BA

University of Louisville, Louisville, KY, USA

Stephanie Zerwas, PhD

University of North Carolina, Chapel Hill, NC, USA

Caitlyn Lloyd, PhD Candidate

University of Bristol, Bristol, England, USA

Nadia Micali, MD, MRCPsych, PhD, FAED

University of Geneva, Geneva, Switzerland

PS1.11.2:**Investigating the Neuropsychological Profile of Severe and Enduring Anorexia Nervosa: A Systematic Review and Meta-Analysis****Catherine Broomfield**, Master of Clinical Psychology, PhD
Bachelor of Psychological Science (Hons)**Stephen Touyz**, Clinical Professor Associate Head, PhD
University of Sydney, Sydney, Australia**Kristin Stedal**, PhD

Oslo University Hospital, Ullevål, Oslo, Norway

PS1.11.3:**Using Multi-Session CBM-I to Influence Eating Disorder Psychopathology: A Randomised Control Trial****Emily Matheson**, BPsychHons

University of the West of England, Bristol, UK

Tracey Wade, PhD

Flinders University, Adelaide, Australia

PS1.11.4:**Day-to-Day Fluctuations in Self-Compassion Levels Contribute to Eating Pathology and Affect in Women with Anorexia Nervosa: A Two-Week Daily Diary Study****Allison Kelly**, PhD, CPsych**Ruofan Ma**, BA

University of Waterloo, Waterloo, ON, Canada

PS1.11.5:**A Pilot Study Linking Reduced Neurobiological and Neurocognitive Reward Inhibition with Poorer Binge Eating Treatment Outcomes****Helen Murray**, BA**Stephanie Manasse**, PhD**Amani Piers**, BS**Christine Call**, BS**Jocelyn Remmert**, MS**Leah Schumacher**, MS**Brittney Evans**, MS**Alexandra Muratore**, MS**Michael Lowe**, PhD**Hasan Ayaz**, PhD

Drexel University, Philadelphia, PA, USA

PS1.11.6:**Convergence of Maternal and Child Self-Reported Levels of Impulsivity and their Predictive Utility for Binge Eating Behaviors****Phuong Vo**, MA, BA**S. Alexandra Burt**, PhD, MA, BA**Kelly Klump**, PhD, MA, BS, FAED

Michigan State University, East Lansing, MI, USA

Sarah Racine, PhD, MA, BS

McGill University, Montreal, Quebec, Canada

Riverside Ballroom, Third Floor

Session Co-Chairs:

James Lock, MD, PhD, FAEDand **Rachel Bryant-Waugh**, DPhil, FAED**PS1.12.1:****Naturalistic Treatment Outcomes for Children Receiving Exposure Therapy for Avoidant/Restrictive Food Intake Disorder****Nicholas Farrell**, PhD

Rogers Memorial Hospital, Oconomowoc, WI, USA

PS1.12.2:**Feasibility of Manualized Family-Based Treatment for Avoidant/Restrictive Food Intake Disorder: A Randomized Controlled Crossover Trial**

James Lock, MD, PhD, FAED

Shiri Sadeh-Sharvit, PhD

Alexa L'Insalata, BA

Amy Toig, BA

Stanford University, Stanford, CA, USA

PS1.12.3:**The Clinical Significance of Nighttime Eating: A Randomized Trial of the Impact of a Daytime vs. Delayed Eating Schedule on Weight and Metabolism among Adults of Healthy Weight**

Kelly Allison, PhD, FAED

Madelyn Ruggieri, MS

Namni Goel, PhD

University of Pennsylvania, Philadelphia, PA, USA

Christina Hopkins, BS

Duke University, Durham, NC, USA

Zhe Zhang, PhD

Deanne Taylor, PhD

Children's Hospital of Philadelphia, Philadelphia, PA, USA

PS1.12.4:**Further Support for Diagnostically Meaningful Avoidant/Restrictive Food Intake Disorder (ARFID) Symptom Presentations in an Adolescent Medicine Partial Hospitalization Program**

Hana Zickgraf, MA, PhD

University of Chicago, Chicago, IL, USA

Susan Lane, PhD

Jamal Essayli, MA, PhD

Rollyn Ornstein, MD

Penn State Hershey Medical Center, Hershey, PA, USA

PS1.12.5:**The Development of a Parent Completed Person-Centered Outcome Measure for Children with Avoidant/Restrictive Food Intake Disorder**

Rachel Bryant-Waugh, BSc, MSc, DPhil, FAED

University College London Institute of Child Health, London, UK

Lucy Cooke, BSc, MSc, PhD

Great Ormond Street Hospital, London, UK

PS1.12.6:**The Long-Term Outcome of Purging Disorder: An Examination of Predictors of Outcome and Comparison to Bulimia Nervosa**

K. Jean Forney, PhD

Ohio University, Athens, OH, USA

Pamela Keel, PhD, FAED

Florida State University, Tallahassee, FL, USA

PAPER SESSION 2

FRIDAY, MARCH 15 | 1445 – 1615

Bowery, Lower Level

Session Co-Chairs:

Steven Wonderlich, PhD, FAED

and **Carol Peterson**, PhD, FAED

PS2.1.1:**Do Our Patients Make Real Cognitive Changes in Cognitive-Behavioural Therapy? Different Ways of Measuring Clinical Change**

Glenn Waller, DPhil, FAED

Elana Moore, BSc, MRes

University of Sheffield, Sheffield, Yorkshire, UK

Hannah Turner, PhD, DClinPsy

University of Southampton, Southampton, Hampshire, UK

Madeleine Tatham, DClinPsy

Norfolk Eating Disorders Service, Norwich, Norfolk, UK

Victoria Mountford, DClinPsy

King's College London, England

PS2.1.2:**Adapting Selective Eating Disorder Prevention for a Universal Audience: Results from a School-Based Cluster Randomised Controlled Pilot Study**

