President's Welcome

Dear Colleagues, Welcome

Welcome to the 2014 International Conference on Eating Disorders in New York City. This year's theme, "Coming of Age as a Global Field," is intended to spur reflection on the progress we have made as a field of eating disorder professionals since the founding of the Academy for Eating Disorders 21 years ago. New York makes a perfect city for this enterprise because this city provided a home for the International Conference on Eating Disorders, every two years, for the AED's early meetings (see Message from the President in this month's issue of the AED Forum). In addition, in the United States, a 21st birthday holds particular cultural significance as it demarcates the age at which one is legally permitted to drink alcohol, implying that 21 years is sufficient to ensure a maturity that may be acknowledged by both greater opportunities and responsibility. This provides a useful framework for considering where we are as a field as we benefit from greater opportunities to improve understanding, prevention, and treatment of eating disorders as well as greater responsibility to commit to best practices in each of these important domains. Our annual ICED provides a unique time and place when we come together as colleagues and friends to explore these opportunities to continue an ongoing process of preparation to undertake our responsibilities as eating disorder professionals throughout the rest of the year.

On Wednesday, the afternoon before the official beginning of the ICED, we have the Clinical Teaching Day and Research Training Day workshops to provide four hour sessions dedicated to a range of topics that integrate research and practice. This year our topics include: 1) Cognitive Remediation Therapy in Eating Disorders by Kate Tchanturia; 2) Using a System of Evidenced Based Techniques and Collaborative Clinical Interventions with Chronically Ill Patients by Lucene Wisniewski and Patricia Fallon; 3) Medical Complications of Anorexia Nervosa and Bulimia and their Treatment: Case-Based Reviews by Philip Mehler; 4) Neuroscience of Clinicians: Who's Who and What's What by Bryan Lask and Ian Frampton; 5) Family Based Treatment in Anorexia Nervosa by Daniel le Grange and James Lock; and 6) Conducting Quantitative Eating Disorder Research: From Planning to Publication by Ross Crosby and Stephen Wonderlich. Across these topics and speakers, I am struck by the comprehensiveness nature of issues covered – ranging from quantitative approaches and neuroscience and innovative interventions that emerge from scientific advances in our understanding of eating disorders to medical and clinical management of complex illnesses for which we still have so much to learn. These workshops provide attendees with opportunities to train with leading experts in our field

and to meet others who share common interests and face similar challenges. Thus, if you did not register for one of the Clinical Teaching or Research Training Day workshops this year, I hope that you will consider these next year, as they provide a wonderful opportunity for professional development.

This year, we have taken advantage of the location of our meeting to engage Frank Bruni, journalist for the New York Times and best-selling author of *Born Round: A Story of Family, Food and a Ferocious Appetite*, to present our keynote address, “In the Belly of the Beast: What Happens and What’s Learned When a Food Addict Makes Food His Profession.” Bruni will present his experiences with a love of food born of nature and nurture, living in a body that did not conform to societal ideals, and the eating disorder that developed in the wake of these and other influences. According to the New York Times book review by Browning (2009), Bruni’s tale is “an endearing, heartfelt narrative,” “breathtaking,” and “at times, very funny.” And, as aptly observed in this review, Bruni’s story captures a basic truth, “Food drives lots of people crazy, in lots of different ways” (Browning, 2009). As is fitting for the centerpiece of the ICED, the keynote address is placed in the center of the program, on the second day of our three-day meeting, amidst a bounty of plenaries, workshops, scientific paper and poster presentations, and special interest group sessions. Among these, there are many wonderful opportunities to share knowledge, promote understanding, and build capacity for research-practice integration in both the current and future generation of eating disorder professionals. In addition, our meeting offers a multitude of opportunities to reconnect with friends and colleagues and make new acquaintances during our Welcome Reception, which includes one of our scientific poster sessions on Thursday evening, our Mentor/Mentee meeting during breakfast on Friday morning, and our Meet the Experts reception on Friday evening. Although food may drive lots of people crazy in lots of different ways, food plays a pivotal role in bringing people together, and these receptions allow attendees to come together to talk and eat and drink. On Saturday, the AED will hold its Awards Ceremony and Business Meeting. We understand that, for many, this represents an excellent opportunity to go out and explore the wonderful city in which this meeting is being held, and situating our conference in Times Square creates an unfair competition between our conference program and all that there is to see and do in The Big Apple. However, for those who wonder about how the AED works, what we do, and why we do it, this session is an excellent opportunity to get answers to all of these questions. Indeed, the Awards Ceremony is nothing short of inspiring as the contributions and accomplishments

of our colleagues ranging from our junior investigator and clinician travel award recipients to our Lifetime Achievement Award honoree are shared.

