CENTERS

RESIDENTIAL, PARTIAL HOSPITALIZATION, AND INTENSIVE OUTPATIENT
TREATMENT PROGRAMS FOR WOMEN WITH EATING DISORDERS

We at Oliver-Pyatt Centers strive to genuinely connect with each individual, to address the core issues driving the eating disorder, and to provide the tools needed to live a meaningful life, free from food and weight preoccupation. Our treatment for anorexia, bulimia, binge eating disorders, and exercise addiction is therapeutically grounded, and incorporates state of the art approaches, research, outcome data, and up-to-date medical knowledge. Our innovative protocols are based on a thorough understanding of eating disorders and the unique experience of each person affected by one.

We believe that daily individual psychotherapy is the cornerstone of effective eating disorder treatment. Our comprehensive, naturalistic, and highly individualized approach to treatment is provided in an intimate environment with a high staff-to-client ratio.

Expert care. Lasting recovery.

Dear Colleagues, Welcome to the 2011 ICED and to Miami!

It is with great pleasure that I welcome you all to the 2011 ICED, "The Complexity of Eating Disorders: Many Perspectives, One Shared Goal." The AED is excited to be hosting the ICED in Miami, a dynamic and cosmopolitan city with beautiful beaches, great outdoor activities and diverse cultures. Miami promises to be an exciting backdrop for the 2011 ICED.

The ICED is the primary gathering place for professionals and advocates who are engaged in the research, treatment and prevention of eating disorders. Conference co-chairs Jacqueline C. Carter, PhD, FAED, and Drew Anderson, PhD; the 2011 Program Committee; Anna Keski-Rahkonen, MD, PhD, director of the Annual Meeting Portfolio; and our AED central office team have created an outstanding program. Congratulations on putting together a fantastic conference!

The conference will commence with a keynote address, "The Diagnosis of Eating Disorders: The Good, the Bad, and DSM-V," given by our esteemed colleague, B. Timothy Walsh, MD, Ruane Professor of Pediatric Psychopharmacology in the Department of Psychiatry at the College of Physicians & Surgeons, Columbia University; and director of the Division of Clinical Therapeutics at New York State Psychiatric Institute. Dr. Walsh is an excellent and insightful speaker whose experience as a member of the DSM-V Task Force and as the chair of the Eating Disorders Workgroup for the DSM-V will set the stage for a conference filled with exciting new information on eating disorder research, treatment and prevention.

Each day is filled with a broad array of invited and original scientific paper presentations, special interest groups, workshops and discussions. On Wednesday, we will feature our AED/EDRS/NIMH Research Teaching Day. Congratulations to Cindy Bulik and Ruth Striegel-Moore on the 10th anniversary of this very successful program! Over the past decade, this program has supported the attendance of more than 130 early career scholars at the ICED, many of whom have initiated independent research programs and now are mentoring the next generation of eating disorder scholars. This will be followed by Clinical Teaching Day, which consists of five excellent how-to workshops led by expert speakers designed to increase participants' knowledge and clinical skills. Special highlights include four outstanding plenary sessions: (i) New Treatment Research on Eating Disorders, (ii) Is Food Rewarding for People with Eating Disorders?, (iii) "Growing Up": An Update on Adolescent Eating, and (iv) Weight Disorders and Public Policy Approaches to Eating Disorder and Obesity Prevention: Global Perspectives. In addition, we have the Meet the Experts Session, the Sisterhood Committee Meeting and the Global Think Tank Session V: Adventures in Knowledge Transfer. The awards ceremony will take place on Saturday during the business meeting, during which we will honor our research and clinical scholarship recipients, our new class of AED Fellows and the recipients of our AED leadership awards. Please join our AED colleagues and me in honoring the contributions of the 2011 award recipients.

We have a range of social activities that will make the most of your time in Miami. Our opening reception for all attendees will be held on Wednesday, April 27, at 5 p.m. This is a wonderful opportunity to meet new people and connect with old friends. This year, we also have a very special fundraising event that will take place on Friday, April 29, from 6:30 to 8 p.m. This AED fundraiser will celebrate the official book launch of Aimee Liu's new book, *Restoring Our Bodies, Reclaiming Our Lives*. Aimee's book is an anthology of letters about recovery. All proceeds from the event and royalties from the book sales will be donated to the AED. This is an event not to be missed! Please do not forget the closing social event on Saturday evening, featuring good food, great friends and lots of dancing!