Melissa Atkinson, PhD

University of Bath, Bath, Somerset, UK

Jade Parnell, MSc

Phillippa Diedrichs, PhD, FAED

University of the West of England, Bristol, Avon, UK

PS2.1.3:**Suicide Attempts and Correlates in Persons with DSM-5 Eating Disorders in a Nationally Representative Sample of U.S. Adults**

Carlos Grilo, PhD

Yale University School of Medicine, New Haven, CT, USA

Tomoko Udo, PhD
University at Albany, State University of New York,
Albany, NY, USA

PS2.1.4:

The Use of Genetic Variants to Assess Causal Associations between Anxiety and Anorexia Nervosa: A Mendelian Randomization Approach

Caitlin Lloyd, BSc (Hons), MRes
Hannah Sallis, PhD
Anne Haase, PhD
Marcus Munafò, PhD
University of Bristol, Bristol, South West, UK
Bas Verplanken, PhD
University of Bath, Bath, South West, UK

PS2.1.5:

A Randomized Case-Series Trial Testing the Feasibility and Acceptability of The Parent-Based Prevention Program for Parents with Eating Disorder Histories

Shiri Sadeh-Sharvit, PhD
Cristin Runfola, PhD
Hannah Welch, BA
James Lock, MD, PhD
Stanford University, Stanford, CA, USA

PS2.1.6:

Characteristics of Avoidant/Restrictive Food Intake Disorder in Mexico

Eva Trujillo-ChiVacuan, MD, FAED, CEDS, FIAEDP, FAAP
Elena Guadalupe Rodriguez-Gutierrez, MD
Rodolfo Pérez-Garza, MD
Lorena Perez-Flores, Nutriologist
Mariana Gutierrez-Carvajal, Nutriologist
Luisana Castillo-Diaz, Neuropsych
Comenzar de Nuevo, Garza Garcia, NL, Mexico
Manuel Horacio Quezada, Student
Eating Disorders Clinical and Research Program,
Massachusetts General Hospital, Boston, MA, USA
Jennifer Thomas, PhD, FAED
Harvard Medical School, Boston, MA, USA

Chelsea, Lower Level

Session Co-Chairs:

Rebecca Park, PhD FRCPsych
and **Agnes Ayton**, FRCPsych, MMedSC

PS2.2.1:

A Randomized Controlled Trial of Cognitive Remediation Therapy for Anorexia Nervosa: Effects on a Cognitive Restructuring Task

Laura Sproch, PhD
Kimberly Anderson, PhD
The Center for Eating Disorders at Sheppard Pratt,
Baltimore, MD, USA

PS2.2.2:

HOW do Physical Exercise and Dietary Therapy Compare to Cognitive Behavior Therapy in Outpatient Treatment of Women with BN OR BED?

Therese F Mathisen, MSc, Nutrition Dietitian
Norwegian School of Sport Sciences, Oslo, Norway
Jan H Rosenvinge, PhD, Professor
Oddgeir Friborg, PhD, Professor
Gunn Pettersen, PhD, Professor
UiT-The Arctic University of Norway, Tromsø, Norway
Karianne Vrabel, PhD, Psychologist
The Research Institute of Modum Bad, Vikersund, Norway
Solfrid Bratland-Sanda, PhD
University of South-Eastern Norway, Boe, Norway
Jorunn Sundgot-Borgen, PhD, Professor, FACSM,
Norwegian School of Sport Sciences, Oslo, Norway

PS2.2.3:

Hungry for Reward? A Study of Deep-Brain Stimulation and Neuroethics in Severe Enduring Anorexia Nervosa: Clinical Outcomes of DBS to the Anterior Limb of the Internal Capsule at the Nucleus Accumbens: The First Data on Double Blind DBS on-off and Patient Experience

Rebecca Park, BSc, MB BCh, PhD, FRCPsych
University of Cambridge, University of Oxford,
Oxford, Oxfordshire, UK
Jessica Scaife, BSc, PhD
Tipu Aziz, MD, PhD, FRCS
University of Oxford, Oxford, Oxfordshire, UK

PS2.2.4:

Personalized Networks of Eating Disorder Symptoms in High School Students: Targets for Individualized Treatments

Irina Vanzhula, MS
Cheri Levinson, PhD
University of Louisville, Louisville, KY, USA

Tosha Smith, PhD
Center of Excellence for Eating Disorders, Chapel Hill, NC, USA
Eric Stice, PhD
Oregon Research Institute, Eugene, OR, USA

PS2.2.5:
Integration of Physical and Psychological Treatment using CBT-E in Inpatient Setting: Can we Reduce Costs and Improve Outcomes?

Agnes Ayton, GMC specialist, MSc in Medical Leadership, FRCPsych, MMedSc in Clinical Psychiatry

Maxie Scheske, BA, MSc
Oxford Health NHS Trust, Oxford, Oxfordshire, UK

Ali Ibrahim, MBBS, MRCPsych
South London and Maudsley Hospital, London, UK

David Viljoen, M.Soc.Sci, Counselling Psychology, MSc (Systemic and Family Therapy)
Oxford Health NHS Foundation Trust, Oxford, Oxfordshire, UK

PS2.2.6:
DBT Skills Training and the Change of Eating Patterns among Russian Women with Eating Disorders

Svetlana Bronnikova, PhD

Angelina Chekalina, PhD

Ksenia Syrovashina, PhD
Center for Intuitive Eating and Psychotherapy of Eating Disorders IntuEat, Moscow, Russia

Flatiron, Lower Level

Session Co-Chairs:

Joanna Steinglass, MD and **Kelly Klump**, PhD, FAED

PS2.3.1:
Inflammatory Markers in Anorexia Nervosa: An Exploratory Study

Bethan Dalton, BSc, MSc

Iain C. Campbell, DSc

Gerome Breen, PhD

Ulrike Schmidt, MD, PhD, FRCPsych, FAED

Hubertus Himmerich, SARCPsych, MD
King's College London, UK

PS2.3.2:
Neurobiology of Food Choice Across the Spectrum of Restrictive Eating

Joanna Steinglass, MD

Karin Foerde, PhD

B. Timothy Walsh, MD

Daphna Shohamy, PhD
Columbia University, New York, NY, USA

PS2.3.3:
The Disruptive Effects of Estrogen Removal during Adolescence on Risk for Binge Eating in Female Rats