The capstone session of our meeting is our annual Research-Practice Think Tank, “Reflections from Improving Lives Through Research, Education, Treatment and Prevention for 21 Years.” Panelists include Ivan Eisler of the United Kingdom, Phillipa Hay of Australia, as well as Jennifer Thomas and Keesha Broome of the United States. Similar to our Think Tank sessions in Austin and Montreal, panelists will moderate discussions among attendees who may share comments during open floor discussion as well as via Twitter, from which tweets will be projected onto the screen in real time. This engaging format utilizes active participation to facilitate recognition of diverse views as this is a necessary step in developing consensus on our goals and aspirations, our opportunities, and our responsibilities as a profession. As in past years, session’s discussions promote consolidation of the array of information presented through the meeting to the most basic question we all face, “How do we make a difference in the lives of those suffering from eating disorders?”

Finally, our meeting will end with our Closing Social Event to which all attendees registered for the full conference or for Saturday’s session are welcome to attend. As a researcher, I know that I am supposed to most value the science of the meeting. But every year before I leave for the ICED, I am completely candid with my colleagues and friends that what I am most looking forward to is the dancing on Saturday night. Few things capture the spirit, energy, and camaraderie of the AED as well as the rush of people onto the dance floor when the DJ plays the first song. I always enjoy the look of surprise and appreciation on the DJ’s face as he realizes that he’s not going to have to cajole a stodgy group of conference attendees to get up and dance and instead is going to be cajoled into playing well past the official end time of the event because attendees are not ready to leave the dance floor. Beyond the connections made during the formal sessions of the meeting, the exchanges that occur over coffee breaks, dinner, and while dancing bring the meeting and the friendships formed through this meeting to life. Thus, I will end my welcome to the 2014 ICED with an invitation to come dance with me on Saturday night.

Yours,

Pamela K. Keel, PhD, FAED

About the Academy for Eating Disorders

The Academy for Eating Disorders (AED) is a global professional association committed to leadership in eating disorders research, education, treatment and prevention. Our international, transdisciplinary, nonprofit membership organization includes more than 1600 members worldwide, working to prevent and treat eating disorders, such as anorexia nervosa, bulimia nervosa and binge eating disorder.

AED's membership is comprised of high-level professionals and students working and studying in universities, hospitals, research centers and treatment facilities. Membership is divided equally between researchers and clinicians. Approximately 29% of these professional members reside outside of the United States, representing 45 different countries.

AED provides members and the field at large with a variety of services, resources and educational programs, including the invaluable support of a community of dedicated colleagues.

Since the organization was founded in 1993, the International Conference on Eating Disorders (ICED) has been AED's flagship activity and the highlight of the AED year. The ICED is the primary gathering place for professionals and advocates engaged in research, treatment and prevention of eating disorders. Each year, ICED attendees, faculty, supporters and exhibitors create a unique, inspiring and intense environment for education, training, collaboration and dialogue.