The excellent program and special social events provide an opportunity for attendees from all areas in the field of eating disorders to collaborate, exchange findings and share ideas with colleagues from around the world.

The AED has taken the first step in transitioning to an almost paper-free program book. Consequently, we printed only enough copies for those attending the meeting. In addition, abstracts can be accessed online before, during or after the conference. This will not only benefit our environment through reduced use of paper and mailing — it will also be far less costly and more in line with AED's efforts to "go green." We thank all of you for helping us make this transition.

In conclusion, I want to express a sincere thank you to everyone who volunteers their time and energy to the numerous activities at the AED. Thank you to the sponsors and donors who have made possible our conference scholarships and a wide range of conference activities. I want to thank our committees and task forces whose passion and dedication are unrivaled. The work you do makes a difference in the lives of our patients, their carers and their families. I would like to extend my warmest thanks and deepest gratitude to the most dedicated board of directors, who coordinate and oversee all of AED's activities: Susan Paxton (immediate past president), Anne Becker (president-elect), Dasha Nicholls (secretary), Pam Keel (treasurer), Debbie Franko (director for print media), Anna Keski-Rahkonen (director of annual meeting), Steffi Bauer (director of public education and advocacy), Becca Ringham (director of electronic media), Eva Maria Trujillo (director of membership) and Glenn Waller (director of professional development). A big thanks goes out to our dedicated AED staff team, led by Debbie Trueblood.

Finally, I want to thank the members of the AED for their support, dedication and friendship.

Welcome and enjoy the 2011 ICED!

Academy for Eating Disorders

About the Academy for Eating Disorders

The Academy for Eating Disorders (AED) is an international, transdisciplinary non-profit membership organization for professionals and advocates engaged in research, treatment and prevention of eating disorders. The Academy is home to more than 1,400 members. Approximately 25 percent of these professionals reside outside of the United States.

AED provides members and the field at large with a variety of services, resources and educational programs, including the invaluable support of a community of dedicated colleagues.

Since the organization was founded in 1994, the International Conference on Eating Disorders (ICED) has been AED's flagship activity and the highlight of the AED year. The ICED is the primary gathering place for professionals and advocates engaged in research, treatment and prevention of eating disorders. Each year, ICED attendees, faculty, supporters and exhibitors create a unique, inspiring and intensive environment for education, training, collaboration and dialogue.

Eating disorders are characterized by a persistent pattern of aberrant eating or dieting behavior. These patterns of eating behavior are associated with significant emotional, physical and relational distress.

Specific Goals of the Academy for Eating Disorders

The AED has established specific goals in the understanding and treatment of eating disorders, with a mission to:

- Promote the effective treatment and care of patients with eating disorders and associated disorders
- Develop and advance initiatives for the prevention of eating disorders
- Disseminate knowledge regarding eating disorders to members of the Academy, other professionals and the general public
- Stimulate and support research in the field
- Promote multidisciplinary expertise within the Academy's membership
- Advocate for the field on behalf of patients, the public and eating disorder professionals
- Assist in the development of guidelines for training, practice and professional conduct within the field
- Identify and reward outstanding achievement and service in the field

Continuing Education Credit

Meeting Objectives

As a result of this meeting, participants will be able to:

- Describe the results of new psychological treatment studies on the full spectrum of eating disorders – binge eating disorder, bulimia nervosa and anorexia nervosa – and understand the clinical implications of the findings.
- Identify risk factors for the development of adolescent weight and shape concern, describe the long-term outcome of adolescent eating disorders across the weight spectrum and explain recent prevention and treatment efforts targeting adolescents.
- Assess the clinical relevance of new findings from recent neuroimaging studies on elements of reward circuitry across the full spectrum of eating and weight disorders.
- Discuss public policy initiatives emerging globally to prevent eating disorders and identify possible ways to implement prevention efforts in the public policy arena.

Nursing: The Institute for Continuing Education is an approved provider of continuing education in nursing by the California Board of Nursing (Provider CEP 12646). Nurses are responsible for contacting their state board to determine if credit issued through an approved provider of the California Board of Nursing is accepted by their state board.

CE Disclaimer: It is the responsibility of the attendee to check with their state licensing/certification board to determine whether continuing education credit offered by The Institute for Continuing Education will meet their state's regulations.