Kelly Klump, PhD, FAED

Elaine Sinclair, PhD

Alexander Johnson, PhD

Deborah Kashy, PhD

Cheryl Sisk, PhD

Michigan State University, East Lansing, MI, USA

Britny Hildebrandt, PhD

Western Psychiatric Institute and Clinic, University of Pittsburgh School of Medicine, Pittsburgh, PA, USA

Kristen Culbert, PhD

University of Nevada, Las Vegas, Las Vegas, NV, USA

PS2.3.4:
Association between Plasma Nutrient Levels and Methylation of Selected Genomic Regions in Women with Anorexia Nervosa

Jessica Burdo, BA, MSc Psychiatry Candidate

Luis Agellon, PhD, School of Human Nutrition

Linda Wykes, PhD

Kevin McGregor, BSc, MSc, PhD Candidate

McGill University, Montreal, Quebec, Canada

Linda Booij, PhD

Keelin Greenlaw, BSc, MSc

Concordia University, Montreal, Quebec, Canada

Lea Thaler, PhD, Eating Disorders Continuum

Mimi Israël, MD, FAED, Eating Disorders Continuum

Esther Kahan, BSc

Douglas University Institute, Montreal, Quebec, Canada

Luis Agellon, PhD, School of Human Nutrition

Linda Wykes, PhD

Kevin McGregor, BSc, MSc, PhD Candidate

McGill University, Montreal, Quebec, Canada

Aurelie Labbe, PhD,

HEC Montreal, Montreal, Quebec, Canada

PS2.3.5:
Rate of Weight Loss Predicts Degree of Bradycardia in Patients with Restrictive Eating Disorders

Andrea Garber, PhD, RD

Erin Accurso, PhD

Sally Adams, RN, PhD

Sara Buckelew, MD, MPH

Jing Cheng, MD, MS, PhD

Daniel Le Grange, PhD, FAED

Vanessa Machen, MS, RD

University of California San Francisco, San Francisco, CA, USA

Cynthia Kapphahn, MD, MPH

Anna Kreiter, MS

Stanford University, Palo Alto, CA, USA

Anna-Barbara Moscicki, MD

University of California Los Angeles, Los Angeles, CA, USA

Kristina Saffran

Project HEAL, Douglaston, NY, USA

Ally Sy, MS, RD

Lucile Packard Children's Hospital, Stanford Children's Health, Mountainview, CA, USA

Leslie Wilson, PhD

University of California San Francisco School of Pharmacy, San Francisco, CA, USA

Neville Golden, MD

Stanford University School of Medicine, Palo Alto, CA, USA

PS2.3.6:**Correlates of the Discrepancy between Predicted and Measured Resting Energy Expenditure in Individuals with Bulimia Nervosa****Kelsey Clark, BA****Paakhi Srivastava, PhD****Adrienne Juarascio, PhD**

Drexel University, Philadelphia, PA, USA

Gramercy, Lower Level

Session Co-Chairs:

Linda Booij, PhD and **Cara Bohon, PhD****PS2.4.1:****The Role of DNA Methylation of the Histone Deacetylase 4 (HDAC4) Gene in Anorexia Nervosa****Linda Booij, PhD****Keelin Greenlaw, MSc**

Concordia University, Montreal, Quebec, Canada

Esther Kahan, B.Sc**Lea Thaler, PhD****Emilie Fletcher, BA****Ridha Joober, MD, PhD****Mimi Israel, MD, PhD, FAED****Howard Steiger, PhD, FAED**

Douglas University Institute, Montreal, Quebec, Canada

Kevin McGregor, PhD

McGill University, Montreal, Quebec, Canada

Aurelie Labbe, PhD

HEC Montréal, Montreal, Quebec, Canada

PS2.4.2:**Reduced Reward Learning in Bulimia Nervosa: Novel Use of the Probabilistic Reward Learning Task and Associations with Binge Eating and Compensatory Behaviors in Current Bulimia Nervosa****Kelsey Hagan, MA****Kelsie Forbush, PhD, University of Kansas, Lawrence, KS, USA****PS2.4.3:****Brain White Matter Abnormalities in Females with Binge Eating Disorder****Nara Mendes Estella, Junior Researcher****Mara Fernandes Maranhão, PhD Student****Angélica Medeiros Claudino, Professor**

Universidade Federal de São Paulo, São Paulo, Brazil

Liana Guerra, PhD Student

Hospital Israelita Albert Einstein, São Paulo, Brazil

Marcelo Hoexter, Professor

University of São Paulo, São Paulo, Brazil

PS2.4.4:**Reduced Cortical Complexity in Anorexia Nervosa: A Study by Means of Fractal Dimensionality****Enrico Collantoni, MD****Paolo Meneguzzo, MD****Elena Tenconi, PhD****Iolanna Chiappini, MD****Renzo Manara, MD****Angela Favaro, PhD**

University of Padua, Padua, Italy

PS2.4.5:**Performance and Brain Activity During the Wisconsin Card Sorting Test is Aberrant in Adolescents with Obsessive-Compulsive Disorder but not Adolescents with Weight-Restored Anorexia Nervosa****Cara Bohon, PhD****James Lock, MD, PhD**

Stanford University, Stanford, CA, USA

Noam Weinbach, PhD

Haifa University, Haifa, Israel

PS2.4.6:**Clinical Correlates of Cortical and Subcortical Brain Morphology in a Large Naturalistic Sample of Inpatients with Anorexia Nervosa****Lasse Bang, PhD****Jill Solberg Holm, Cand. Psychol.****Laila Holgersen Skotte, MD****Rut Anne Thomassen, MSc****Magnus Mejlænder-Evjensvold, MD****Øyvind Rø, PhD, MD**

Oslo University Hospital, Oslo, Norway

Christian Krog Tamnes, PhD Cand. Psychol.