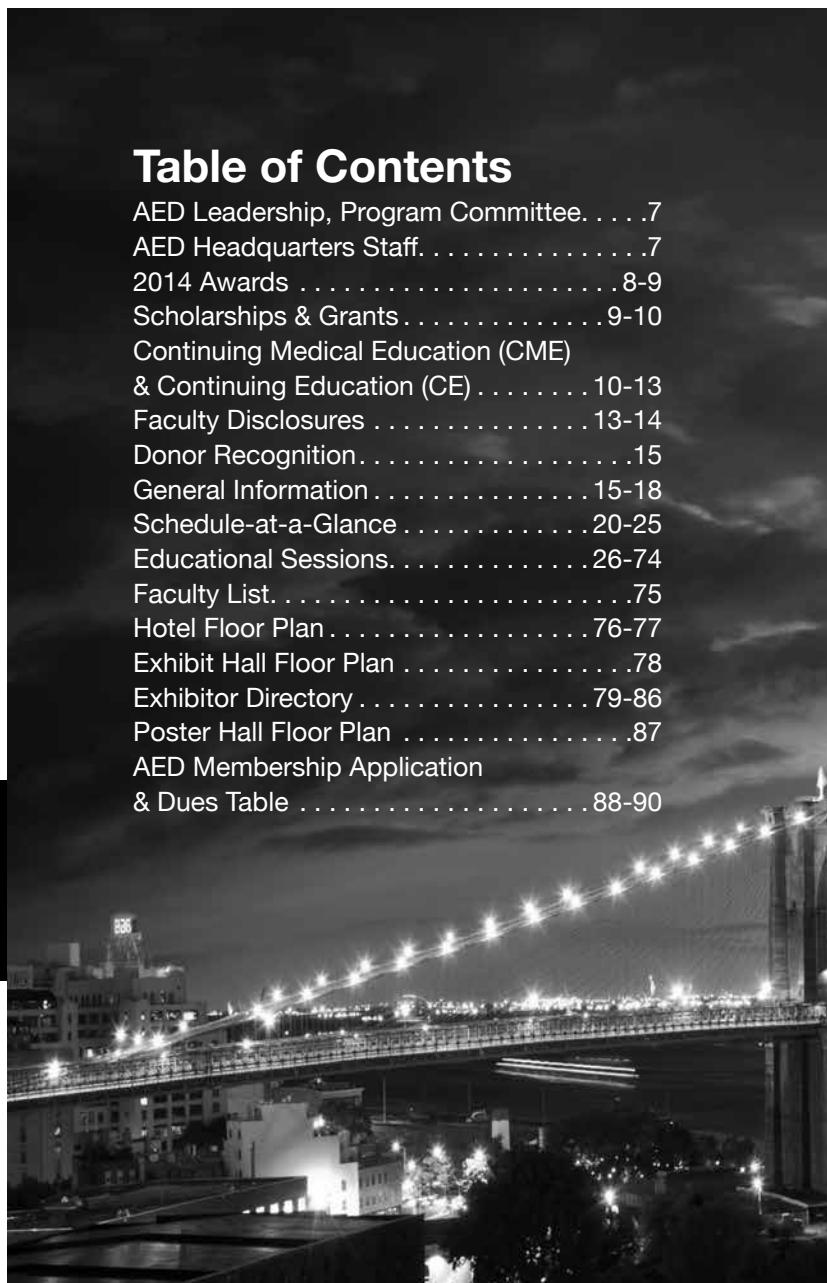

AED Members are Located in 47 Countries Across 6 Continents

Specific Goals of the Academy for Eating Disorders

- Generate knowledge and integrate collective expertise about eating disorders.
- Provide platforms for the promotion of understanding, sharing of knowledge, and research-practice integration in the field of eating disorders.
- Build capacity in the next generation of eating disorder professionals.
- Foster innovation and best practice by recognizing excellence in the field of eating disorders.

AED Early Career Investigator Travel Scholarship

Thanks to the generosity of AED members, AED is able to offer the AED Early Career Investigator Travel Scholarships. Eligible recipients are AED members who currently are in training or less than three years out of training. Additionally, eligibility requires evidence of academic excellence. These awards support attendance at the AED International Conference on Eating Disorders.

The 2014 AED Student/Early Career Investigator Travel Scholarship recipients are:

Valentia Cardi, PhD, United Kingdom
Adrienne Juarascio, PhD, USA
Jason Lavender, PhD, USA
Katie Loth, RD, MPH, USA

AED Clinician Scholarship

AED is pleased to provide scholarships to support conference attendance to AED members who are clinical scholars from around the world.

The 2014 Clinician Scholarship recipients are:

Gloria Dada Sánchez, MSc, MA, El Salvador
Maria Isabel Gaete, PhD(c), Chile
Louise Karlsson, MSc, Sweden
Jessica Podkowka, DClinPsych, MSc, Australia

AED Student Research Grant

This award is to support innovative and cutting-edge research conducted by student members of AED.

The 2014 Research Grant recipients are:

Lindsay Bodell, MS, USA
Anna Vannucci, MS, USA

AED TJ's Fund for Biological Research of Eating Disorders Grant

TJ's Fund is named in honor of Thomas Lee Warschefsky. TJ's family developed *TJ's Fund* to promote a search for a cure through biological research related to the cause and/or treatment of eating disorders. TJ's family developed TJ's Fund to support biological research in anorexia nervosa or bulimia nervosa. TJ's Fund is dedicated to understanding the biological bases and treatment of eating disorders and improving the lives of its sufferers.

The recipient of the 2014 TJ's Fund for Biological Research of Eating Disorders is:

Cynthia Bulik, PhD, FAED, USA

ANZAED / AED Young Investigator Travel Scholarship

The ANZAED/AED Young Investigator Travel Scholarship is a joint initiative between the sister organizations to encourage Antipodeans early in their research career to present their work at the ICED.