Additional Accreditations

These additional accreditations may also be available, although they do not fall under the umbrella of credits offered by The Institute for Continuing Education:

Dietitians: This program has been approved by the Commission on Dietetic Registration for 19.50 CPEUs. To receive a certificate to submit to the Commission on Dietary Registration, please contact emoy@aedweb.org

Continuing Education Registration and Requirements

A certificate fee of \$30 for members and \$45 for nonmembers is required. Check the appropriate box on the registration form. You also may pay onsite. However, you may not register for credits after May 28, 2011. Credit is awarded on a session-by-session basis, with full attendance required at each session. One certificate will be issued for all activities attended.

IMPORTANT! To receive continuing education credit, attendees must:

- Pay the fee (\$30 members/\$45 nonmembers)
- Sign in and sign out at designated locations
- Complete and return the continuing education evaluation packet

Please Note:

- State licensing bureaus and/or professional associations have their own requirements for licensing, certification and/or recertification. Individuals should contact their state licensing bureaus or professional associations regarding the applicability of the continuing education for their own professional needs.
- Learning objectives and the presentation level for all educational sessions will be available on the AED website several months prior to the conference.
- The following activities do not qualify for continuing education credits: poster sessions, committee meetings, Welcome and Conference Goals, SIG meetings, Student/Early Career Investigator Travel Fellowship Awards, Meet the Experts, World Summit Session, exhibits and any other non-scientific session.

Full Disclosure Policy Affecting CME Activities

As a provider accredited by the Accreditation Council for Continuing Medical Education (ACCME), it is the policy of the Boston University School of Medicine to require the disclosure of the existence of any financial interest or any other relationship that a faculty member, scientific program committee member or their families have with the manufacturer(s) of any commercial products or services discussed in an educational presentation. The 2011 ICED presenters and program committee members reported the following:

It is understood that presentations must give a balanced view of therapeutic options. Faculty use of generic names will contribute to this impartiality. The speaker will make every effort to ensure that data regarding the company's products (or competing products) are objectively selected and presented, with balanced discussion of prevailing information on the product(s) and/or alternative treatments. The speaker must also make the audience aware of any off-label or investigational uses described for any medication discussed.

Saturday, April 30

7 – 10 a.m. Viewing
10 a.m. – Noon Dismantle

Presenters are responsible for dismantling posters. Posters left behind at the close of the dismantling period will be disposed of and are not the responsibility of AED or the hotel.

Message Board

A message board is available in the registration area during the registration hours. Check the board frequently. There will be no paging during the conference. To contact the Message Center, call the InterContinental Miami at +1-305-577-1000 and ask to be transferred to the AED registration desk.

Meeting Evaluation

The ICED Scientific Program Committee needs your input to enhance future AED meetings. You will receive an online meeting evaluation via e-mail shortly after the 2011 conference. AED greatly appreciates your input.

Special Needs

Notify AED staff members of any special needs by visiting the AED registration desk.

Questions

If you have questions regarding the program or registration, visit the AED registration desk.

Meet the Experts Session

Friday, April 29, 8:30 – 10 a.m.

Sevilla Room

Do you have specific questions that you would like to discuss with established experts in your field? Are you looking for consultation on clinical cases, practice issues or ethical dilemmas? Are you interested in developing or evaluating an intervention to treat or prevent eating disorders? Do you want advice on writing a grant application or publishing your work? The Meet the Experts Session offers an opportunity for informal discussions on these topics. Attendance is limited, so sign up early. In order to attend this session, we ask that you sign up at the Meet the Experts table, located in the AED registration area, Second Floor. Please sign up for this event by Thursday at 4:30 p.m. or as long as space is available. Submit your questions for the experts. If you have a specific question to be addressed by experts, complete a Meet the Experts Question Form at the Meet the Experts table and deposit it in the basket on the table. Questions will be reviewed by the experts prior to Friday's session.

AED Says Thank You for Donations to the Scholarship Campaign and General Fund

AED thanks members and friends who have made contributions to the Scholarship Campaign and the General Fund. The Scholarship Campaign provides funding to sponsor the research and clinician scholarships for the 2011 ICED. The General Fund provides essential support to AED educational, research, clinical and outreach programs. Thank you to all who have so graciously contributed. Special thanks to the Warschefskys and participants of the Combined Federal Campaign Program.