University of Oslo, Oslo, Norway

Lars T. Westlye, PhD Cand. Psychol.**Ole A. Andreassen, PhD, MD**

Norwegian Centre for Mental Disorders Research (NORMENT), University of Oslo, Oslo, Norway

Murray Hill, Lower Level

Session Co-Chairs:

Stuart B. Murray, PhD and **Jason Lavender**, PhD**PS2.5.1:****Application of Network Analysis to Investigate Sex Differences in Interactive Systems of Eating Disorder Psychopathology****Victoria Perko**, BA**Zachary Roman**, MA**Kelsie Forbush**, PhD

University of Kansas, Lawrence, KS, USA

Jenna Tregarthen, PhD

Recovery Record, Inc., San Francisco, CA, USA

Cynthia Siew, PhD

University of Warwick, Coventry, West Midlands, UK

PS2.5.2:**Assessing Barriers to Research Participation and Eating Disorder Intervention Utilization in Racial/Ethnic Minority College Women****Grace Monterubio**, BA**Ellen Fitzsimmons-Craft**, PhD**Marie-Laure Firebaugh**, LMSW**Denise Wilfley**, PhD

Washington University School of Medicine, St. Louis, MO, USA

Katherine Balantekin, PhD, RD

University at Buffalo, Buffalo, NY, USA

Neha Goel, BA

Virginia Commonwealth University, Richmond, VA, USA

Rachael Flatt, BS**Craig B. Taylor**, MD

Palo Alto University, Palo Alto, CA, USA

Shiri Sadeh-Sharvit, PhD

Baruch Ivcher School of Psychology, Herzliya, Tel Aviv, Israel

Mickey Trockel, MD, PhD

Stanford University, Stanford, CA, USA

PS2.5.3:**“Pretty for a Black Girl”: Messages Black Women Receive about their Bodies and Health****Alice S. Lowy**, MA**Elizabeth Cook**, MS**Evelyn Osei-Kuffour**, BS**Mika White**, BS**Kristine Zhang**, BS**Marina Yamada**, Undergraduate Student**Roni Mandelkern**, Undergraduate Student**Debra L. Franko**, PhD, FAED**Rachel F. Rodgers**, PhD, FAED

Northeastern University, Boston, MA, USA

PS2.5.4:**The Association between Maternal Criticism and Body Dissatisfaction on Disordered Eating Pathology across Racial and Ethnic Groups****Kimberly Yu**, BA**Marisol Perez**, PhD, Arizona State University, Tempe, AZ, USA**PS2.5.5:****Role of Gender in the Treatment Experiences of People with an Eating Disorder: A Metasynthesis****Priyanka Thapliyal**, MSc (Foods and Nutrition), PhD (Mental Health)**Phillipa Hay**, Foundation Chair of Mental Health, FAED Translational Health Research Institute (THRI) School of Medicine**Janet Conti**, Lecturer in Clinical Psychology Academic Course Advisor-Clinical and Professional Psychology School of Social Sciences and Psychology Western Sydney University, Sydney, Australia**PS2.5.6:****Is Lack of Integration into Mainstream Culture Associated with more Disordered Eating among Immigrants?****Ia Shekriladze**, PhD, LCSW**Nino Javakhishvili**, PhD

Ili State University, Tbilisi, Georgia

Kate Tchanturia, PhD, DCLin, FAED, FBPS, FHEA

King's College London, UK

Sugar Hill, Lower Level

Session Co-Chairs:

Jerel Calzo, PhD, MPHand **Rachel Bachner-Melman**, PhD, FAED**PS2.6.1:****Identifying Programmatic and Population-Level Barriers to Eating Disorder Treatment for Cisgender Males and Transgender Individuals****Kyle Ganson**, MSW, LCSW, LICSW

Simmons College, Boston, MA, USA

Amanda Pham**Talia Kieu****Jerel Calzo**, PhD, MPH

San Diego State University, San Diego, CA, USA

PS2.6.2:**Eating Disorders and Intersectionality: Disordered Eating Symptoms at the Intersection of Sexual Orientation and Ethnicity****Jennifer L. O'Flynn**, Ed.M.

Northeastern University, Boston, MA, USA

Allegra R. Gordon, MPH, ScD

Boston Children's Hospital and Harvard Medical School, Boston, MA, USA

Rachel F. Rodgers, PhD, FAED

Northeastern University and Department of Psychiatric Emergency & Acute Care

Lapeyronie Hospital, CHRU Montpellier, Boston, MA, USA

PS2.6.3:**The Mediating Effect of Emotion Dysregulation between Gender Typicality/Contentedness and Drive for Muscularity****Nora Trompeter**, Bachelor of Psychology (Hons)**Kay Bussey**, B.Econ (Hons), PhD**Deborah Mitchison**, PhD, MClinPsych, MSc, BPsych (Hons)

Centre for Emotional Health, Macquarie University, Sydney, Australia

Jon Mond, PhD, MPH, FAED

Centre for Rural Health, University of Tasmania, Launceston, Australia

Stuart Murray, DClinPsych, PhD

University of California, San Francisco, CA, USA

Scott Griffiths, PhD, BPsych

University of Melbourne, Melbourne, Victoria, Australia

PS2.6.4:**Disordered Eating and Sexual Orientation in Women: A Meta-Analysis****Rachel Bachner-Melman**, PhD, FAED

Ruppin Academic Center, Emek Hefer, Jerusalem, Israel

Aviv Dotan, MA

Ruppin Academic Center, Clinical Psychology Graduate Program, Emek Hefer, Jerusalem, Israel