The 2014 ANZAED/AED Young Investigator Travel Scholarship recipient is:

Lisa Dawson, BA, GradDipSc(Psych), Australia

John H. Sayler Memorial Scholarship

This program is named in honor of AED Past President Judith Banker's late husband, John H. Sayler, who demonstrated unflagging support of her involvement in the AED and her commitment to the Academy's professional scholarship program and global education and training programs integrating research and practice.

The 2014 John H. Sayler Memorial Scholarship recipients are:

Tiffany Brown, MS, USA

Sarah Forsberg, MS, USA

Allison Grupski, PhD, USA

Ali Henderson, MSW, Canada

Emily Pisetsky, PhD, USA

Maria Angélica Soto Garay, MS, Chile

Annual Early Career Investigator Award for Best Paper Published in 2013

This award is presented by The International Journal of Eating Disorders and Wiley to the best paper by a young investigator published in the journal each year. Candidates must not be more than five years post-advanced degree, or five years post-residency or fellowship training.

Best Paper by an Early Career Investigator in 2013:

Jocelyn Lebow, PhD, USA

The Effect of Atypical Antipsychotic Medications in Individuals with Anorexia Nervosa: A Systematic Review and Meta-Analysis

Outstanding Scientific Contribution in 2013:

Incorporating Dimensions into the Classification of Eating Disorders: Three Models and Their Implications for Research and Clinical Practice

Continuing Education

Meeting Objectives

As a result of this meeting, participants will be able to:

- Identify neurobiological, cultural and psychological processes that are common to both eating disorders and obesity.
- Describe novel treatment approaches for eating disorders and how they can improve the care of patients of the eating disorders.
- Evaluate the positive and negative influences of social media and related technologies on the etiology and treatment of patients with eating disorders.
- Discuss risk factors for eating disorders within a culturally-sensitive context and appreciate the need for culturally appropriate, evidence-based treatment development and dissemination.

Educational Need

The goal of the conference is to assist in closing the gap between research evidence and clinical practice, by informing clinicians about recent evidence and informing researchers about clinical innovations that could lead to enhanced research in the field. In particular, issues of clinical-research interface will be addressed in the sociocultural, treatment and biological domains. Many clinicians are unaware of the breadth and depth of the recent literature in this field. Consequently, the clinicians who attend this meeting will receive the necessary updates to enable them to improve their knowledge and practice in a wide range of areas of practice with this clinical population.

Continuing Medical Education

Physicians – CME

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of Boston University School of Medicine and the Academy for Eating Disorders. Boston University School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation

Boston University School of Medicine designates this live activity for a maximum of 27.5 *AMA PRA Category 1 Credits*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

CME credit hours = up to 27.5
(includes author attended poster presentations)

CE contact hours = up to 23.5

CE Disclaimer: It is the responsibility of the attendee to check with their state licensing/certification board to determine if continuing education credit offered by The Institute for Continuing Education will meet their state's regulations.

IMPORTANT!

To receive continuing education credit, attendees must:

- Pay the fee (\$30 members/\$45 non-members)
- CE applicants must Sign In and Sign Out at designated locations daily
- Complete and return the continuing education application and evaluation packet

Notes:

State licensing bureaus and/or professional associations have their own requirements for licensing, certification and/or recertification. Individuals should contact their state licensing bureaus or professional associations regarding the applicability of the continuing education for their own professional needs.

Learning objectives and the presentation level for all educational sessions will be available on the AED website several months prior to the conference.

The following activities **do not qualify for continuing education (CE) credits:** Poster Sessions*, Committee Meetings, Welcome and Conference Goals, SIG Annual Meetings, Meet the Experts, Annual Business Meeting, Awards Ceremony, Exhibits and any other non-scientific sessions.

** Only author attended poster sessions are eligible for CME credit.*

Continuing Education Registration and Require

A certificate fee of \$30 for members and \$45 for non-members is required. Check the appropriate box on the registration form. You may also pay onsite. However, you may not register for credits after April 15, 2014. Credit is awarded on a session-by-session basis, with full attendance required at each session. One certificate will be issued for all activities attended

Full Disclosure Policy Affecting CME Activities

Boston University School of Medicine asks all individuals involved in the development and presentation of Continuing Medical Education (CME) activities to disclose all relationships with commercial interests. This information is disclosed to CME activity participants. Boston University School of Medicine has procedures to resolve any apparent conflicts of interest. In addition, faculty members are asked to disclose when any unapproved use of pharmaceuticals and devices is being discussed.