Sophie Dahlenburg, BPSH

University of South Australia, Adelaide, Australia

PS2.6.5:**Eating Disorder Screening in Gender Nonconforming Adolescents****Jonathan Avila**, MD**Neville Golden**, MD, FAED**Tandy Aye**, MD

Stanford University School of Medicine, Stanford, CA, USA

PS2.6.6:**Predictors of Muscularity-Oriented Disordered Eating: What Roles do Gender, Ethnicity, and Sexual Orientation Play?****Marita Cooper**, MPsyCh (Clinical), PhD Candidate, Psychologist**Kathleen Griffiths**, BSc (Hons), PhD, Emeritus Professor ANU, Australian National University, Acton, Australia*Sutton Place, Lower Level*

Session Co-Chairs:

Elin Lantz Lesser, MS and **Sarah Racine**, PhD**PS2.7.1:****Anorexia Nervosa and Treatment Outcome: The Role of the Neuropsychological and Clinical Characteristics****Elena Tenconi**, Associate Professor**Daniela Degortes**, Clinical Psychologist**Elisa Bonello**, Clinical Psychologist**Paolo Meneguzzo**, MD, PhD Student**Enrico Collantoni**, MD, PhD**Angela Favaro**, Professor, MD, PhD

University of Padova, Padova, Italy

PS2.7.2:**Dating App Use Associated with Elevated Odds of Unhealthy Weight Control Behaviors Among a Sample of U.S. Adults****Alvin Tran**, ScD, MPH**Christian Suharlim**, MD, MPH**Kirsten Davison**, PhD**Madina Agenor**, ScD, MPH**Bryn Austin**, ScD

Harvard T.H. Chan School of Public Health, Boston, MA, USA

PS2.7.3:**Self-Photo Editing and Its Effect on Eating Disorder Risk in College Students****Madeline Wick**, BA**Pamela Keel**, FAED, PhD

Florida State University, Tallahassee, FL, USA

PS2.7.4:**Does Weight History Matter? Understanding the Effects of Weight Suppression by Deconstructing Its Dimensions****Elin Lantz Lesser**, MS**Michael Lowe**, PhD

Drexel University, Philadelphia, PA, USA

PS2.7.5:**How do Argentine Female Adolescents Experience Appearance-Related Teasing? A Qualitative Study**

Leonora Lievendag, CPsychol, PhD Student
Guillermina Rutzstein, PhD, FAED
Universidad de Buenos Aires, Buenos Aires, Argentina

PS2.7.6:**Compulsive Exercise or Exercise Dependence? An Examination of the Associations Between Two Models of Maladaptive Exercise and Eating Disorder Pathology**

Christina Scharmer, BA
State University of New York at Albany, Albany, NY, USA
Sasha Gorrell, PhD
University of California, San Francisco, San Francisco, CA, USA
Katherine Schaumberg, PhD
University of Wisconsin, Madison, Madison, WI, USA
Brittany R Iles, BS
Drew A. Anderson, PhD, FAED
State University of New York at Albany, Albany, NY, USA

Metropolitan Ballroom West, Second Floor

Session Co-Chairs:

Andrea Goldschmidt, PhD, FAED
and Jocelyn Lebow, PhD

PS2.8.1:**A Pilot Project: The Preliminary Efficacy of a Primary Care-Based Treatment for Adolescent Restrictive Eating Disorders**

Jocelyn Lebow, PhD
Angela Mattke, MD
Cassandra Narr, APRN, CNP, MS
Marcie Billings, MD
Matthew Clark, PhD
Leslie Sim, PhD
Mayo Clinic, Rochester, MN, USA
Janna Gewirtz O'Brien, MD
University of Minnesota, Minneapolis, MN, USA
Daniel Le Grange, PhD, FAED
University of California, San Francisco, San Francisco, CA, USA

PS2.8.2:**Effects of Trait-Level Self-Regulation and Reward Sensitivity on Momentary, Naturalistic Eating Behavior in Children and Adolescents with Overweight/Obesity**

Andrea B. Goldschmidt, PhD, FAED
Brown Medical School/The Miriam Hospital, Providence, RI, USA
Kathryn E. Smith, PhD
Scott G. Engel, PhD
Sanford Research, Fargo, ND, USA
Jason M. Lavender, PhD
University of California, San Diego, La Jolla, CA, USA
Alissa Haedt-Matt, PhD
Illinois Institute of Technology, Chicago, IL, USA

PS2.8.3:**Unhealthy Weight Control Behavior among Female High School Adolescents in Addis Ababa, Ethiopia**

Tigest Tuffa, BS in Public Health, MPH
Bilal Shikur, MD, MPH, PhD Candidate
Yalemwork Getnet, MPH
Addis Ababa University, Addis Ababa, Ethiopia
Dawit Shawel, PhD, MPH in Nutrition, Associate Professor
University of Oslo, Oslo, Norway

PS2.8.4:**Can more Young People be 'Happy Being Me'? Testing the Delivery of a Universal Body Satisfaction Program by School Staff**

Catherine Stewart, PhD, DClinPsy
Richard Hall, BSc
Elizabeth Goddard, PhD, DClinPsy
South London and Maudsley NHS Foundation Trust, London, UK

PS2.8.5:**Superior Response Inhibition in Adolescent Anorexia Nervosa: A Potential Mechanism Contributing to Self-Starvation**

Noam Weinbach, PhD
University of Haifa, Haifa, Israel
James Lock, MD, PhD, FAED
Cara Bohon, PhD
Stanford University, Palo Alto, CA, USA

PS2.8.6:**Characterizing Intuitive Eating in a Clinical Sample of Adolescents with Overweight/Obesity**

Sofia Ramalho, Masters in Psychology, PhD
Silvia Félix, Masters in Psychology
Marta de Lourdes, Masters in Psychology
Eva Conceição, Masters in Psychology, PhD
University of Minho, Braga, Portugal

Pedro Saint-Maurice, PhD, Masters in Kinesiology
National Institutes of Health, National Cancer Institute,
Rockville, Portugal