It is understood that presentations must give a balanced view of therapeutic options. Faculty use of generic names will contribute to this impartiality. The speaker will make every effort to ensure that data regarding the company's products (or competing products) are objectively selected and presented, with balanced discussion of prevailing information on the product(s) and/or alternative treatments.

Tregarthen	Jenna	Recovery Record delivers cognitive behavioral therapy and self-monitoring methods for the treatment of eating disorders in an engaging way on mobile devices for patients and treatment providers. The service has not been investigated with an independent clinical trial, however does comply with HIPAA and High Tech security regulations and is based on evidence-based treatment approaches. In this presentation, a clinical case study of the technology will be explored and anecdotal findings presented. De-identified utilization data will also be presented to illuminate relevant trends (in accordance with the Recovery Record Privacy Policy: https://www.recoveryrecord.com/landing/privacy_policy)

Special Interest Groups (SIGs)

All are invited to attend any of the SIG Annual Meetings or SIG Panels. Please see the Schedule-At-A-Glance or the Educational Session section for complete details. This year, SIG meeting participants will receive quick and easy-to-find lunch options within steps of the Sheraton New York Times Square Hotel. By working with the NYC tourism bureau, the AED will provide attendees “NYC Cheap Eats” suggestions to allow attendees to step outside for some NYC excitement within a block or two of the ICED conference hotel. Box lunches will not be offered this year.

Committee Meeting Rooms

Committee meeting rooms are available for committee or small group meeting at designated times during the conference. Attendees can reserve meeting times by using the sign-up sheet outside the following meeting room; Conference Room H, I, J on the Conference Center floor and Carnegie West on the third floor.

ICED Conference Recordings

Cannot figure out how to be in two places at once?
Want to bring the ICED back to your institution?
Problem solved by visiting the sales desk in the registration area to purchase a DVD-ROM/CD's of the conference sessions from IntelliQuest Media. Discounts will be extended for onsite orders. You may contact them at +1-866-651-2586 or visit www.intelliquestmedia.com.

AED Bookseller

Mental Health Resources offers a large selection of eating disorder-related publications. Visit the book store located on the lobby level foyer near the meeting space.

Meet the Experts Session

Friday, March 28 from 6:00 – 7:30 p.m. in the Lenox Ballroom/2nd floor

Do you have specific questions that you would like to discuss with established experts in your field? Are you looking for consultation on clinical cases, practice issues or ethical dilemmas? Are you interested in developing or evaluating an intervention to treat or prevent eating disorders? Do you want advice on writing a grant application or publishing your work? The Meet the Experts session offers an opportunity for informal discussions on these topics.

Attendance is limited, so sign up early. In order to attend this session, we ask that you sign up at the Meet the Experts table, located near the registration area. Please sign up for this event by Friday at 4:30 p.m. or as long as space is available.

Submit your questions for the experts. If you have a specific question to be addressed by experts, complete a “Meet the Experts Question Form” at the Meet the Experts table and deposit it in the basket on the table.

Avalon Hills Eating Disorders Program is a residential treatment center specializing in the treatment of adolescent (11-17) and adult (18+) women diagnosed with all types of eating disorders. Based on the

philosophy that eating disorders are bio-psycho-social in nature, we recognize recovery begins with medical stabilization and nutritional rehabilitation. We also believe full recovery requires the development of new insights, new experiences, and an integration of new information. Avalon Hills assists females of all ages to manage the ineffective thoughts, emotions, behaviors and cultural influences that have contributed to the development of disordered eating, co-morbid mental disorders and concomitant medical concerns.

Please refer to the 2014 Dues Table (page 3) for pricing.

PAYMENT INFORMATION

Membership year is January 1 through December 31. Dues are billed on a calendar year, and are not prorated. Journal subscribers will receive back issues for the months prior to the join date of that membership year.

\$15 of your dues will be a donation to the AED scholarship fund. No portion of dues is spent on lobbying expenses.

☐ Auto Payment

To authorize automatic renewal of your AED Membership, simply check the Auto Payment box above. You will be charged for subsequent years' dues according to the payment information you provide. AED will send you a reminder notice of the impending automatic debit at least one month before the charge to your account is to be made.

To cancel participation in this program at any time, simply inform AED in writing before October 1st of the year for which you wish to cancel your participation. Thereafter, you can renew "Manually" or cancel your membership altogether.

Freeze the current rates now to save and avoid future dues increases.