Liberty 3, Third Floor

Session Co-Chairs:

Anna Bardone-Cone, PhD, FAED
and **Kristen Culbert**, PhD

PS2.9.1:

**Eating Disorder Recovery and
Psychiatric Comorbidity in Males**

Anna Bardone-Cone, PhD, FAED
University of North Carolina at Chapel Hill, Chapel Hill, NC, USA

Shelby Johnson, BS
Duke University, Durham, NC, USA

T. J. Raney, PhD
Catalyst Therapeutic Services, Durham, NC, USA

PS2.9.2:

**Preliminary Evidence that Low
Testosterone is Associated with Binge
Eating Symptoms in Young Adult Men**

Kristen Culbert, PhD
University of Nevada, Las Vegas, Las Vegas, NV, USA

Cheryl Sisk, PhD

Kelly Klump, PhD, FAED
Michigan State University, East Lansing, MI, USA

PS2.9.3:

**The College Environment May Not
Exacerbate Young Men's Disordered
Eating Pathology**

Claire Guidinger, BA in Psychology,

Comenzar de Nuevo, Garza García, Nuevo León, Mexico

Rachel Millner, PsyD, CEDS-S

Department of Child and Adolescent Psychiatry and
Behavioral Sciences, Children's Hospital of Philadelphia,
Philadelphia, PA, USA

As the final event of the International Conference on Eating Disorders, the Research-Practice Think Tank provides an opportunity for reflection and discussion of issues that are critical to conference attendees. The Think Tank aims to promote research-practice integration (RPI) in our field. The 2019 Think Tank will focus on implementation science. Implementation science is "the scientific study of methods to promote the systematic uptake of research findings and other evidence-based practices into routine practice, and, hence, to improve the quality and effectiveness of health services" (Bauer, 2015). Specifically, the Think Tank will center around how researchers, clinicians, and consumers can work together to facilitate the uptake of evidence-based practice internationally, in a diversity of settings and with a diversity of people.

Learning Objectives:

- ▶ Define implementation science.
- ▶ Better understand the barriers to the uptake of evidence-based practice.
- ▶ Identify ways to enhance the implementation of one's research throughout the research process.

ICED2019 EXHIBITORS

ACUTE Center for Eating Disorders

Denver, CO 80204
renee.hartmann@ACUTE.org
Admission: 877.ACUTE.4.U or 877.228.8348
www.ACUTE.org

Booth #24

The ACUTE Center for Eating Disorders by Denver Health is the only dedicated medical stabilization program in the country with the resources, environment and experience to treat the most severe cases of eating disorders. ACUTE is a National Center of Excellence housed on a dedicated medical unit at Denver Health Medical Center, a premier med-surgical hospital, where patients benefit from the extensive support of a major-medical hospital while receiving specialized care from ACUTE's team of experienced multi-disciplinary professionals who specialize in providing life-saving eating disorder treatment and are pioneers in offering research and education in the field.

The Alliance for Eating Disorders Awareness, Inc.

West Palm Beach, Florida
info@allianceforeatingdisorders.com
866.662.1235
www.allianceforeatingdisorders.com
www.findedhelp.com

Booth #36

The Alliance for Eating Disorders Awareness is a nonprofit organization providing programs and activities aimed at outreach, education, and early intervention for all eating disorders. We raise awareness, promote access to care, and offer many services for those affected by eating disorders. We provide workshops and presentations, free clinician-led national support groups, referrals, advocacy for eating disorders/mental health legislation, a national toll-free phone help line, and our national interactive site for self-directed treatment search @ www.findedhelp.com. In addition, our Psychological Services Program in West Palm Beach offers lost cost outpatient eating disorder treatment to those demonstrating financial hardship.

Aloria Health

Milwaukee, WI, USA
admissions@aloriahealth.com
www.aloriahealth.com

Booth #29

Using an approach that includes more than treatment, Aloria Health gives people the tools to become their best selves. Aloria provides care for individuals with food and body related issues as well as all eating disorder diagnoses including anorexia, binge eating disorder, body dysmorphia, bulimia, compulsive overeating, orthorexia, and co-occurring issues. Aloria Health is now accepting admissions for residential, partial hospitalization, and intensive outpatient care. Visit aloriahealth.com for more information or call 844-801-9529

Alsana

Thousand Oaks, CA
info@alsana.com
888.822.8938
www.alsana.com

Booth #47

Combining data-driven, evidence-based treatment with a fresh, compassionate approach, Alsana focuses on total health and wellness in recovery from eating disorders and related conditions. A recovery community with five locations nationwide, we provide superior and committed care to help those on their journey to a healthy and successful recovery.

From the Latin roots meaning "all" or "total health," Alsana offers a new philosophy of care centered on our clients' full well-being. We address the aspects of eating disorders that often go untreated in traditional recovery programs.

Our culture is built on servant leadership, which places the client at the center of our model. We also focus on caring for and empowering our teams, so they can equally care for and empower our clients. Our culture creates a working environment of communication, collaboration, compassion and integrity — all of which are necessary to craft unique treatment plans tailored to our clients' needs and outcomes.

ANZEAD

anzaed@anzaed.org.au
www.anzaed.org.au

Booth #A

The Australia & New Zealand Academy for Eating Disorders (ANZAED) is the peak body for eating disorder professionals involved in research, prevention, treatment and advocacy in Australia, New Zealand and beyond. ANZEAD works with partner international organizations, most notably with the international Academy for Eating Disorders (AED) as we join together to co-host the 2020 International Conference on Eating Disorders (ICED) in Sydney, Australia.

Avalon Hills

800.330.0490
www.avalonhills.org

Booth #25

Avalon Hills Eating Disorder Specialists treat adolescent females and adult women in overcoming the full range of eating disorders. Treat to Outcome is at the core of our philosophy, and refers to our commitment to sustainable success post discharge. We help our clients develop new ways of thriving in their lives through a combination of the best, tried-and-true traditional psychotherapies, applied neuroscience, experientially-based interventions, and graded re-entry as they transition.

BALANCE Eating Disorder Treatment Center

balance@balancedtx.com
212.645.6903
www.BALANCEdtx.com

Booth #50

BALANCE is New York City's leading treatment center for eating disorders. BALANCE eating disorder treatment center TM was founded by Melanie Rogers, MS, RDN, CDN, CEDRD, an international eating disorder expert. Staffed by an interdisciplinary team of practitioners, BALANCE serves male and female clients and offers programs that include day treatment, an intensive outpatient program, a weekend program, groups, meal support and nutritional counseling. BALANCE offers an integrative treatment approach based on a nutritional philosophy of intuitive eating. In this way BALANCE helps clients develop a neutral relationship with food while promoting body acceptance and positive self-esteem.

The Cambridge Eating Disorder Center (CEDC)

info@cedcmail.com
888.900.CEDC (2332) or 617.547.2255
www.eatingdisordercenter.org

Booth #20

The Cambridge Eating Disorder Center (CEDC) is among the country's premier eating disorder treatment centers. Located in historic Cambridge, Mass., CEDC's 37-bed residential treatment program accepts gender-identified females into our age-aligned residential programs for those: 12-18 years; 18-25 years; and 25+ years. Three levels of outpatient treatment (PHP, IOP and outpatient) for all genders are available at our Cambridge location and our sister program, CEDC-Concord, New Hampshire. Our Transitional Living apartments in Cambridge help women emerging from inpatient and residential treatment build life skills and self-care in a supportive

environment. Founded by Seda Ebrahimi, PhD, our mission is to provide comprehensive treatment and quality care that leads to full recovery.

Center for Change

888.224.8250
www.centerforchange.com

Booth #28

Center for Change is a place of hope and healing that is committed to helping women and adolescent girls break free and fully recover from their eating disorders. The Center offers intensive treatment for eating disorders and co-occurring issues, including a specialty program for co-occurring diabetes (ED-DMT1), and provides a full continuum of care: Inpatient, Residential, PHP, IOP, and Outpatient services. Accredited by The Joint Commission, AdvancED, and TRICARE® certified.

Center For Discovery

Los Alamitos, CA, USA
800.760.3934
www.CenterForDiscovery.com

Booth #21

Center For Discovery Eating Disorder programs employ an evidence-based, trauma-informed, weight-inclusive treatment approach to address the complex psychological, neurobiological, and medical complications of eating disorders. Using Exposure and Response Prevention (ERP) and Dialectical Behavior Therapy (DBT), multi-disciplinary treatment teams guide clients and families toward recovery.

The Center for Eating Disorders at Sheppard Pratt

Towson, MD 21204
410.427.3886
www.eatingdisorder.org

Booth #13

The Center for Eating Disorders at Sheppard Pratt has been a national leader in the provision of evidenced-based eating disorder treatment for three decades. Our highly-trained, multidisciplinary staff provide specialized care for children, adolescents and adults with all types of eating disorders. The Center's full continuum-of-care includes age-specific Inpatient Programs, Partial Hospital Programs (PHP), Intensive Outpatient Program (IOP), comprehensive outpatient services and free support groups. Research and compassion combine to guide our treatment options which include individual, group and family-based therapies, as well as nutritional counseling, art therapy, occupational therapy and specialized CBT and DBT programming for individuals with dual diagnoses. Most insurance plans accepted.

Children's Hospital Colorado Eating Disorders Program

Aurora, Colorado
www.childrenscolorado.org

Booth #19

Supporting kids and families impacted by disordered eating with inclusive, compassionate, comprehensive care since 1988.

- Innovative integration of evidence-based treatments
- Customized care to meet each family's needs
- Guidance for growth through all levels of care

Columbus Park and My3Square Virtual Meal Support

New York, NY, USA
melissa@columbuspark.com
646.414.1446
www.columbuspark.com
www.my3square.com

Schedule at a Glance sponsor
(no booth)

Columbus Park is New York City's leading outpatient center for eating disorders. They've been providing expert, evidence-based treatment for eating disorders for over a decade. Columbus Park's exceptional outcomes demonstrate that the treatment they offer is high-quality and effective, delivered in the least restrictive setting possible.

My3square is Columbus Park's telehealth platform designed to supplement eating disorder treatment by providing one-on-one or group meal coaching over video. My3Square is accessible, affordable and available nationally for any adult, recovery-oriented outpatient with a smartphone or internet connection.

Eating Disorders Coalition for Research, Policy & Action (EDC)

202.543.9670
www.eatingdisorderscoalition.org

Booth #C

Founded in 2000, the EDC has advanced the recognition of eating disorders as a public health priority by building relationships with Congress, federal agencies and countless national and local organizations dedicated to health issues.

Eating Recovery Center/Insight Behavioral Health Centers

California | Colorado | Illinois | Ohio | South Carolina | Texas | Washington
Misty Bell, Misty.Bell@EatingRecovery.com
303.825.8584
www.eatingrecoverycenter.com

Booths #6 & #8

Eating Recovery Center (ERC)/Insight Behavioral Health Centers (Insight) is the only national, vertically integrated, health care system dedicated to the treatment of serious eating and related disorders at any stage of illness. ERC Insight offers best-in-class treatment programs for all patients, no matter their age or gender, struggling from: anorexia, bulimia, binge eating disorder, eating and weight disorder, unspecified eating disorders, as well as comorbid, co-occurring, dual diagnoses, mood, anxiety and trauma-related disorders.

EDCare

866.771.0861
www.eatingdisorder.care

Booth #45

EDCare is one of the nation's foremost centers for the diagnosis and treatment of eating disorders. Our multidisciplinary team of board-certified experts work together to ensure all patients receive individualized care for anorexia, bulimia, binge eating, and other related disorders. Our evidence-based treatment model empowers patients, while giving them the tools they need to maintain long-term recovery success. Our centers are located in Colorado, Kansas, and Nebraska - offering PHP, IOP, EIOP and OP levels care. We accept most major insurances and offer PHP housing in Denver and Kansas City.

Free, confidential assessments are available, call 866-771-0861 or visit us online at www.eatingdisorder.care.

Edward-Elmhurst Health

Naperville, IL, USA
www.eehealth.org

Booth #27

Edward-Elmhurst Health provides comprehensive health-care at over 100 locations in the suburbs of Chicago. Our three hospitals are highly regarded for clinical excellence and patient-centered compassionate care. Our success has always been — and always will be — driven by our most talented, reliable, compassionate and skilled people, who

genuinely believe in delivering top quality care to our patients and their families. At Edward-Elmhurst Health, you will also experience a vibrant culture and an atmosphere of nurturing support and leadership.

Fairhaven Treatment Center

Memphis, TN, USA
Tom McCann, tsmccann@fairhav-entc.com
www.fairhaventc.com

Booth #44

Fairhaven is a Residential and Outpatient Treatment Center that provides adolescent girls and adult women with an opportunity for life-long recovery from eating disorders and disordered eating. We believe in a compassionate and client-centered approach based on proven treatment interventions within a model that provides continuity of care between residential and outpatient levels of care.

We offer hope and compassion, especially for women who have experienced one or more eating disorder relapses, addiction treatment, attachment trauma treatment and other related interventions. We use evidence-based therapy for eating disorder symptoms and co-occurring problems such as post-traumatic stress disorder (PTSD), trauma and attachment disorder, or a history of addiction or substance use disorder, as well as other challenges that contribute to and perpetuate the disorder.

F·E·A·S·T

F.E.A.S.T. (Families Empowered and Supporting Treatment of Eating Disorders)

Warrenton, Virginia, USA
info@feast-ed.org
855.50.FEAST
www.feast-ed.org

Stop by the Monterrey, Mexico CVB and Cintermex booth to begin planning for ICED 2021.

Morgan Foundation

Dallas, TX, USA
214.692.5533
www.TheMorganFoundation.org

Booth #31

The Morgan Foundation is named for Morgan Claire Dunn. In the last 7 years of her 23 years of life, Morgan battled various eating disorders. She was gravely ill a number of times. And yet, the fight remained within her ... not just for herself, but for others.

Morgan was one of those rare souls who brightened everyone's day – and fought to help others, even when she could not help herself. In one of her journals, she wrote, "I can help so many others, I just can't seem to be able to save myself."

There exists a crucial need for increased medical research of the biological genesis of eating disorders and then effectively treating those causes. To this end, the Foundation intends through marketing, advertising and fundraising, mainly in the private sector, to raise grant funding for this research.

National Center of Excellence for Eating Disorders (NCEED)

Chapel Hill, NC, USA
Nceed.us@gmail.com
919.695.3860
www.nceedus.org

Booth #15

Founded in 2018 by the Substance Abuse and Mental Health Services Administration, the National Center of Excellence for Eating Disorders (NCEED) is the nation's first center of excellence dedicated to eating disorders. Based at the University of North Carolina at Chapel Hill, NCEED includes clinicians, researchers, and advocates who specialize in eating disorder care. We are committed to providing up-to-date, reliable, and evidence-based information.

Our mission: To advance education and training of healthcare providers and promote public awareness of eating disorders and treatment.

Our goal: To ensure that all individuals with eating disorders are identified, treated, and supported in recovery.

National Eating Disorders Association (NEDA)

www.nationaleatingdisorders.org

Booth #34

NEDA supports individuals and families affected by eating disorders, and serves as a catalyst for prevention, cures, and access to quality care. NEDA's Feeding Hope Fund for Clinical Research and Training raises money to advance the field of eating disorders and awards grants towards research and training.

The Pediatric Eating Disorders Center at Atlantic Health System

Meghan.Feehan@atlanticealth.org
908.522.4866

Booth #35

The Pediatric Eating Disorders Center at Atlantic Health System focuses on outpatient care so that patients can remain close to home and their families can fully participate in the recovery process. Treatment typically includes medical monitoring, nutritional counseling, psychiatric and psychosocial consultations and therapy, and Family-Based Treatment. We also offer services for patients and families who may need more intensive treatments to manage an eating disorder, which include child and adolescent partial hospitalization programs and intensive outpatient programs. Our center, located in Summit, NJ, is the only one in the state that is exclusive to children ages 8 to 12 and adolescents ages 13 to 21 and includes parents in all aspects of care from the earliest stages of diagnosis through treatment. Our multidisciplinary program's team of health care professionals are specially trained in providing comprehensive assessments and treatments for eating disorders and related problems. In addition, most of our therapists are certified in Family-Based Treatment.

Penn Medicine Princeton Center for Eating Disorders

609.853.7575 or 877.932.8935
Princetonhcs.org/eatingdisorders

Booth #46

Nationally known, Penn Medicine Princeton Center for Eating Disorders provides inpatient treatment for adults, adolescents, and children as young as eight years old who are suffering from eating disorders. We provide the foundation for recovery by combining psychosocial treatment, nutritional support, family involvement and the latest advances in clinical care – together with an atmosphere of understanding, safety, respect

and support. Patients and families benefit from our ability to address eating disorders in those with additional medical complications, and to treat individuals who have extremely low body weight. Princeton Center for Eating Disorders welcomes patients of all genders.

Reasons Eating Disorder Center

844.573.2766
Reasonsedc.com

Booth #41

Reasons Eating Disorder Center is an innovative program founded on the belief that healing is a fundamental aspect of eating disorder treatment. We believe that eating disorders are rooted in and driven by anxiety and profound disruptions to the sufferers' sense of self. We offer our patients hope rooted in the belief that they are capable of living an authentic life of meaning and connectedness. Our goal is to create a culture that nurtures the integration of body and mind through the daily practice and continual reinforcing of the balancing ideas of Doing and Being.

Recovery Record

650.404.7098
